Subject: . . . Foreclosure solutions - eminent domain

Mr. De Marco:

Desperate times from desperate municipalities call for desperate measures. Because YOU have failed to do your job in helping homeowners who were victims of bank fraud justly, municipalities must step in. You could have done the right thing and reduced principle balances. You could have done the right thing and resigned in disgrace because of your complicity in the fraud. But instead you chose to behave in service to your ideology, the ideology that led to economic disaster.

I support the use of eminent domain as the solution to your inaction.
