Flag: Follow up

Likewise, it was nice to talk with you to start this transition. Much more to come, but for now I'm sharing SIIP's standard PPA, our FY 2021 Action Plan (to be modified to account for fusion center work), and our intel principles. The standard PPA is a starting point for us for this fiscal year. We'll talk more about what goals make sense for you in what will be a transition year, but you can expect to be assigned at least Goal 1 (Intel Product Review).

Your transition to SIIP is effective with the new pay period beginning Sunday, December 6, but you will be asked to continue to prioritize any support Ayn and Ada need for the Dec. 16 NFCA fusion center event. Lot's of paperwork will surely follow, but we'll deal with that as it comes. SIIP has a standing weekly meeting on Monday at 11:00 am. I'll send the invite. You and I will schedule other meetings next week to discuss other mundane things, like telework, work schedule, etc.

I'm really looking forward to working with you again.

Brian

Brian,

One more thank you, our call really did help me feel better about this transition.

Attached is my last performance plan.

I look forward to working with SIIP and talking to you later,

(b)(6)
