Subject: License Plate Reader (LPR) Information

The New York State Association of Chiefs of Police recently received a paper via BJA (authored by the International Association of Chiefs of Police), on LPRs.

I am attaching it to this message.

As for the "NYC experience", NYPD would likely be able to provide the most updated information as to what (if any) research has been done on the LPR equipment they've received/installed.

I will forward any additional information I receive in response to the inquiries I've made.

Thank you.
