Subject: Impaired Driving Division Retreat

Hi – attached are my notes from the Impaired Driving Division's retreat I attended on April 21, 2011. If I receive summary notes from the ID Division, I will send those as well. Also attached is the PPT that Rajesh Subramanian (NHTSA) gave during the Retreat. It provides a good summary of impaired driving data.

As I mentioned on the conference call yesterday, during the retreat, we discussed the issue of whether or not the Regions find it useful/necessary/cost effective to automatically receive multiple hard copies of reports/studies released. They are looking for ways to reduce spending and this could be one. Also, during the meeting the ID Division indicated that they do not place an order for the States to receive the same reports/studies that we get. Therefore, they have asked me to poll the Regions to determine:

- 1) Do you still want to receive multiple hard copies of reports/studies? Do you want just one? Or would getting a Traffic Tech with a link to the full report suffice?
- 2) Please poll your States to find out if they are or are not receiving the reports.

If you could please respond back to me no later than COB **Wednesday, May 11th** – I'd appreciate it. Please let me know if you have any questions. Thank you again for all your great input and suggestions that I was able to share from the Regions during the meeting. The ID Division indicated the input was very helpful to them.

Susan
