Subject: . . . Do not participate in this program.

This is abuse of eminent domain and you are well aware of it.  
You are elected officials and I ,of we the people do not want this . It is not in the best interest of the majority and you are well aware of it. It does not even fit in to the meaning of eminent domain.

The negative impact is far reaching across an broad expanse.

Being you are elected to represent me, then I am telling you not to vote yes on this issue. If this measure passes, I assure you that not one of you ,who is currently sitting on the board and voting in favor of this abuse of power, will be reelected for another term. Do your job represent your community, do the right thing, do not abuse the power you have been entrusted with and do not vote in favor of this damaging option and abuse of eminent domain.

Thank you for listening to your constituents who trusts you to do the right thing. No the easy thing always, but the right thing.
