Declaration of Melissa L. Camacho

I, Melissa L. Camacho, hereby declare:

1. I make this declaration based on my own personal knowledge and if called to testify I could and would do so competently as follows:

2. I am a Senior Staff Attorney at the ACLU Foundation of Southern California (ACLU SoCal) and am admitted to practice law in the State of California and before this Court. I am one of the lawyers who represent the plaintiff class in this action.

3. I serve as ACLU SoCal’s lead LA County Jails (Jails) conditions monitor. In that role, I receive reports from LASD and have unescorted access to each of the Jails so that I can talk to people incarcerated there and observe conditions first-hand.

4. I receive three daily reports by email from staff in the Los Angeles Sheriff’s Department (LASD) Population Management Bureau. This report is called the “IRC Over 24 Hours Report” (hereafter “24-Hour Report”).

5. The 24-Hour Report provides a snapshot of IRC data taken at a specific point in time. Prior to the Preliminary Injunction filed in this case, I received a similar report once a day. Now I receive the 24-Hour Report three times per day, once per shift. The Early Morning (EM) shift report is generally sent around 3:00 am. The AM shift report is generally sent before 1:00 pm, and the PM shift report is sent around 8:00 pm.

6. On information and belief, LASD does not record the total aggregate length of time each person spends in all parts of the IRC.

7. The 24-Hour Report purports to show people in the IRC who have been in IRC processing for over 24 hours. The 24-Hour Report also provides a code for each violation, explaining the reason for the delay. The bottom of each report contains an explanation for each code.

8. The 24-hour clock, however, does not run for the entire time a person

1 spends processing through the IRC. If a person is taken to an IRC overflow area
2 within Men’s Central Jail or taken to IRC 231 for a temporary stay (generally
3 between 8 and 12 hours), the 24-hour clock stops and restarts again from zero
4 when they return to the IRC Clinic or an IRC holding cell.

5 9. Inspector General Max Huntsman confirmed the existence of IRC
6 overflow during the LA County Civilian Oversight Commission meeting on the
7 morning of February 16. Eliasberg Decl. ¶ 3, Ex. A (Hearing Transcript pp. 3-4).

8 10. During a meet-and-confer with county counsel Dylan Ford and Bob
9 Dugdale on Friday, February 17, 2023, I asked about the IRC overflow units and
10 explained that, under the terms of the PI, the clock could not stop for movement to
11 IRC overflow. The PI states that the only reason the clock can stop is if a person
12 has left the IRC to seek medical care for more than 12 hours, and they are provided
13 a bed at that location. Doc. 351 ¶ 1.

14 11. In a meeting on Wednesday, February 22, 2023 with Dylan Ford and
15 LASD staff responsible for IRC reporting and movement, LASD staff agreed to
16 provide, as part of the 24-Hour Reports, total numbers of people in IRC Overflow
17 as well as the locations of those units. They did not commit, at that time, to
18 continuing to run the 24-Hour clock or provide the names of those in the overflow
19 units.

20 12. Beginning with the Thursday PM shift on February 24, 2023, I started
21 receiving and continue to receive 24-Hour Reports that include the number of
22 people in IRC Overflow units in Men’s Central Jail.

23 13. Attached to this Declaration as Exhibits A through F are true and
24 correct copies of the IRC 24-Hour Reports for the following dates and shifts:
25 October 18, 2023 PM shift (Exhibit A), October 19, 2023 EM shift (Exhibit B),
26 February 6, 2023 PM shift (Exhibit C), February 16, 2023 PM shift (Exhibit D),
27 February 17, 2023 EM shift (Exhibit E), February 24, 2023 AM shift (Exhibit F),
28 and February 25, 2023 EM shift (Exhibit G). Classification codes and contact

1 information are redacted for privacy.

2 14. As a way to spot check the veracity of the 24-Hour Reports, on
3 February 16, 2023, I requested the Movement History report for James Webb from
4 LASD Population Management Bureau staff. I saw that Mr. Webb appeared on the
5 February 16, 2023 PM shift report, and I had seen him in a holding cell in the IRC
6 clinic during a visit on the afternoon of February 16, 2023. I received Mr. Webb's
7 Movement History report by email on February 17, 2023.

8 15. A Movement History report shows each time an individual is moved
9 from one area of the Jails to another, including different locations within and
10 outside of IRC. Attached to this Declaration as Exhibit H is a true and correct
11 copy of a Movement History report for Mr. Webb, time stamped on February 17,
12 2023 11:08 am.

13 16. On October 19, 2022 I visited the IRC holding cells around 1:00 pm
14 to observe the conditions and talk to the people held there. When I walked down
15 the custody line cell hallway, individuals held in cell 216 banged on the window of
16 the cell and yelled that they needed toilet paper.

17 17. I stopped to talk to the people there and saw piles of trash under the
18 benches of the cell, and a trash bag in the middle of the floor.

19 18. I left the cell front and went to a deputy working the floor to ask him
20 to give the individuals in cell 216 some toilet paper. He indicated that he would ask
21 a trustee. Approximately 10 minutes later, while I was writing notes, I observed a
22 trustee (incarcerated person worker), sliding a folded-up wad of toilet paper
23 underneath the cell door. I asked the trustee if they could get toilet paper that had
24 not been already put on the floor, and the trustee said that the deputy would have to
25 open the door. I returned to the deputy and asked him to please open the holding
26 cells to provide toilet paper so that it did not have to be slid under the door. I later
27 saw the deputy accompanying a trustee and opening the doors to give individuals
28 in the holding cells rolls of toilet paper.

1 19. The same day, I interviewed Lester Evans, booking number 6484313,
2 in cell 216 and took his Declaration.

3 20. I asked a deputy on the floor to print out Mr. Evans' movement
4 history after Mr. Evans told me that he had been taken to IRC 231 for only a brief
5 stay during the night.

6 21. Attached to this Declaration as Exhibit I is a true and correct copy of
7 the movement history for Lester Evans, printed out at approximately 1:00 pm on
8 October 19, 2022.

9 22. The movement history shows that Mr. Evans was brought to the IRC
10 Booking Front (IRBF) on October 17, 2022 at 3:39 pm, transferred to a holding
11 cell in the IRC Custody Line (IRCL) on October 17, 2022 at 7:38 pm. Mr. Evans
12 stayed in the cell for over 24 hours, and was moved to IRC 231 on October 18,
13 2022 at 8:19 pm. He was then returned back to a Custody Line cell on the morning
14 of October 19, 2022 at 10:07 am.

15 23. At the time I interviewed Mr. Evans on October 19, 2022, he had been
16 in the IRC for nearly 48 hours and had already had one stay in a holding cell for
17 over 24 hours. Yet Mr. Evans never appeared on any 24-Hour Report. *See* Exs. A,
18 B. I reviewed holding cell logs provided by Defendants in the month of October
19 and did not find any log from October 17, 2022 – October 19, 2022.

20 24. I visited Men's Central Jail (MCJ) Unit 6050 on Thursday February
21 16, 2023 with Marisol Dominguez-Ruiz, plaintiffs' counsel, and Berklee Donavan,
22 ACLU SoCal Jails Conditions Advocate. This area was being used as IRC
23 overflow.

24 25. One area of MCJ 6050 consisted of a long hallway with six person
25 cells on one side and a wall with TVs on the other side. The cells did not have
26 trashcans. Instead, the people inside had tied a bag used to distribute food to the
27 front of the cells and put trash from food inside. I observed the mattresses, and one
28 person brought a foam mattress for me to touch and measure. The foam mattress

1 was approximately 2 inches thick and had no cover, just bare foam.
2 Approximately half of the mattresses in 6050 did not have a cover, and no mattress
3 had sheets. All had a single blanket. I did not see any towels, toothbrushes, or
4 toothpaste. I did see a small bar of soap in one of the cells.

5 26. The three TVs in 6050 all appeared new. One was stuck playing a
6 loop of show-floor advertisements for the TV. One was static only, and the other
7 had an antenna that people in the cells asked me to stick to the wall. There was a
8 sticker for “Ladies Speed Stick” deodorant on the wall that someone had used to
9 try and stick the antenna to a location that would help the TV get reception. I tried
10 to stick the antenna to the wall, and it stayed in place for a minute, but as I walked
11 away, the antenna fell down again.

12 27. There was no deputy station nearby. During our interviews, deputies
13 walked past twice, apparently conducting a safety check.

14 28. The area was very cold. Each cell had plastic covering the vents by
15 means of plastic spoons stuck through the plastic and into the holes of the vents.

16 29. From MCJ 6050, I walked with Ms. Dominguez-Ruiz and Ms.
17 Donavan to the IRC Clinic. As I passed holding cell 122, a man inside held up
18 three fingers and yelled that he’d been there for three days. I asked to see his
19 wristband through the glass so that I could get his name and booking number. The
20 band read James Webb, booking number 6549978. (See paragraphs 16 and 17,
21 above).

22 30. The open clinic area was incredibly crowded. The atmosphere was
23 tense and loud.

24 31. As we walked in, deputies began telling individuals laying down on
25 the floor that they had to get up and find a chair. The chairs, however, were largely
26 full. There were clearly not enough chairs for everyone to sit.

27 32. On Friday, February 17, 2023 I returned to the IRC Clinic at
28 approximately 11:40 am with Ms. Dominguez-Ruiz and Peter Eliasberg.

1 33. The IRC Clinic was not as crowded or chaotic as it had been the
2 previous day. I observed approximately five people trying to sleep on the floor.
3 Two men were trying to sleep under the TVs in the Clinic area and had covered
4 themselves with the plastic bags that I know to be used for food distribution.

5 34. I asked a deputy to print out the length of stay for those people in the
6 clinic. From the print out, I learned that the person with the longest stay was
7 Marvin Irvin, booking number 6550382, and that he had been there for 35 hours
8 and 51 minutes.

9 35. I located Mr. Irvin, sitting on a chair in the IRC Clinic and asked if he
10 would be willing to be interviewed and provide a declaration to the Court. He
11 agreed, and we began to talk. After about 10 minutes, Mr. Irvin's name was called
12 over the intercom. He told me he had to go or else he wouldn't get a bed. I
13 followed him to a deputy who then escorted him to IRC 231.

14 36. I continued interviewing Mr. Irvin in IRC 231.

15 37. After I completed my interview of Mr. Irvin, I went with Ms.
16 Dominguez-Ruiz to the IRC Custody Line cell row. While she interviewed people
17 in holding cell 209, I talked with people in cell 210.

18 38. The cell had piles of trash on the floor underneath the windows and by
19 the benches. I asked if it had been cleaned recently, and the people inside laughed.

20 39. I asked the deputy to direct a trustee to clean out cell 210. After
21 approximately 20 minutes, a deputy opened the cell for a trustee who then swept
22 all of the trash out of the cell.

23 40. After the trustee left, one of the men indicated with his feet that the
24 floor was still sticky. The trustee did not have a mop to clean any spilled food or
25 drink from the floor.

26 I declare under penalty of perjury under the laws of the United States that
27 the foregoing is true and correct.

A. Processing included court

- a. These inmates processed through the IRC and had a court date prior to being assigned housing. Since court appearances do not pause the processing clock the inmate will be returned from court . If the inmate is a G/P inmate, he will be returned to Custody Line for housing. The entirety of the processing will lead to inmates being extended >24 hours.

B. Extended medical processing

- a. Inmates who did not receive a "12" pass, >12 hours, and were eventually prescribed a 12A pass are delayed for this reason. If the pass is for a specialized housing and the delay is due to lack of the prescribed housing, see "G/H."

C. Lock-down

- a. Must note the facility which is locked down.

D. Refusal to house

E. LCMC or another outside hospital <12 hours, causing extended processing

- a. The TRO allows any inmate at a hospital outside the IRC >12 hours, can have their processing clock

restarted. However, If an inmate is at the hospital for 11.5 hours, and this causes a delay in processing over the 24 hour threshold we can utilize this code. The new 24-hour clock accounts and restarts the clock automatically if the inmate is at LCMC or IROH over 12 hours. The clock will restart once they are updated back to an "IR" code.

F. Re-Evaluation

- a. Inmates who completed in-processing and are at Custody Line who express they are suicidal, have a medical issue, or demand a reevaluation and subsequently reintroduced to the IRC Clinic or Tower 1 Clinic.

G. Lack of specialized classification housing

- a. G, Y, 10 etc, and there is no room at I231

H. Lack of specialized medical/mental health housing

- a. FIP, MOSH etc. and there is no room, or the inmate is not compatible with I231.

I. Administrative processing delay

- a. Releases from Custody Line during the EM's, Remods, 415, Crime Reporting, Delay in CII/MAIN

J. Pending RL13

- a. State Prison Desk has not released the inmate out of AJIS at this time.

K. Pending In-Custody Release

Pending COVID results

Extended Reason Codes	
<p>A- Processing included court</p> <p>a. Inmates attending court before assigned permanent housing will return to IRC for processing. Time spent at court will continue to accumulate until the inmate has completed processing and permanently housed.</p> <p>B- Extended medical processing</p> <p>a. The TRO allows any inmate at a hospital outside the IRC >12 hours, can have their processing clock restarted. However, If an inmate is at the hosp ital for 11.5 hours, and this causes a delay in processing over the 24 hour threshold we can utilize this code. The new 24-hour clock accounts and restarts the clock automatically if the inmate is at LCMC or IROH over 12 hours. The clock will restart once they are updated back to an "IR" code.</p> <p>F- Medical/Psych Re-Evaluation</p> <p>a.
