Hi Charmane,

Thank you for speaking with me regarding our FOIA request. I conferred with my colleagues about narrowing the scope and recommending search terms for items 8 and 9.

While we are not waiving our request for the full records as articulated in the original FOIA request, in the interest of producing the most relevant records first, we can agree to narrow the time frame for items 8-9 for records **after Jan. 1, 2023, to the present**. If we later decide we'd like records from the full timeframe, we will write to you again.

Additionally, we can agree to narrow the scope of the request to, for now, remove communications "about" a Child Advocate or legal service provider, and communications to or from Child Advocates and legal service providers representing a parenting minor.

As narrowed, the requests are currently:

8. Any and all communications to or from a Child Advocate appointed to a minor who is pregnant, regarding that minor and/or the pregnancy.
9. Any and all communications to or from a legal service provider representing a minor who is pregnant, regarding that minor and/or the pregnancy.

If it would be helpful to prioritize communications regarding youth held in specific states, let me know. ORR should be able to provide your office with a list of care providers and legal service providers by state.

We would also be comfortable prioritizing for production, communications with the any of the following search terms: pregnancy, pregnant, pregnancy test, abortion, termination of pregnancy, pregnancy termination, miscarriage, gestational, prenatal, birth, childbirth, adoption, pregnancy options, options counseling, pregnancy counseling, due date, EDD, OB/GYN, OBGYN, trimester, maternity, fetus, fetal.

Thanks for your patience while I conferred with my colleagues about the scope of the request. Please let me know if you have any questions.

Additionally, **do you have the case number for our new initial FOIA request that we submitted by mail?** We have not received it yet. Thank you.

Best,
Rachel
