ELIZABETH DETENTION CENTER

625 EVANS STREET ELIZABETH, NEW JERSEY 07201

CODE COMPLIANCE

Building Code

The existing building was converted into a detention facility in 1994. The building code in effect would have been the 1993 BOCA National Building Code. The most current building code would be the 2003 edition of the IBC. Building criteria required in the 1993 code is almost identical to the 2003 IBC. The existing facility is considered acceptable and equivalent to the 2003 IBC. The 2003 IBC accepts existing, legally constructed building as compliant with the current edition of the code.

Life Safety Code

Under the assumption stated in the above paragraph, the 1994 Life Safety Code would have been in effect at the time of the building remodel. The latest edition of the Life Safety Code is the 2003. The 2003 code provisions remain essentially the same with no major impact to fire resistance or life safety considerations.

The existing INS-Elizabeth, NJ detention facility is considered in compliance with current editions of the International Building Code (IBC) as enforced by the State of New Jersey and the 2003 Life Safety Code. This compliance opinion can be asserted because the current IBC acknowledges existing facilities allowing them to be "grandfathered".

Dear (b)(6),(b)(7)(C),

I am reaching out on behalf of Kastel Enterprises MK, LLC, a certified 8(a), HubZone, and Woman-Owned Small Business (WOSB). We believe our unique qualifications and capabilities align well with the needs of your organization. Reference NAICS Code: 561612 Security Guards and Patrol Services

Our expertise goes beyond for ICE West Coast Multi-State RFI. Kastel Enterprises MK, LLC offers a wide range of goods and services that can support your organization in various capacities. We are confident that our comprehensive capabilities can add significant value to your projects, allowing us to collaborate effectively on your upcoming initiatives.

We would greatly appreciate the opportunity to meet with you to discuss potential set-aside and sole source opportunities and explore how we can work together.

Please let us know if there is a convenient time for us to connect by responding to this email. We look forward to the possibility of working together.

Thank you for your consideration.

Best regards,

(b)(6),(b)(7)(C)

This email formally expresses BHPE LLC's interest in the Posted Contract Opportunity for (ICE West Coast Multi-State RFI). Our team is enthusiastic about collaborating with your agency on this initiative and helping you achieve its goals.

We possess extensive experience in identifying solutions that effectively address customer needs. We'd be thrilled to contribute to your market research efforts by providing any valuable information and insights we can offer. This collaborative approach will ensure we develop solutions that precisely meet your customers' requirements.

For your reference, BHPE LLC has completed the annual representations and certifications within the System for Award Management (SAM) accessible at <https://sam.gov/>. Additionally, BHPE does not provide covered telecommunications equipment or services in our government contracts.

Please don't hesitate to reach out if you require any additional information or have specific questions regarding our qualifications or approach. We're happy to assist in any way possible. We would also appreciate a confirmation email acknowledging receipt of this email.

Multi-State Detention Facility Support - Request for Information
U.S. Immigration and Customs Enforcement
Immigration Detention Services

A. Introduction

The United States Department of Homeland Security (DHS), U.S. Immigration and Customs Enforcement (ICE) is issuing this request for information (RFI) in accordance with Federal Acquisition Regulation (FAR) Part 10 to identify possible detention facilities to house noncitizens and immigration violators in support of its public safety mission under the authority of the Immigration and Nationality Act (INA), as amended.

The intent of this RFI is to obtain market information for planning purposes and to determine appropriate strategies to meet the agency's requirements. This RFI is issued solely for informational and planning purposes and does not constitute an RFP or a commitment to an RFP in the future. Responses to this notice are not considered offers and cannot be accepted by the government to form a binding contract. Responders are advised that the government will not pay for any information or administrative costs incurred in response to this announcement and information submitted in response to this RFI will not be returned. ICE may use the information submitted to this RFI to determine any potential for future requirements and contingent on available funding.

B. Facility Overview and ICE Preferences

ICE is seeking available detention facilities for single adult populations (male and female) in the following areas:

- **Chicago ERO Field Office** includes Illinois, Indiana, Wisconsin, Missouri, Kentucky, Kansas

Point of Contact: Chicago.Outreach@ice.dhs.gov

- **Harlingen ERO Field Office** includes south Texas

Point of Contact: Harlingen.Outreach@ice.dhs.gov

- **Salt Lake City ERO Field Office** includes Utah, Idaho, Montana, Nevada

Point of Contact: SaltLakeCity.Outreach@ice.dhs.gov

Facilities should be within a two-hour surface commute of an ICE field office or sub-office (see below for listing). Interested parties may propose one or more facilities in each AOR and may also support multiple AORs. Facilities may be publicly or privately owned and publicly or privately operated. Please submit the information below for each geographic area of interest. Submissions should be clearly labeled with the geographic area of interest and are limited to 15 pages including photographs.

Proposed solutions must be capable of providing all infrastructure, services, equipment, and personnel necessary to house ICE noncitizens in a safe and secure environment in accordance with ICE national detention standards (National Detention Standards 2019 and Performance Based National Detention Standards 2011). If your organization is unable to comply with these standards, please clearly describe what additional efforts are required, including renovations, staffing, etc.

Additionally, ICE is seeking the following:

- Approximately 850 to 950 detention beds (15%-20% for females) for low, medium-low, medium-high, and high-level security adult noncitizens, to include a dedicated dorm(s) or special housing unit(s) for ICE noncitizens with custody classifications of medium-high and high.
- Facilities with segregation unit(s), an infirmary, and local access to general acute hospital care to include an emergency room, surgical and mental health services, and access to public and commercial transportation routes and services.
- Dedicated facilities solely for ICE use are preferred. However, ICE will consider detention facilities housing other detained populations if separation from ICE detainees is maintained.
- For additional information regarding ICE's detention network please visit: <https://www.ice.gov/detain/detention-management>.

C. RFI Responses:

- Interested parties should submit the following information:
 - Point of Contact information (name, title, phone number, address, email address).
 - Facility address(es).
 - Facility information: percentage of proposed facility for ICE use up to 100%. Less than 100% is acceptable; however, provide the composition of other populations and their percentage of the overall facility capacity.
 - Facility Ownership.
 - Proposed Facility Operator.
 - Date of last use, population, and operator.
 - Dedicated or Shared Facility.
 - Year built.
 - Capacity:
 - Number of housing units and beds (by gender and classification)
 - Beds available for ICE use
 - General population (GP) Beds
 - Intake Beds
 - Segregation Beds
 - Medical Beds

- Information on medical, dental, and mental health clinical space.
 - Capacity and information on visitation areas to include video teleconferencing space and capabilities.
 - Capacity and information on administrative space and parking availability for ICE and various stakeholders.
 - Size of, and information on, outdoor recreation area.
 - Photographs of the exterior and interior.
 - Timeframe for availability for ICE use.
 - Transportation distances and names of local hospitals, transportation hubs (airport, bus, train), fire stations, and immigration court.
 - Availability of, and access to, local consulates and pro-bono legal services
- Interested parties should also provide responses to the following:
 - Current detention or transportation services provided to ICE, Customs and Border Protection, U.S. Marshals Service, Federal Bureau of Prisons, or other federal agencies.
 - In the past, the government has priced detention contracts with an all-in bed day rate. Provide other pricing structures that you believe could be used to better distribute risk between the government and a contractor which might result in better operational and business outcomes for all parties.
 - Any recommended changes to ICE’s requirements to better meet *best value*, i.e., by reducing cost substantially without sacrificing the effectiveness of core operations.
 - Identity potential hiring/staffing challenges.
 - List potential impediments to facility operation (pending or expected legal issues, state/county statutes, political concerns including opposition to ICE mission within local and state government/community, etc.).

D. RFI Submission

Responses must be submitted no later than **5 p.m. Eastern Time on 23 June 2024**. Responses cannot exceed **15 pages** in length. Responses shall be submitted to the following personnel via email:

(b)(6),(b)(7)(C) Contracting Officer, (b)(6),(b)(7)(C) [redacted]@ice.dhs.gov
 , Contract Specialist, (b)(6),(b)(7)(C) [redacted]@ice.dhs.gov

Contractors may provide additional feedback (i.e., questions, comments, etc.) to the government regarding this RFI. Government responses to industry feedback will not be provided or published. However, if formally solicited, industry feedback may be considered when finalizing the solicitation documentation including the requirements of the Statement of Work.

Please note that responses to this RFI may be subject to a Freedom of Information Act release. If any information in the response is proprietary, then it must be clearly identified and labeled as such.

(b)(6),(b)(7)(C)

Attached is a copy of the Multi-State CDF Request for Information (RFI) and the submissions we received for the SLC AOR as a result of the RFI.

Should ERO decide to pursue a requirement, these can help form the basis of the corresponding market research for that requirement.

Best,
