Hello,
I will update the privacy policy tracker in SharePoint. I am unsure where this email originated from?

Hi (b)(6) and Brian,

David Lindner said this looks fine to move forward.

Let me know if you have any questions/concerns.

The attached is the copy that Scott told me go by from a Wyoming Privacy review he did in 2017.

Thank you.

Hi David,

Scott gave me a Fusion Center Privacy from the Missouri Fusion Center to review. He also told me to go by his review of the Wyoming review that he did and I went by that.

I gave it to Scott to review but he will not have time until next week and said maybe you could look at?

Brian Sterling sent it to us and has been asking about it.

Could you take a look at as I am uncomfortable returning to Brian as this is my first review and not sure I even covered what is needed?

Thank you.

Scott,

I edited this document but not sure if you or David would have time to review.

I have not sent back to Brian Sterling yet and he just asked about it.

I am not really comfortable with what I have done until someone else looks at it.

Thank you.

Scott,

I took another look at this document, after reading the other information.

I keep getting confused and not sure that I am doing any of the correctly. I know that with the new EOs and new definitions for legal permanent resident (CRCL), citizen versus individuals and persons has changed and not sure if any of it is applicable to the fusion centers.

I have a deep respect for your knowledge of this stuff, it will take a while for me.

Let me know if you would rather have me send to David to look at.

Thank you so much!
