Subject: Mobile Location Intelligence Platform
Attachments: Venntel Mobile Location Intelligence.pdf; VENNTEL DS (1).pdf

Guys,

One of our resellers reached out to me about the mobile tracking software in the attachments and I thought it might be of interest to you.

If not, no big deal. However, if you are interested, let me know and I can set up a meeting.

About Venntel, Inc.

- Founded in 2017
- Located in Herndon, VA

Venntel Inc. HQ
2201 Cooperative Parkway
Herndon, VA 20171

*Venntel provides actionable mobile intelligence and analytics
to the civilian, defense and intelligence communities*

Introduction

- Venntel Mobile Location Intelligence
  - First-of-its-kind data service platform
  - Insight into digital device locations and movement patterns
  - (b) (4) ████████████████████

- The intelligence platform behind Venntel
  - 5+ years of development
  - Compiles, processes & validate ████████████████
  ████████████████████████

Venntel enables unique digital device location analysis to support tipping and cueing

The Location Data Problem

- Over 80% of all mobile location signal data is flawed

  - Phone Locations are spoofed
  - Fraudulent locations provided
  - Duplicate records for same location
  - Captured while moving at high velocities
  - Inaccurate – times and places provided by device

- Venntel's proprietary data services platform identifies, analyzes, cleanses, & validates the world's location signals

VENNTEL

VENNTEL

MOBILE. LOCATION. INTELLIGENCE.

Actionable mobile device intelligence and analytics for the civilian, defense and intelligence communities. Quickly identify threats and reduce the time and resources required to investigate them.

OUR SOLUTIONS

Venntel's proprietary platform analyzes billions of commercially-available location signals to provide insight into digital device locations and movement patterns.

BENEFITS

- Identify mobile devices observed at places of interest - ideal for tipping and cueing

- Filter by date or date range, time-of-day and more

- Monitor high-risk areas; identify repeat visitors, frequented locations, pinpoint known associates and discover pattern of life

- Data license rights permit processing, analysis and sub-licensing of location data

(b) (4)
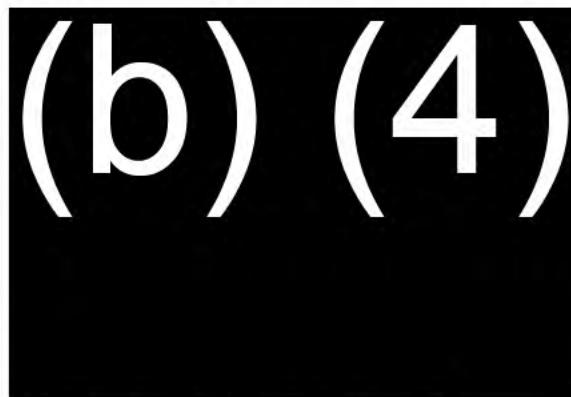

HIGHLIGHTS

- **Proven technology platform.** 5+ years of research and development to create the Venntel platform.

- **Unmatched scale.** Compiles, processes and validates billions of location signals daily.

- **Comprehensive coverage.** Analyzes location signals from 250 million mobile devices in the U.S. Other countries available upon request.

- **100% Opt-in.** All users opt-in to location data collection. No PII is ever collected.

Chris,

Thank you for the response back.

It looks like XD McLaughlin has the following dates/times available:

Wed. 28 March from 1000-1200

Thu. 29 March from 1000-1500

Tue. 03 April from 1000-1500

Wed. 04 April from 1300-1500

Do any of these dates/times work for you?

Great meeting you last week. Thanks again for your comments and suggestion. I wanted to see if it makes sense to get back together for coffee and see how we could help you in your mission and possibly set up a use case. We can also discuss getting a couple of portal licenses for evaluation.

Feel free to reach out to me if you have any questions.

Good Afternoo **(b)(6) (b)(7)(C)**

Thank you for contacting me. I am looking forward to working with you in transitioning your users from their trial portal instance to the NTC Portal.

Shortly, I will send you a list of all the users who have been engaged in the trial so that you can let me know which will be moving forward, (or if there will be different users engaging in NTC's portal.)

I am available all day tomorrow, I will be on customer site Friday but will have opportunities to make brief calls throughout the day on Friday.

Let me know what day and time work the best for you and I will get a call scheduled.

Best,

[blackout] (b) (6) [blackout]

(U) Date of Request: April 16, 2020

(U) Detailed Description of Requirement:
(U//LES) U.S. Customs and Border Protection (CBP) INVNT office requires access to commercial telemetry data as part of a commercial telemetry data pilot. The pilot relates to the use of location information derived from commercially available telemetry data used in the advertising and marketing ecosystem. This commercial telemetry data, associated with the Advertising Identifier, contains location information captured by applications (apps) on modern mobile smart devices, such as smartphones.

(U//LES) The purpose of this firm-fixed price contract is for the contractor to provide the following deliverables:

Item Description	Quantity
(U//LES) Venntel portal access for a named user	(b) (7)(E)

(U) The period of performance will be 9/25/20-9/24/21.
