AL SCHMIDT, in his official capacity as Secretary of the Commonwealth, ALLEGHENY COUNTY BOARD OF ELECTIONS, BERKS COUNTY BOARD OF ELECTIONS, BUCKS COUNTY BOARD OF ELECTIONS, LANCASTER COUNTY BOARD OF ELECTIONS, LEHIGH COUNTY BOARD OF ELECTIONS, MONTGOMERY COUNTY BOARD OF ELECTIONS, NORTHAMPTON COUNTY BOARD OF ELECTIONS, PHILADELPHIA COUNTY BOARD OF ELECTIONS, WARREN COUNTY BOARD OF ELECTIONS, WASHINGTON COUNTY BOARD OF ELECTIONS, WESTMORELAND COUNTY BOARD OF ELECTIONS, and YORK COUNTY BOARD OF ELECTIONS,

Civ. No. 22-339

**AMENDED COMPLAINT  
FOR DECLARATORY AND INJUNCTIVE RELIEF**

**INTRODUCTION**

1. Plaintiffs—nonpartisan organizations dedicated to promoting American democracy and the participation of Pennsylvania voters in our shared civic

enterprise, and a bipartisan group of Pennsylvania voters, ages 64 through 95, all of whom cast mail ballots in the 2022 election—bring this Complaint for declaratory and injunctive relief pursuant to 42 U.S.C. § 1983 and 52 U.S.C. § 10101 to ensure that qualified Pennsylvania voters are not disenfranchised based on an immaterial paperwork error.

2. Defendants, Pennsylvania’s Secretary of the Commonwealth and 12 Pennsylvania county boards of elections, will not count thousands of timely-received mail ballots submitted for the November 2022 election and future elections by otherwise qualified voters based on a meaningless technicality—that the ballots are missing a handwritten date next to their signature on the return envelope, or because the handwritten date is somehow “wrong.” This refusal to count timely mail ballots submitted by otherwise eligible voters because of a trivial paperwork error violates the Materiality Provision of the Civil Rights Act, which makes it unlawful to deny the right to vote based on an “error or omission” on a voting-related “record or paper” that is “not material in determining whether [a voter] is qualified under State law to vote in [the] election.” 52 U.S.C. § 10101(a)(2)(B). Because mail ballots in Pennsylvania may, under state law, be completed at “any time,” and because their timeliness is determined by when a local county board of elections receives and date-stamps the ballot, the presence or absence of a handwritten date on the envelope is utterly immaterial to determining whether the ballot was timely received, much less to assessing a voter’s qualifications. *See Migliori v. Cohen*, 36 F.4th 153, 164 (3d Cir.), *vacated as moot*, No. 22-30, 2022 WL 6571686 (U.S. Oct. 11, 2022).

3. In addition to the Materiality Provision, Defendants' refusal to count timely-received mail ballots based on an immaterial paperwork error also violates the Equal Protection Clause of the Fourteenth Amendment because it imposes arbitrary distinctions between different mail ballot voters that are unsupported by any legitimate government interest (let alone a compelling one). Defendants' refusal to count timely-received mail ballots on this basis also violates the First and Fourteenth Amendments by imposing an undue and unjustified burden on the right to vote.

4. The Plaintiff organizations represent the interests of their combined thousands of members. Many of the Plaintiff organizations' members are qualified and registered Pennsylvania voters who timely voted by mail-in ballot, some of whom were or will be directly affected by Defendants' enforcement of the immaterial envelope-date rule in 2022 as well as future elections. The Plaintiff organizations' expansive get-out-the-vote and voter education efforts are also burdened, even undermined, by hyper-technical rules that disenfranchise thousands of Pennsylvania voters based on an inconsequential paperwork error.

5. As for the individual voter Plaintiffs, they seek to vindicate their fundamental right to vote, which includes having their votes for federal, state, and local offices counted. The individual Plaintiffs, all of whom were disenfranchised by Defendants' actions, care deeply about their right to vote for numerous reasons, including ensuring representation for themselves and their families, and making themselves heard on the issues that matter to them.

6. Absent declaratory and injunctive relief from this court, the individual voter plaintiffs and the organizational plaintiffs and their members will suffer irreparable harm.

### **JURISDICTION AND VENUE**

7. Plaintiffs bring this civil rights action pursuant to 42 U.S.C. § 1983 to enforce the rights guaranteed by 52 U.S.C. § 10101 and the First and Fourteenth Amendments. Alternatively, Plaintiffs bring suit directly under Section 10101 via the implied right of action contained within 52 U.S.C. § 10101.

8. This Court has subject matter jurisdiction over this action pursuant to 28 U.S.C. §§ 1331 (federal question jurisdiction) and 1343 (civil rights cases).

9. Declaratory relief is authorized by Rule 57 of the Federal Rules of Civil Procedure and 28 U.S.C. §§ 2201 and 2202.

10. Venue in this district is proper under 28 U.S.C. § 1391 because a substantial part of the events giving rise to the claims occurred in this district and several Defendants conduct business in this district. And venue in the Erie Division is appropriate because the Defendants include the boards of elections in Crawford, Elk, Erie, Forest, McKean, Venango, and Warren Counties, and the Plaintiffs include organizations with members in those counties as well as individual voters who vote in Crawford and Warren counties. *See* W.D. Pa. LCvR 3.

### **PARTIES**

11. The Pennsylvania State Conference of the NAACP (“the State Conference”) is a non-profit, non-partisan organization that works to improve the

political, educational, social, and economic status of African-Americans and other racial and ethnic minorities, to eliminate racial prejudice, and to take lawful action to secure the elimination of racial discrimination, among other objectives. The State Conference has thousands of members who live and/or work in Pennsylvania, many of whom are registered to vote in Pennsylvania and are at risk of disenfranchisement if Defendants fail to count timely-submitted mail-in ballots based solely on a missing or incorrect date on the return envelope.

12. The State Conference advocates for civil rights, including voting rights, for Black Americans, both nationally and in Pennsylvania. Every election cycle, the State Conference engages in efforts to get out the vote, including by educating Black voters in Pennsylvania on different methods of voting, providing educational guides on local candidates to increase voter engagement, and focusing on strategies to eliminate Black voter suppression both nationally and in Pennsylvania.

13. Defendants' failure to count timely-submitted mail-in ballots based solely on a missing or incorrect date on the return envelope will disenfranchise potentially thousands of voters, directly affecting the State Conference's members and interfering with its ability to carry out its mission of increasing voter turnout and participation. Defendants' failure to count such ballots also has caused and will cause the State Conference to divert resources in this and future elections from its existing voter education and mobilization efforts towards investigating and educating voters about any available cure processes or to advocate that new processes be developed to

ensure that voters who are eligible and registered and who submitted their ballots on time are not disenfranchised by a trivial paperwork mistake.

14. The League of Women Voters of Pennsylvania (“the League”) is a nonpartisan statewide non-profit formed in 1920. The League and its members are dedicated to helping the people of Pennsylvania exercise their right to vote, as protected by the law. The League has 2,500 members across Pennsylvania, including in Crawford, Elk, Erie, Forest, McKean, Venango, and Warren Counties. Members of the League are registered voters in Pennsylvania who regularly vote in state and federal elections, including by mail or absentee ballot. The League’s members are at risk of disenfranchisement if Defendants fail to count ballots based solely on a missing or incorrect handwritten date on the return envelope.

15. The League’s mission includes voter registration, education, and get-out-the-vote drives. The League conducts voter-registration drives, staffs nonpartisan voter-registration tables, educates incarcerated and formerly incarcerated individuals about their voting rights, and works with local high schools to register new 18-year-old voters. It also maintains an online database called VOTE411, a nonpartisan and free digital voter resource with information available in both English and Spanish, including voter guides, candidate information, polling rules and locations, and more.

16. Defendants’ failure to count timely-submitted mail-in ballots based solely on a missing or incorrect date on the return envelope will disenfranchise potentially thousands of voters, thus directly affecting the League’s members and

interfering with the League's ability to carry out its mission of increasing voter turnout and participation. And both now and especially in future elections, the Defendants' enforcement of the immaterial envelope-date rule has caused and will cause the League to divert resources from its existing voter-mobilization and education efforts towards identifying voters who neglected to write the date on the return envelope, educating voters about any available cure processes, and advocating for new cure processes to be developed in real time at the county level. For future elections, the League will be forced to dedicate resources to educating voters about strict compliance with hyper-technical rules of Pennsylvania election law so that voters are not disenfranchised over trivial and immaterial paperwork errors.

17. Philadelphians Organized to Witness, Empower and Rebuild ("POWER") is a Pennsylvania nonprofit founded in 2011 to advance concrete policy changes to transform and strengthen communities. POWER is an organization of more than 100 congregations of various faith traditions, cultures and neighborhoods committed to racial and economic justice on a livable planet. One of its five priority areas is civic engagement and organizing communities so that the voices of all faiths, races and income levels are counted and have a say in government.

18. POWER engages directly with people who live in the communities that its member congregations serve. Its civic engagement efforts include voter education programs, voter registration drives, information about applying for mail ballots, completing them properly and returning them on time, and "Souls to the Polls" efforts

to encourage congregants to vote. In the 2020 election cycle, POWER contacted more than 700,000 voters and plans to reach a similar number in 2022.

19. In the three weeks leading up to this November's election, POWER launched a three-week bus tour to promote a vision for building a community in Pennsylvania rooted in inclusivity, diversity and justice. The bus tour scheduled numerous events, including voter registration canvasses and voter education programs that provide information on mail voting.

20. Because of Defendants' failure to count timely-submitted mail-in ballots based solely on a missing or incorrect date on the return envelope, POWER must divert its limited resources to re-contacting voters to make sure they dated their ballots. Refusing to count votes based on immaterial paperwork errors has a suppressive effect on the communities POWER serves by erecting yet another roadblock preventing them from voting and having their votes counted. In this, as well as future elections, the Defendants' enforcement of the immaterial envelope-date rule has caused and will cause POWER to divert resources from its existing voter-mobilization and education efforts towards counteracting the disenfranchising effects of the strict enforcement of the envelope-date requirement.

21. Common Cause Pennsylvania ("Common Cause") is a non-profit political advocacy organization and a chapter of the national Common Cause organization. Common Cause has approximately 36,000 members and supporters in Pennsylvania. These members live in all 67 counties of Pennsylvania, and many members are registered voters in Pennsylvania who are at risk of disenfranchisement if

Defendants fail to count timely-submitted mail-in ballots based solely on a missing or incorrect date on the return envelope.

22. Common Cause seeks to increase the level of voter registration and voter participation in Pennsylvania elections, especially in communities that are historically underserved and whose populations have a low propensity for voting. Many of these communities are communities of color.

23. In preparation for the statewide election, Common Cause mobilizes hundreds of volunteers to help fellow Pennsylvanians navigate the voting process and cast their votes without obstruction, confusion, or intimidation. Common Cause leads the nonpartisan Election Protection volunteer program, which aims to ensure voters have access to the ballot box, provide voters with necessary voting information and answer their questions, quickly identify and correct any problems at polling places, and gather information to identify potential barriers to voting. Because of Defendants' refusal to count timely-submitted mail-in ballots based solely on a missing or incorrect date on the return envelope, in this and future elections Common Cause was required and will be required to divert resources from its existing efforts towards educating voters about the drastic consequences of failing to comply with a trivial paperwork requirement that was previously understood (including by a panel of federal judges) to be superfluous, and about any available cure processes to prevent the disenfranchisement of its members and other Pennsylvania voters.

24. Black Political Empowerment Project ("B-PEP") is a non-profit, non-partisan organization that has worked since 1986 to ensure that the Pittsburgh

African-American community votes in every election. B-PEP has numerous supporters, of various ages and races, throughout the Pittsburgh Region, working with numerous community organizations to empower Black and brown communities.

25. During every election cycle, B-PEP's work includes voter registration drives, get-out-the-vote activities, education and outreach about the voting process, and election-protection work. B-PEP focuses these activities in predominantly Black neighborhoods in Allegheny County, with some efforts in Westmoreland and Washington Counties. In preparation for the November 8, 2022, election, B-PEP's work has included educating its members and voters in predominantly Black communities about the importance of voting, and about how to vote, either in person or by mail. B-PEP's members include many older voters, who are at particularly high risk of having their ballots disqualified for minor errors, such as omitting the date on the mail-in-ballot-return envelope. B-PEP has an interest in preventing the disenfranchisement of eligible voters who seek to have their votes counted.

26. Make the Road Pennsylvania ("Make the Road PA") is a not-for-profit, member-led organization formed in 2014 that builds the power of the working-class in Latino and other communities to achieve dignity and justice through organizing, policy innovation, and education services. Make the Road PA's more than 10,000 members are primarily working-class residents of Pennsylvania, many in underserved communities. Many members of Make the Road PA are registered voters in Pennsylvania and are at risk of disenfranchisement if Defendants fail to count

timely-submitted mail-in ballots based solely on a missing or incorrect date on the return envelope.

27. Make the Road PA's work includes voter protection, voter advocacy and voter education on, for example, how to register to vote, how to apply for mail-in/absentee ballots, how to return mail-in/absentee ballots, and where to vote. Make the Road PA has run active programs to register voters in historically underserved communities of color, especially in Berks, Bucks, Lehigh, Northampton and Philadelphia Counties.

28. Defendants' failure to count timely-submitted mail-in ballots based solely on a missing or incorrect date on the return envelope will disenfranchise potentially thousands of voters, thus directly affecting Make the Road PA's members and interfering with Make the Road's ability to carry out its mission of increasing voter turnout and participation. Indeed, because Make the Road PA's efforts are focused on communities where some voters are not native English speakers, the risk that some voters may make a minor paperwork mistake in filling out various forms related to mail or absentee ballot voting is heightened. For example, if a voter followed the date sequencing convention used by many other countries, they may have transposed the day before the month in dating their outer return envelope—and, on information and belief, that would constitute an "incorrect" date under Defendants' standards. Defendants' failure to count timely-submitted mail-in ballots based solely on a missing or incorrect date on the return envelope in this and future elections also has caused and will cause Make the Road to divert resources from its

existing efforts towards focusing voters on trivial, technical mail ballot rules and towards investigating and educating voters about any available cure processes that might be available for the thousands who will invariably be disenfranchised by a trivial paperwork mistake under Defendants' current policy.

29. [INTENTIONALLY LEFT BLANK].

30. Barry M. Seastead is a Warren County voter facing disenfranchisement by Defendants solely because his timely-received mail ballot has a purportedly-incorrect date next to the signature on the outer return envelope. Seastead is a 68-year-old retired welder. He has been a registered voter in Warren County for decades, ever since he was legally eligible to vote. He votes regularly, and has been voting by mail for the past few years. For the November 8, 2022 election, Seastead properly requested a mail-in ballot, marked his ballot, and inserted it into the secrecy envelope and then into an outer envelope on which he signed the declaration. Seastead also believes he wrote the date on which he filled out the ballot, and he is unaware of why the Warren County Board of Elections rejected the date he wrote as "incorrect." Because Warren County did not provide him with any notice of its determination that the date he wrote was incorrect, he had no opportunity to cure any defect regarding the date on his outer return envelope prior to Election Day and only learned after Election Day that his vote was not counted. Voting is important to Seastead because he is the grandson of an immigrant and believes that voting is the foundation of this country, and he wants his vote for federal and state offices to count in this election. A true and correct copy of Seastead's declaration is attached as Ex. A.

31. [INTENTIONALLY LEFT BLANK].

32. Marlene G. Gutierrez is a York County voter facing disenfranchisement by Defendants solely because her timely-received mail ballot lacks a date next to the signature on the outer return envelope. Gutierrez is 64 years old. She works as a corporate travel agent. She first registered to vote in York County when she was 18 years old, and after residing elsewhere for several years, she most recently registered to vote in York County when she moved back in September 2020. She has been regularly voting by mail for at least twenty years. For the November 8, 2022 election, Gutierrez properly requested a mail-in ballot, marked her ballot, and inserted it into the secrecy envelope and then into an outer envelope on which she signed the declaration. Gutierrez believed she had followed all of the instructions but learned on Election Day that her ballot would not be counted, and she did not have time to cure her ballot. Voting is important to Gutierrez because she wants her preferred political party to represent her, and she wants her vote for federal and state offices to count in this election. A true and correct copy of Gutierrez's declaration is attached as Ex. B.

33. [INTENTIONALLY LEFT BLANK].

34. Aynne Margaret Pleban Polinski is a York County voter who is facing disenfranchisement by Defendants solely because her timely-received mail ballot lacks a date next to the signature on the outer return envelope. Polinski is 71 years old. She is a retired art educator, art therapist, and professional artist. Polinski is a qualified voter who participates regularly in elections: she has been a registered voter

in York County since 2016 and a registered voter in the Commonwealth of Pennsylvania since she was 18 years old. Polinski has been voting by mail since the June 2020 presidential primary because of the COVID-19 pandemic. For the November 8, 2022 election, Polinski properly requested a mail-in ballot, marked her ballot, and inserted it into the secrecy envelope and then into an outer envelope on which she signed the declaration. Because York County did not provide her with any notice of the missing date, she had no opportunity to cure any defect regarding the date on her outer return envelope prior to Election Day and only learned after Election Day that her vote was not counted. Voting is important to Polinski because she believes everyone has a right to support their preferred candidate and policies, and she wants her vote for federal and state offices to count in this election. A true and correct copy of Polinski's declaration is attached as Ex. C.

35. Joel Bencan is a Montgomery County voter facing disenfranchisement by Defendants solely because his timely-received mail ballot has a purportedly-incorrect date next to the signature on the outer return envelope. Bencan is 71 years old. He is a retired pharmacist. He has been a registered voter for decades and has participated regularly in elections since the Nixon Administration. Bencan began voting by mail in 2020 because of the COVID-19 pandemic and has continued since then to vote by mail. For the November 8, 2022 election, Bencan properly requested a mail-in ballot, marked his ballot, and inserted it into the secrecy envelope and then into an outer envelope on which he signed the declaration. Bencan also recalls writing the date on which he filled out the ballot, and he is unaware of why the Montgomery

County Board of Elections rejected the date he wrote as “incorrect.” Because Montgomery County did not provide him with any notice of its determination that the date he wrote was incorrect, he had no opportunity to cure any defect regarding the date on his outer return envelope prior to Election Day. Voting is important to Bencan because he believes each individual vote can make a difference, and he wants his vote for federal and state offices to count in this election. A true and correct copy of Bencan’s declaration is attached as Ex. D.

36. Laurence M. Smith is a Montgomery County voter who is facing disenfranchisement by Defendants solely because his timely-received mail ballot has a missing or purportedly-incorrect date next to the signature on the outer return envelope. Smith is 78 years old. Before his retirement, he worked as an entrepreneur in the medical services industry. He has been a registered voter for decades, and he has been voting regularly in Montgomery County since moving there in 1991, including voting by mail since 2020. For the November 8, 2022 election, Smith properly requested a mail-in ballot, marked his ballot, and inserted it into the secrecy envelope and then into an outer envelope on which he signed the declaration. Smith believed he had followed all of the necessary steps to complete the declaration, and he is unaware of what the Montgomery County Board of Elections concluded was wrong with the date form. Because Montgomery County did not provide him with any notice of its determination about the date form on his outer return envelope, he had no opportunity to cure any defect prior to Election Day. Voting is important to Smith because Smith is concerned with the increasing polarization across the country, and

he wants his vote for federal and state offices to count in this election. A true and correct copy of Smith's declaration is attached as Ex. E.

37. Defendant Secretary Al Schmidt has the duty “[t]o receive from county boards of elections the returns of primaries and elections, to canvass and compute the votes cast for candidates and upon ballot questions as required by the provisions of this act; to proclaim the results of such primaries and elections, and to issue certificates of election to the successful candidates at such elections.” 25 Pa. Stat. § 2621(f). Defendant has and/or his predecessors in office have issued guidance to county boards of elections that timely-submitted mail-in ballots that are determined to have a missing or incorrect date on the return envelope must be segregated and excluded from tabulation for the 2022 election.

38. Defendant County Boards of Elections are county-level executive agencies established under the Pennsylvania Election Code with jurisdiction over the conduct of primaries and elections in each of their respective counties. *See* 25 Pa. Stat. Ann. § 2641. Each elections board Defendant manages all aspects of elections in its respective county. *Id.* Their authority includes canvassing and computing the votes cast in each county's election districts and then certifying the results of each race to Pennsylvania's Secretary of the Commonwealth. *See* 25 Pa. Stat. Ann. § 2642.

## FACTS

### A. Pennsylvania's Mail Ballot Rules

39. Pennsylvania has long provided absentee-ballot options for voters who cannot attend a polling place on election day. *See* 25 P.S. § 3146.1–3146.9. In 2019,

Pennsylvania enacted new mail-in voting provisions, which allow all registered, eligible voters to vote by mail. Act of Oct 31, 2019, P.L. 552, No. 77, § 8.

40. A voter seeking to vote by mail must complete an application and have their identity and qualifications verified. The voter must provide their name, address, and proof of identification to their county board of elections. 25 P.S. §§ 3146.2, 3150.12. Such proof of identification may include, among other things, a Pennsylvania driver's license number or the last four digits of the voter's social security number. 25 P.S. § 2602(z.5)(3). As part of the application process, voters provide all the information necessary for county boards of elections to verify that they are qualified to vote in Pennsylvania—namely, that they are at least 18 years old, have been a U.S. citizen for at least one month, have resided in the election district for at least 30 days, and are not incarcerated on a felony conviction. 25 Pa. C.S. § 1301.

41. After the application is submitted, the county board of elections confirms applicants' qualifications by verifying their proof of identification and comparing the information on the application with information contained in a voter's record. 25 P.S. §§ 3146.2b, 3150.12b; *see also id.* § 3146.8(g)(4).<sup>1</sup> The county board's determinations on that score are conclusive as to voter eligibility unless challenged prior to Election Day. *Id.* Once the county board verifies the voter's identity and eligibility, it sends a

mail-ballot package that contains a ballot, a “secrecy envelope” marked with the words “Official Election Ballot,” and the pre-addressed outer return envelope, on which a voter declaration form is printed (the “Return Envelope”). *Id.* §§ 3146.6(a), 3150.16(a). Poll books kept by the county show which voters have requested mail ballots and which have returned them. *Id.* §§ 3146.6(b)(3), 3150.16(b)(3).

42. At “any time” after receiving their mail-ballot package, the voter marks their ballot, puts it inside the secrecy envelope, and places the secrecy envelope in the Return Envelope. 25 P.S. §§ 3146.6(a), 3150.16(a). The voter delivers the ballot, in the requisite envelopes, by mail or in person to their county board of elections. To be considered timely, a county board of elections must receive a ballot by 8 p.m. on Election Day. *Id.* §§ 3146.6(c), 3150.16(c). Upon receipt of a mail ballot, county boards of elections stamp the Return Envelope with the date of receipt to confirm its timeliness and log it in the Statewide Uniform Registry of Electors (“SURE”) system, the voter registration system used to generate poll books.<sup>2</sup>

43. Timely absentee and mail-in ballots that county boards of elections have verified consistent with the procedures set forth in § 3146.8(g)(3), that have not been challenged, and for which there is no proof that the voter died prior to Election Day are counted and included with the election results. *Id.* § 3146.8(d), (g)(4).

<sup>2</sup> See, e.g., Pa. Dep’t of State, *Guidance Concerning Examination of Absentee and Mail-In Ballot Return Envelopes* at 2–3 (Sept. 11, 2020).

44. Pennsylvania’s adoption of mail voting has been a boon for voter participation in the Commonwealth. For example, in 2020, 2.7 million Pennsylvanians voted by absentee or mail ballot.<sup>3</sup>

45. In Pennsylvania’s 2022 general election, approximately 1.4 million mail ballots were requested.

**B. Litigation Over the Envelope-Date Requirement**

46. This case involves the instructions regarding the Return Envelope in which a voter places their mail ballot, in particular the direction that a voter “shall ... fill out, date and sign the declaration printed on such envelope.” *See* 25 P.S. §§ 3146.6(a), 3150.16(a). The issue is whether a qualified, registered voter who (1) applies for and obtains a mail ballot, (2) fills it out, places it in the secrecy envelope and the Return Envelope, and signs the declaration on the Return Envelope, and then (3) timely returns the envelope to their local board of elections by 8 p.m. on Election Day as confirmed by an official date stamp, may nevertheless have their vote invalidated because they did not add a superfluous handwritten date next to their signature on the Return Envelope, or because the date they wrote was deemed “incorrect” by a county board of elections.

47. The envelope-dating provision has been the subject of repeated litigation and guidance from the Department of State, including a unanimous Third Circuit

For ease of reference, the term “mail ballots” is used herein to encompass both absentee and mail ballots. The relevant rules governing the treatment of absentee and mail ballots are identical.

panel decision (which was later vacated as moot) that refusing to count ballots on that basis violates federal law.

**i. *In re Canvass***

48. In 2020, the Supreme Court of Pennsylvania, in the context of a fast-moving post-election lawsuit, concluded 3-1-3 that otherwise valid mail ballots contained in signed but undated Return Envelopes would be counted in that election. *In re Canvass of Absentee and Mail-In Ballots of Nov. 3, 2020 Gen. Election*, 241 A.3d 1058, 1062 (Pa. 2020).

49. The decision from the Supreme Court of Pennsylvania primarily concerned the construction of state law and did not produce a single majority opinion. But a majority of the Court suggested (albeit without deciding) that invalidating votes for failure to comply with the envelope-dating provision “could lead to a violation of federal law by asking the state to deny the right to vote for immaterial reasons,” contrary to the Materiality Provision. *In re Canvass*, 241 A.3d 1058 at 1074 n.5 (opinion announcing the judgment for three Justices); *id.* at 1089 n.54 (Wecht, J., concurring and dissenting) (expressing similar concern). Indeed, Justice Wecht was so concerned that he urged the Pennsylvania General Assembly to review the Election Code with “[the Materiality Provision] in mind.” *Id.*

**ii. *Migliori***

50. Earlier this year, a unanimous panel of the Third Circuit concluded that disenfranchising voters based on the envelope-dating provision would violate the

Materiality Provision. *Migliori*, 36 F.4th at 162–64; *id.* at 164–66 (Matey, J., concurring).<sup>4</sup>

51. In the 2021 Lehigh County elections, 257 timely-received mail ballots (1% of all mail ballots) were initially excluded based on mail-ballot voters’ inadvertent failure to handwrite a date on the Return Envelope. Three-quarters of the affected voters were over 65 years old, and fifteen of them were older than 90.<sup>5</sup>

52. Consistent with the then-current guidance from the Secretary of the Commonwealth, the Lehigh County Board of Elections counted ballots where the Return Envelopes had “wrong” dates on them, *e.g.*, a voter wrote their own birthdate instead of the date they signed the envelope. As the county clerk explained, he did so because state law “doesn’t say what date.”

53. The Lehigh County Board of Elections ultimately voted to count the 257 mail ballots without a date on the outer envelope, explaining, among other reasons, that the voters had made a “technical error,” that there was no question that the ballots were “received on time,” that “the signatures [on the Return Envelopes] match the poll book,” and that the directive on the Return Envelope to include a date was in small print and could have been made “much more visible to the voters.”

54. However, a candidate for County Court of Common Pleas, who was then leading the vote count by less than 257 votes, challenged the county board’s decision

in state court. A divided panel of the Commonwealth Court eventually ruled in his favor in an unpublished decision that briefly mentioned, but did not resolve, the Materiality Provision issue. *See Ritter v. Lehigh Cnty. Bd. of Elections*, No. 1322 C.D. 2021, 272 A.3d 989 (Tbl.), 2022 WL 16577 (Pa. Commw. Ct. Jan. 3, 2022), *appeal denied*, 271 A.3d 1285 (Pa. 2022).

55. A bipartisan group of voters then sued in federal court. After a district judge dismissed their case on procedural grounds, a unanimous three-judge panel of the U.S. Court of Appeals for the Third Circuit reversed, upholding plaintiffs' right to have their votes counted under federal law. *See Migliori*, 36 F.4th at 162–64; *see also id.* 164–66 (Matey, J., concurring). The court concluded that because omitting the handwritten date on the Return Envelope was not “material in determining whether [a voter] is qualified to vote under Pennsylvania law,” disenfranchising voters based on that omission violated federal law, namely, the Materiality Provision. *Id.* at 162–63. Judge Matey concurred that the defendants had offered “no evidence, and little argument, that the date requirement for voter declarations under the Pennsylvania Election Code ... is material as defined in § 10101(a)(2)(B).” *Migliori*, 36 F.4th at 165 (Matey, J., concurring). The court ordered Lehigh County to count the 257 mail ballots in undated envelopes.

56. The Court of Common Pleas candidate pressing the appeal, David Ritter, then sought a stay from the U.S. Supreme Court.

57. The Supreme Court denied the stay, with three justices dissenting, thus allowing (indeed, requiring) Lehigh County to count the 257 mail ballots. *See Ritter*

*v. Migliori*, 142 S. Ct. 1824 (2022) (mem.). The 2021 election was then certified with all the ballots counted, which the parties agreed mooted the controversy. The Supreme Court later granted Ritter’s request to vacate the Third Circuit’s decision as moot, pursuant to *United States v. Munsingwear, Inc.*, 340 U.S. 36 (1950), which the Court did in a short-form order that did not question the correctness of the Third Circuit’s decision, *see Ritter v. Migliori*, No. 22-30, 2022 WL 6571686 (U.S. Oct. 11, 2022). Vacatur for mootness is not a merits determination and decisions that have been vacated as moot are still “persuasive” authority. *See Polychrome Int’l Corp. v. Krigger*, 5 F.3d 1522, 1534 (3d Cir. 1993).

**iii. *McCormick and Berks County***

58. After the Third Circuit’s *Migliori* decision, the Commonwealth Court of Pennsylvania twice held that such mail ballots must be counted as a matter of both state and federal law in suits arising out of the 2022 primary. *Chapman v. Berks Cnty. Bd. of Elections*, No. 355 M.D. 2022, 2022 WL 4100998, at \*12–\*29 (Pa. Commw. Ct. Aug. 19, 2022); *McCormick for U.S. Senate v. Chapman*, No. 286 M.D. 2022, 2022 WL 2900112, at \*9–\*15 (Pa. Commw. Ct. June 2, 2022). These decisions agreed with the *Migliori* panel that the federal Materiality Provision required that result. *See, e.g., Berks Cnty.*, 2022 WL 4100998, at \*12–\*29 (concluding that “the failure of an elector to handwrite a date on the declaration on the return envelope does not relate to the timeliness of the ballot or the qualification of the elector”).

59. Consistent with those decisions, the Secretary of the Commonwealth advised counties in the months leading up to the 2022 election to count otherwise

valid and timely-received mail ballots even where voters omitted a handwritten date, or wrote a plainly wrong date like a birthdate, on the Return Envelope.<sup>6</sup> The Secretary reaffirmed that guidance after the U.S. Supreme Court vacated on mootness grounds the Third Circuit’s *Migliori* decision.<sup>7</sup>

**iv. *Ball v. Chapman***

60. On October 16, 2022, less than a week after the vacatur of the *Migliori* decision, and with voting in the 2022 election already underway, a group of partisan petitioners brought a King’s Bench petition in the Supreme Court of Pennsylvania seeking to invalidate mail ballots with no handwritten date on the Return Envelope or with an “incorrect” handwritten date on the Return Envelope.

61. On November 1, 2022, the Supreme Court of Pennsylvania issued an order directing that the mail ballots at issue should be segregated and not counted, but indicating that the Court, which currently has only six justices, was deadlocked on whether the federal Materiality Provision prohibited disenfranchising voters on that basis.

62. Following that decision, on November 1, 2022, the Department of State’s Deputy Secretary for Elections and Commissions, Jonathan Marks, sent an email to

Dep’t of State, *Guidance Concerning Examination of Absentee and Mail-in Ballot Return Envelopes* (Sept. 26, 2022), <https://www.dos.pa.gov/VotingElections/OtherServicesEvents/Documents/2022-09-26-Examination-Absentee-Mail-In-Ballot-Return-Envelopes-3.0.pdf> (advising county boards of elections to “include[] in the canvass and pre-canvass ... [a]ny ballot-return envelope that is undated or dated with an incorrect date but has been timely received”).

<sup>7</sup> See Pennsylvania Pressroom, *Acting Secretary of State Issues Statement on SCOTUS Order on Undated Mail Ballots* (Oct. 11, 2022), <https://www.media.pa.gov/Pages/State-details.aspx?newsid=536>.

counties advising elections officials of the Supreme Court of Pennsylvania's order to "refrain from counting any absentee and mail-in ballots received for the November 8, 2022 general election that are contained in undated or incorrectly dated outer envelopes," and to "**segregate** and **preserve** any ballots contained in undated or incorrectly dated outer envelopes." Deputy Secretary Marks instructed that the elections officials "**must remember to do two things** as [they] pre-canvass and canvass absentee and mail-in ballots: Segregate AND preserve these undated and incorrectly dated ballots; and Do not count the votes cast on ballots with undated or incorrectly dated ballots." A true and correct copy of the email is attached as Ex. F (all emphasis in original email).

63. On November 3, Acting Secretary Chapman issued new guidance, instructing counties that "ballots which are administratively determined to be undated or incorrectly dated" should be coded as "CANC – NO SIGNATURE within the SURE system" (*i.e.*, should be cancelled and not accepted) and "segregated from other ballots." A true and correct copy of the guidance is attached as Ex. G.

64. On November 5, 2022, the Supreme Court of Pennsylvania issued a supplemental order stating that "incorrectly dated outer envelopes" include "(1) mail-in ballot outer envelopes with dates that fall outside the date range of September 19, 2022 through November 8, 2022; and (2) absentee ballot outer envelopes with dates that fall outside the date range of August 30, 2022 through November 8, 2022." A true and correct copy of that supplemental order is attached as Ex. H.

**C. Pennsylvania's 2022 Election**

65. On information and belief, as of November 15, 2022, the Defendant county boards of elections had recorded their receipt of 1,244,072 mail ballots in the Statewide Uniform Registry of Electors.

66. In the 2022 midterm election, which involved elections for the U.S. Senate, U.S. House of Representatives, and Pennsylvania House and Senate offices, the Defendant county boards of elections segregated thousands of mail-in ballots based on missing or incorrect dates on their outer return envelopes. For example, on information and belief:

- a. As of November 16, 2022, Philadelphia had segregated 2,143 ballots with no dates on their return envelopes and 460 ballots that listed purportedly-incorrect dates on their return envelopes.
- b. As of November 7, 2022, Allegheny County had segregated 369 ballots with no dates on their return envelopes and 551 ballots that listed purportedly-incorrect dates on their return envelopes.
- c. As of November 18, 2022, Lehigh County had segregated a total of 223 ballots because there were no dates or purportedly-incorrect dates on their return envelopes.
- d. As of November 5, 2022, Lackawanna County reported that it had segregated 186 ballots with no dates on their return envelopes.
- e. As of November 22, 2022, Erie County had segregated 122 ballots with no dates on their return envelopes and 49 ballots that listed purportedly-incorrect dates on their return envelopes.
- f. As of November 7, 2022, Beaver County had segregated 159 ballots with missing or purportedly-incorrect dates on their return envelopes.
- g. As of November 7, 2022, Butler County had segregated 64 ballots with no dates on their return envelopes.
- h. As of November 21, 2022, Blair County had segregated 26 ballots with no dates on their return envelopes and 28 ballots that listed purportedly-incorrect dates on their return envelopes.

- i. As of November 18, 2022, Crawford County had segregated a total of 51 ballots because there were no dates or purportedly-incorrect dates on their return envelopes.
- j. As of November 7, 2022, Forest County had segregated 39 ballots with missing or incorrect dates on their return envelopes.
- k. As of November 7, 2022, Perry County had segregated 25 ballots with no dates on their return envelopes and 4 ballots that listed purportedly-incorrect dates on their return envelopes.
- l. As of November 10, 2022, Bucks County had segregated 19 ballots with no dates on their return envelopes and 7 ballots that listed purportedly-incorrect dates on their return envelopes.
- m. As of November 14, 2022, Warren County had segregated 10 ballots with no dates on their return envelopes and 8 ballots that listed purportedly-incorrect dates on their return envelopes.
- n. As of November 7, 2022, Mifflin County had segregated 7 ballots with no dates on their return envelopes.
- o. As of November 7, 2022, Cameron County had segregated 5 ballots with no dates on their return envelopes.
- p. As of November 5, 2022, Union County had segregated 5 ballots with no dates on their return envelopes.

67. The above represents only a fraction of the total number of voters affected by this issue, as Plaintiffs have not yet been able to gather data for many of the counties not listed above. In Erie County, for instance, 26,170 voters submitted mail or absentee ballots, meaning the 171 segregated ballots represent approximately .7% of all such ballots cast in that county. And in Forest County, the 39 segregated ballots represent more than 9% of the 412 total mail ballots submitted in that county. Well over a million people voted by mail ballot in 2022. Across the Commonwealth, .7% of all mail ballot voters would represent more than 8,129 votes, and 9% of mail ballot voters would represent more than 117,764 votes.

68. On information and belief, at least 20 counties provided no advance notice to voters that their ballots would not be counted due to the envelope-date rule and/or forbade voters who had their ballot set aside due to the immaterial envelope-date rule from voting provisionally to cure the problem. Many voters, including Plaintiffs Seastead, Polinski, Bencan, and Smith, accordingly had no opportunity to cure any purported defect involving their date because their county boards of elections failed to provide them with any such notice before Election Day.

69. Moreover, some voters who did receive notice, including Plaintiff Gutierrez, were often unable to vote in person on Election Day given their health circumstances and/or because they were not afforded sufficient time to cure their mistake.

70. Voters—including individual Plaintiffs and organizational Plaintiffs' members—will be disenfranchised if Defendants refuse to count their ballots based on missing or purportedly-incorrect dates on the outer return envelopes.

71. Litigation over the past year has demonstrated that it is Pennsylvania voters who will lose unless this Court enjoins Defendants from disqualifying timely submitted ballots from eligible voters simply because they omitted a meaningless date, or wrote the wrong date, on the Return Envelope. For example, the plaintiffs in *Migliori* were senior citizens who had voted in Lehigh County for decades. They were Republicans and Democrats alike. Like the individual voter Plaintiffs here, and like thousands of the organizational Plaintiffs' members, they were regular people—a foundry blaster, a teacher, a business owner—who vote in almost every election. They

filled out their mail ballots, sent them in on time, and signed the declaration on the Return Envelope, but made a mistake on the Return Envelope by omitting a handwritten date.

72. Moreover, here as in *Migliori*, the affected voters are significantly older than both other Pennsylvanians who voted by mail and all registered Pennsylvania voters. Philadelphia provides a compelling example: There, on information and belief, almost 50% of the affected voters are 65 or older, while only 36% of other Philadelphians who voted by mail are 65 or older and only 20% of all registered Philadelphia voters are 65 or older. And around 23% of the affected voters are 75 or older, while only 15% of other Philadelphians who voted by mail are 75 or older and only 8% of all registered Philadelphia voters are 75 or older.

73. The challenged envelope-date rule disenfranchises even voters who reasonably believed they were complying with all of the proper requirements to cast their ballot. For example, on information and belief, if a voter who was raised in or spent time living overseas followed the date sequencing convention used by many other countries (*i.e.*, day, then month, then year) in dating their outer return envelope, those voters could have their ballots invalidated based on an “incorrect” date.

74. The Materiality Provision of the Civil Rights Act and the First and Fourteenth Amendments of the United States Constitution requires that the ballots at issue here be counted. The disenfranchisement of the affected voters in 2022 and

future elections constitutes irreparable harm for which there is no adequate remedy at law and for which this Court's intervention is required.

### **CLAIM FOR RELIEF**

#### **Count I: Rejection of Ballots for Immaterial Paperwork Errors or Omissions in Violation of the Materiality Provision of the Civil Rights Act (52 U.S.C. § 10101(a)(2)(B), 42 U.S.C. § 1983)**

75. Plaintiffs rely upon all the paragraphs of this Complaint, which are incorporated into this Count I as if fully restated here.

76. The Materiality Provision of the Civil Rights Act prohibits disqualifying voters "because of an error or omission on any record or paper relating to any application, registration, or other act requisite to voting, if such error or omission is not material in determining whether such individual is qualified under State law to vote in such election." 52 U.S.C. § 10101(a)(2)(B) (formerly codified at 42 U.S.C. § 1971).

77. The Civil Rights Act directs that "vote" in this context means "all action necessary to make a vote effective including, but not limited to, registration or other action required by State law prerequisite to voting, casting a ballot, and having such ballot counted and included in the appropriate totals of votes cast with respect to candidates for public office and propositions for which votes are received in an election." *Id.* § 10101(a)(3)(A), (e).

78. The challenged conduct here tracks exactly what the statute forbids: denying voters the right to have their ballot "counted and included in the appropriate totals of votes cast" based on an immaterial paperwork error on a form made requisite to voting. Specifically, Defendants are poised to invalidate voters' mail ballots:

- (1) based on an “omission” (namely, leaving off the handwritten date) or an “error” (namely, writing a purportedly incorrect date);
- (2) on a “record or paper” that is “made requisite to voting” (namely, the form declaration printed on the outer Return Envelope);
- (3) that is immaterial to whether the voter “is qualified under State law to vote in [the] election,” or for that matter on whether the mail ballot was timely received (namely, because the handwritten date on the envelope has no bearing on whether a voter meets the age, residency, or citizenship and felony status requirements of state law, or whether the county received the ballot on time.

52 U.S.C. § 10101(a)(2)(B), (e).

79. In Pennsylvania, state law establishes the only “qualifications” needed to “be entitled to vote at all elections.” *See* Pa. Const. art. VII, § 1. In particular, a voter must be at least 18 years old, have been a U.S. citizen for at least one month, have resided in the election district for at least 30 days, and is not presently incarcerated on a felony conviction. 25 Pa. C.S. § 1301.

80. A voter’s failure to handwrite the date next to their signature on the ballot return envelope is not material to determining their qualification to vote. Indeed, as set forth *supra*, Pennsylvania law requires each mail-in voter to demonstrate eligibility and qualification to vote before the voter is even issued a mail-in ballot in the first place. *See* 25 P.S. §§ 3146.2, 3150.12.

81. The date on which a voter signed their return envelope is also immaterial to determining the timeliness of the voter’s ballot. Because a ballot’s timeliness under Pennsylvania law is determined by when it was received and stamped by the county board of elections, 25 P.S. §§ 3146.6(c), 3150.16(c), the date and time at which mail ballots are returned is objectively verifiable—regardless of what, if any, date the voter wrote on the return envelope. *Accord Migliori*, 36 F.4th at 164 (“Upon receipt, the [Board] timestamped the ballots, rendering whatever date was written on the ballot superfluous and meaningless.”).

82. The rejection of otherwise-valid ballots for immaterial errors or omissions on voting-related paperwork is contrary to the Materiality Provision of the Civil Rights Act, 52 U.S.C. § 10101(a)(2)(B), and will result in the disenfranchisement of Pennsylvania voters who submitted timely mail-in ballots in the 2022 election and all future elections, unless and until enjoined by this Court.

**Count II: Rejection of Certain Ballots for Immaterial Paperwork Errors  
or Omissions in Violation of the Fourteenth Amendment of the  
United States Constitution  
(42 U.S.C. § 1983)**

83. Plaintiffs rely upon all the paragraphs of this Complaint, which are incorporated into this Count II as if fully restated here.

84. The Equal Protection Clause of the Fourteenth Amendment commands that “[n]o State shall . . . deny to any person within its jurisdiction the equal protection of the laws.” U.S. Const. amend. XIV.

85. “[O]nce the franchise is granted to the electorate, lines may not be drawn which are inconsistent with the Equal Protection Clause of the Fourteenth

Amendment.” *Harper v. Va. State Bd. of Elections*, 383 U.S. 663, 665 (1966). And when an equal protection claim involves differential treatment of the right to vote, the Supreme Court has required the application of strict scrutiny because of “the significance of the franchise as the guardian of all other rights.” *Plyler v. Doe*, 457 U.S. 202, 217 n.15 (1982) (collecting cases).

86. Defendants’ interpretation of Pennsylvania law creates differential treatment of the right to vote. Under their interpretation, the Pennsylvania Election Code requires invalidating the ballots of voters who write no date or a purportedly incorrect date on the outer return envelope in which they submit their mail ballot to the board of elections. 25 P.S. §§ 3146.6(a), 3150.16(a). Yet state law applies a different rule to military and overseas voters who vote by mail, stating that a “voter’s mistake or omission in the completion of a document” shall *not* invalidate their ballot “as long as the mistake or omission does not prevent determining whether a covered voter is eligible to vote.” 25 Pa. C.S. § 3515(a).

87. Defendants have no legitimate interest, let alone a compelling one, to invalidate the mail ballots of otherwise-qualified domestic voters based on trivial paperwork errors while counting the mail ballots of military and overseas voters who make the same immaterial mistake. Nor could the chosen means of advancing such an interest—disenfranchising qualified, registered domestic voters—be narrowly tailored to achieving any interest the Commonwealth might proffer.

88. Disqualifying some, but not all, voters based on a missing or incorrect date on the return envelope of a mail ballot is especially pernicious because that date

has “no relation to voting qualifications.” *Harper*, 383 U.S. at 670. “[T]he right to vote is too precious, too fundamental to be so burdened or conditioned” on such basis. *Id.*

**Count III: Rejection of Certain Ballots for Immaterial Paperwork Errors  
or Omissions in Violation of the First and Fourteenth Amendments of the  
United States Constitution  
(42 U.S.C. § 1983)**

89. Plaintiffs rely upon all the paragraphs of this Complaint, which are incorporated into this Count III as if fully restated here.

90. State election laws and practices may not burden a plaintiff’s First and Fourteenth Amendment right to vote unless relevant and legitimate state interests of sufficient weight justify the magnitude and character of the burdens imposed. *See Burdick v. Takushi*, 504 U.S. 428, 434 (1992); *Anderson v. Celebrezze*, 460 U.S. 780, 789 (1983). Any burden on the right to vote, “[h]owever slight[,] must be justified by relevant and legitimate state interests ‘sufficiently weighty to justify the limitation.’” *Crawford v. Marion Cnty. Election Bd.*, 553 U.S. 181, 191 (2008).

91. The requirement to hand-write a “correct” date on the voter declaration form on the mail ballot envelope, on pain of disenfranchisement for omitting the date or writing a date that is deemed incorrect, is a burden on the exercise of the right to vote.

92. No relevant, legitimate, and sufficiently weighty state interest justifies this burden. *See Const. Party of Pa. v. Cortes*, 877 F.3d 480, 484 (3d Cir. 2017); *Belitskus v. Pizzingrilli*, 343 F.3d 632, 645 (3d Cir. 2003). The handwritten date on the mail ballot envelope declaration form is not used for any election-related purposes

and its only practical function is to disenfranchise thousands of voters each election based on a meaningless paperwork mistake.

**PRAYER FOR RELIEF**

WHEREFORE, Plaintiffs respectfully request that this Court enter judgment in favor of Plaintiffs and provide the following relief:

1. A declaration that rejecting timely submitted mail-in ballots based solely on a missing or incorrect date next to the voter's signature on the return envelope violates the Materiality Provision of the Civil Rights Act, 52 U.S.C. § 10101(a)(2)(B), and the First and Fourteenth Amendments of the United States Constitution;

2. Injunctive relief preliminarily and permanently enjoining Defendants and all persons acting on their behalf from:

- a. Rejecting and/or not counting otherwise-valid mail-in ballots timely submitted by 8:00 p.m. on Election Day, in 2022 and future elections, based solely on a missing or incorrect date on the outer return envelope;
- b. Certifying any future election in the Commonwealth of Pennsylvania or any Pennsylvania county or locality without counting such mail-in ballots; and
- c. Refusing to include these ballots when reporting the 2022 election totals on Commonwealth and County websites, voter files, record books, and any other public tallies or recordings;

3. Nominal damages to Plaintiffs Seastead, Gutierrez, Polinski, Bencan, and Smith for the completed violation of their legal right to vote under both the Materiality Provision and the First and Fourteenth Amendments;

4. An award of costs and attorneys' fees pursuant to 42 U.S.C. § 1988; and

5. Any such other relief as this Court deems just and appropriate.

## DECLARATION OF BARRY M. SEASTEAD

Pursuant to 28 U.S.C. § 1746, I, Barry M. Seastead, hereby declare as follows:

1. I have personal knowledge of the matters in this declaration and this is what I would testify to if called as a witness in Court.

2. I am 68 years old and am otherwise competent to testify.

3. I live in Warren, Pennsylvania, and have lived here since I was 2 years old.

4. I am currently retired. I spent my career as a welder; for 20 years, I worked in a Navy Shop making components for Navy nuclear submarines, and later worked for 10 years as a maintenance welder. Later in my career, I spent 13 years working for the Warren County Assessment Office as a Field Assessor assessing properties for tax purposes.

5. I have been a registered voter in Warren County, Pennsylvania since I was legally eligible to vote.

6. I started voting by mail in the last few years because I wanted to send a message to our elected officials: I believe in mail-in voting and I think all voting should be done by mail, because I think they should be making it easier for everyone to vote. I am the grandson of an immigrant and I believe that voting gives the people a chance to speak their minds; it's the foundation of our country. Instead, we see these efforts to not count certain ballots.

7. Voting means everything to me. It gives me a voice and allows me to

make sure my elected officials' beliefs line up with my own views. I am very pro-labor and pro-union. I was always very active and involved with the unions during my career. I am also a gun-owner and support Second Amendment rights. I want to elect candidates who support those issues.

8. I vote regularly. I try to vote in every general and primary election. I might miss an election here and there, but I definitely vote in most elections.

9. I voted by mail this year. I requested and received a mail ballot from Warren County before the November 2022 election. I made sure to request it and send it back very early because the Postal System is slow, to ensure that it would be received by Election Day. If there was a problem with what I sent back, there would have been plenty of time for the problem to be corrected before Election Day.

10. After I received my ballot, I marked it, inserted it into the secrecy envelope and inserted that in the outer return envelope. I also signed the envelope. I think I dated it, but it might have been a date that someone deemed incorrect. I don't understand how the date can be invalid if it was received before Election Day.

11. After the election, I learned that the outer return envelope of my ballot was determined to have an "invalid date." Someone from the ACLU-PA called me because my name was on a list provided by the Warren County Board of Elections. No one from the County or the state contacted me about this issue. On Election Day, I had just assumed that my ballot was cast and didn't think there would be any problem.

12. If I had known there was a problem with my ballot, I would have corrected it. I have a bad back but I can still get around if I need to.

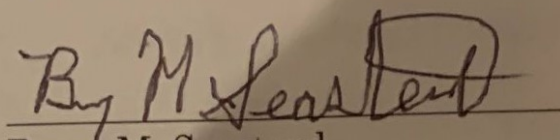

13. I feel upset about this situation. I think my voice should be heard. Voting

is the only chance I have to express my opinions about the issues that I care about. I am particularly upset because I strongly believe in mail-in voting. They should be making voting more accessible and easier for everyone. I'm very concerned about these ballots not being counted because of the lack of date or incorrect date. This is common sense: If you apply for a ballot, fill it out within the timeframe, and get it in before Election Day, your vote should be counted. I believe in free and fair elections, and don't like any effort that makes voting harder.

14. I think it's very important to vote and that everyone's voice is heard. I think everybody who votes should have their ballots counted. I would like my ballot counted for the November 2022 election.

I declare under penalty of perjury that the foregoing is true and correct.

Executed this 23 of November, 2022 in Warren, Pennsylvania.

**DECLARATION OF MARLENE G. GUTIERREZ**

Pursuant to 28 U.S.C. § 1746, I, Marlene G. Gutierrez, hereby declare as follows:

1. I have personal knowledge of the matters in this declaration and this is what I would testify to if called as a witness in Court.

2. I am 64 years old and am otherwise competent to testify.

3. I live in York, Pennsylvania and have lived in York for two years.

4. I am a corporate travel agent.

5. I first registered to vote in York County when I was 18 years old. After residing in various states and countries for several years, I registered to vote in York County again after moving back in September 2020.

6. I have been voting by mail for at least twenty to thirty years in the other states in which I resided. I opted to vote by mail because I do not like being in crowded areas like voting centers.

7. I vote every time I receive a mail-in ballot, including in primaries and in every presidential election.

8. Voting is important to me because I want my political party to represent my state.

9. I voted in 2022 because the race for the Senate seat was important to me and I wanted my preferred party to win.

10. I voted by mail this year. I requested and received a mail ballot from York County before the November 2022 election.

11. I remember I received my ballot packet at the beginning of October

2022, before the November election.

12. After I received my ballot, I marked it, inserted it into the secrecy envelope and the outer return envelope. I also signed the outer return envelope. I thought I followed all of the instructions.

13. I returned my ballot by putting it in my mailbox for delivery by USPS in the pre-printed envelope, and I received notice from York County that my ballot had been received.

14. On Election Day, I learned that the outer return envelope of my ballot is missing a date next to my signature. I heard a story about this issue on the radio and thought to myself that I did not remember seeing a place to mark the date on the ballot.

15. I received a text message from York County informing me that my ballot had been opened but not counted because it had not been signed or dated properly.

16. I did not attempt to cure my ballot because I was angry and perturbed that my vote would not be counted, and I felt that I could not do anything to fix it.

17. I am very upset that my ballot will not count. It seems very unfair that my ballot will not count because of something that has nothing to do with when the ballot is received or whether I am qualified to vote. I am upset that I was not given notice of this issue until Election Day because I did not have time to do anything about it.

18. I think it's very important to vote and that everyone's voice is heard. It is my duty as a citizen to vote and I like to support my party. I think everybody who votes should have their ballots counted. I would like my ballot counted for the

November 2022 election.

I declare under penalty of perjury that the foregoing is true and correct.

## DECLARATION OF AYNNE MARGARET PLEBAN POLINSKI

Pursuant to 28 U.S.C. § 1746, I, Aynne Margaret Pleban Polinski, hereby declare as follows:

1. I have personal knowledge of the matters in this declaration and this is what I would testify to if called as a witness in Court.
2. I am 71 and am otherwise competent to testify.
3. I live in Dover, Pennsylvania, in York county. I have lived in this location since 2016, about 6 years.
4. I am a retired art educator, art therapist, and professional artist.
5. I am a registered voter in York County. I have been a registered voter in York County since 2016. I have been a registered voter in Pennsylvania since age 18.
6. I started voting by mail in for the June 2020 presidential primary because of the COVID-19 pandemic.
7. I vote regularly. I rarely miss an election and have not missed one since at least 2016.
8. Voting is important to me because I think everyone has the right to give their say as to who they want running the government and the different policies that are important to me. That is why I voted in the 2022 election.
9. I voted by mail this year. I requested and received a mail ballot from York County before the November 2022 election.
10. I remember I received my ballot packet in late September or early October of 2022, in advance of the November election.
11. After I received my ballot, I marked it, inserted it into the secrecy

envelope and then placed it in the outer return envelope. I remember signing the outer return envelope. I thought I followed all of the instructions.

12. I returned my ballot in October of 2022.

13. After the election, I learned that the County determined the outer return envelope of my ballot was missing a handwritten date next to my signature. I learned this for the first time from a phone call with an attorney from the ACLU of Pennsylvania after Election Day.

14. I did not receive any notice from the county or the state that my ballot would not count and that it needed to be cured before Election Day or on Election Day.

15. I did not attempt to cure my ballot because I did not know there was any issue that needed to be cured.

16. I am very upset that my ballot will not count. It seems very unfair that my ballot will not count because of something that has nothing to do with when the ballot is received or whether I am qualified to vote.

17. I think it's very important to vote and that everyone's voice is heard. It's a right and an obligation! I think everybody who votes should have their ballots counted. I would like my ballot counted for the November 2022 election.

I declare under penalty of perjury that the foregoing is true and correct.

## DECLARATION OF JOEL BENCAN

Pursuant to 28 U.S.C. § 1746, I, Joel Bencan, hereby declare as follows:

1. I have personal knowledge of the matters in this declaration and this is what I would testify to if called as a witness in Court.

2. I am 71 and am otherwise competent to testify.

3. I live in Ambler, Montgomery County, Pennsylvania, and I vote in state house legislative district 151. I have lived in Ambler for over 40 years.

4. I am a retired pharmacist.

5. I am a registered voter at my home in Montgomery County and have been a registered voter for decades. I am a fairly regular voter since the Nixon administration.

6. I started voting by mail in 2020 because of the COVID-19 pandemic.

7. Voting is important, particularly in environments like the 2022 election where the races are close and each vote can have a real impact on who ends up making decisions in government.

8. I voted by mail this year. I requested and received a mail ballot from Montgomery County before the November 2022 election, and it arrived in the middle of October.

9. When I received my ballot, I filled it out over a weekend. I put it in both envelopes and signed and dated the outer return envelope. I put the date for the day I filled out the ballot and later returned it.

10. I did not mail the ballot because my wife suggested it would be safer to put it into a ballot drop box.

11. On October 29, I went to an event at the Upper Dublin Library and took my ballot because there was a drop box outside. Someone (I think from the county) was monitoring the drop box. The person asked me if I had signed and dated the outside of the envelope, which I had. I showed it to the person who verified that it looked complete. I then put my ballot in the drop box.

12. I later received an e-mail notification that Montgomery County had received the ballot. I had no reason to think there was anything wrong with my ballot.

13. On Election Day, I received an e-mail and phone calls saying that the ballot had been rejected. A true and correct copy of the November 8, 2022 email I received from the Department of State is attached as Exhibit A. However, I was away from home all day and did not receive the messages. My grandchildren had the day off of school, so my wife and I spent a wonderful day with them in Bucks County, to help out our son and daughter-in-law. By the time I was home and saw the messages, it was around 8:30 PM and the polls had closed, meaning that it was too late for me to do anything to correct whatever problem there may have been with my ballot.

14. The only reason I can imagine for rejecting my ballot as incorrectly dated is that the date I wrote on the envelope was the date that I filled out the ballot, rather than the date I returned it to the drop box (which happened a week or two later).

15. I never heard anything from Montgomery County about a problem with

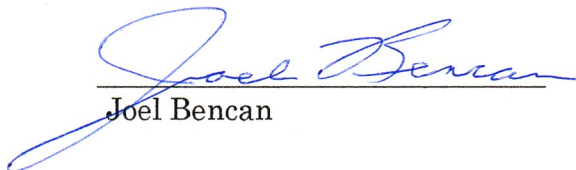

my ballot before Election Day. If I had an opportunity to correct the issue, I certainly would have done so, since I want my vote to count.

16. I am very upset that my ballot will not count. It seems very unfair that my ballot will not count because of something that has nothing to do with when the ballot is received or whether I am qualified to vote.

17. I think it's very important to vote and that everyone's voice is heard. I think everybody who votes should have their ballots counted. I would like my ballot counted for the November 2022 election.

I declare under penalty of perjury that the foregoing is true and correct.

## **DECLARATION OF LAURENCE M. SMITH**

Pursuant to 28 U.S.C. § 1746, I, Laurence M. Smith, hereby declare as follows:

1. I have personal knowledge of the matters in this declaration and this is what I would testify to if called as a witness in Court.

2. I am 78 years old and am otherwise competent to testify.

3. I am a resident of Montgomery County (PA. Legislative District 151) and have lived at the same address in Dresher, Pennsylvania for 28 years.

4. I am presently retired. I spent my career as an entrepreneur in the medical services industry. In 1977, I founded a company that provides portable X-rays and EKGs in nursing homes.

5. I am registered to vote in Montgomery County and have voted there since moving to Pennsylvania in 1991. Prior to that, I lived in Massachusetts, where I also voted in every election.

6. I vote in every election—both the general and the primary—because I believe it is my civic duty. Voting has been especially important to me in recent years because of the increasing polarization in our country.

7. I started voting by mail in 2020, as soon as it became available in Pennsylvania. I decided to vote by mail-in ballot because I thought it was a convenient and secure way to vote. My wife and I both have busy schedules and appreciate the convenience of filling out the ballot and putting it in the mailbox.

8. Voting is important to me because I believe that it is part of what you do as an American citizen. I have voted in every election since I became eligible to vote, regardless of who was running for office. In recent years, I have voted for the Democratic ticket, but earlier in my life, I voted for both Democrats and Republicans. My family considers it our civic responsibility to pay attention to the news and to vote to elect our local and national representatives.

9. I voted by mail this year. I requested and received a mail ballot from Montgomery County several weeks before the November 2022 election. When I received the ballot packet, I immediately filled it out and mailed it back. I remember putting my ballot in the secrecy envelope and then in the outer envelope. I filled out the outer envelope and thought I had followed all instructions correctly.

10. On October 18, 2022, I received an email from the government that indicated that my ballot had been timely received by Montgomery County. The email read, "Your ballot status has been updated to reflect your official ballot has been received timely and recorded." After receiving this email, I never considered the possibility that anything was wrong with my ballot. A true and correct copy of the October 18 email I received is attached as Exhibit A.

11. On Friday, November 4, 2022, my wife, Dina Lichtman Smith, received an email that there was something wrong with her ballot. The email provided instructions on how she could fix the issue.

12. On Monday, November 7, 2022—the day before Election Day—I accompanied my wife to the County seat in Norristown, Pennsylvania. The officials pulled up my wife's ballot, and she was able to resolve the problem. The process was

very efficient and professional.

13. The officials said, "You're Laurence Smith," but did not say anything about my ballot, nor do I know whether they pulled up my ballot.

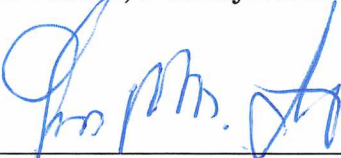

14. I had no indication or information that there was any problem with the date on my ballot until I received a call from someone at the ACLU of Pennsylvania after Election Day. If I had known there was a problem, I obviously would have fixed it when I went to Norristown with my wife. I relied on the October 18 email stating that my ballot was accepted, and the fact that I had not received any additional communication from the County saying there was a problem with my ballot.

15. I was frustrated to learn that there was a problem with my mail-in ballot, because I am a careful and detail-oriented person. I read the instructions carefully and thought that I was following all the proper steps. I have no idea what the County found to be wrong in terms of the date or signature on the envelope.

On an emotional level, I am upset to learn that my ballot will not count. Even though one vote may not make a difference, it's about the principle. I cannot think of any possible reason why my ballot, which arrived before November 8<sup>th</sup>, should not be counted due to a small clerical error with the date on the outside envelope.

I declare under penalty of perjury that the foregoing is true and correct.

Executed this 10<sup>th</sup> of November, 2022 in Dresher, Pennsylvania.

Dear county election official,

Please be advised that the Supreme Court of Pennsylvania issued the attached order this afternoon directing county boards of elections to “refrain from counting any absentee and mail-in ballots received for the November 8, 2022 general election that are contained in undated or incorrectly dated outer envelopes.” The Court also directed that counties “**segregate** and **preserve** any ballots contained in undated or incorrectly dated outer envelopes.”

This order means that you **must remember to do two things** as you pre-canvass and canvass absentee and mail-in ballots:

1. Segregate AND preserve these undated and incorrectly dated ballots; and
2. Do not count the votes cast on ballots with undated or incorrectly dated ballots

Warmest regards,

**PER CURIAM**

**DECIDED: November 1, 2022**

**AND NOW**, this 1<sup>st</sup> day of November, 2022, upon review of the briefs of the parties and *amici*, the Petitioners' request for injunctive and declaratory relief is granted in part and denied in part. The Pennsylvania county boards of elections are hereby **ORDERED** to refrain from counting any absentee and mail-in ballots received for the November 8, 2022 general election that are contained in undated or incorrectly dated outer envelopes. See 25 P.S. §3146.6(a) and §3150.16(a).

The Court is evenly divided on the issue of whether failing to count such ballots violates 52 U.S.C. §10101(a)(2)(B).

We hereby **DIRECT** that the Pennsylvania county boards of elections segregate and preserve any ballots contained in undated or incorrectly dated outer envelopes.

The Republican National Committee, the National Republican Congressional Committee, and the Republican Party of Pennsylvania have standing. Petitioners David Ball, James D. Bee, Jesse D. **Guidance on Undated and Incorrectly Dated  
Mail-in and Absentee Ballot Envelopes Based on

Version: 1.0

**Guidance on Undated and Incorrectly Dated Mail-in and Absentee Ballot Envelopes Based on the Pennsylvania Supreme Court’s Order in *Ball v. Chapman*, issued November 1, 2022**

On November 1, 2022, the Pennsylvania Supreme Court issued an Order regarding undated and incorrectly dated outer envelopes containing mail-in and absentee ballots. A copy of that Order is attached. This email follows an initial communication from Deputy Secretary Jonathan Marks on the evening of November 1, 2022 and provides additional guidance to counties regarding the Court’s Order.

In light of the Court’s Order, the Department’s September 26, 2022 Guidance Concerning Examination of Absentee and Mail-In Return Envelopes (“Envelope Guidance”) and Guidance Concerning Civilian Absentee and Mail-In Ballot Procedures as it relates to undated and incorrectly dated outer envelopes is modified as stated below and counties are directed as follows:

- Returned ballots should be scanned into the SURE system immediately upon receipt. County election offices should ensure that previously received mail-in and absentee ballots have been scanned into SURE.
  - As a reminder, election offices should date-stamp return envelopes for all mail-in and absentee ballots immediately upon receipt.
- Examine all mail-in and absentee ballots received to determine if the return envelopes for those ballots are signed and dated.
- For ballots which are administratively determined to be undated or incorrectly dated, code that ballot as CANC – NO SIGNATURE within the SURE system.
- Further, for those ballots that have been administratively determined to be undated or incorrectly dated, the ballots must be segregated from other ballots. Counties may prefer to keep segregated undated and incorrectly dated ballots organized by precinct, and alphabetically by last name within each precinct.
  - The department strongly recommends that counties also segregate into separate groups undated ballots versus incorrectly dated ballots.
- For voters returning their ballots in person to election offices, office personnel should remind voters to confirm that they signed and correctly dated their ballots, and to provide them an opportunity to do so prior to submission.

**SUPPLEMENTAL ORDER**

**PER CURIAM**

**AND NOW**, this 5th day of November, 2022, the Court hereby supplements its per curiam order dated November 1, 2022, wherein we directed, in part, that “[t]he Pennsylvania county boards of elections are hereby ORDERED to refrain from counting any absentee and mail-in ballots received for the November 8, 2022 general election that are contained in undated *or incorrectly* dated outer envelopes.” (Emphasis added.) For purposes of the November 8, 2022 general election, “incorrectly dated outer envelopes” are as follows: (1) mail-in ballot outer envelopes with dates that fall outside the date range

of September 19, 2022, through November 8, 2022; and (2) absentee ballot outer envelopes with dates that fall outside the date range of August 30, 2022, through November 8, 2022. See 25 P.S. §§ 3150.12a, 3150.15, 3146.2a(a), 3146.5(a).
