Abstract
2012 South Bend Police Department interdepartmental
Annual Justice Assistance Grant (JAG) Application

The South Bend Police Department in conjunction with the St. Joseph County Police Department as parts of a disparate jurisdiction is applying for the Annual 2012 Edward Byrne Memorial Justice Assistance Grant Formula Program: Local Solicitation in the amount of \$97,185. It was agreed by the departments that the funds would be distributed with each department receiving the following amounts based on FBI Crime Statistics/Population.

South Bend Police Department	\$ 77,185
St. Joseph County Police Department	\$ 20,000

It was also agreed that the South Bend Police Department would be the administrator for this grant and the funds allocated to each department would be used for the purchase of much need equipment. The equipment to be purchased by the departments has proven effective in evidence based and data driven methods of combating crime. The goals of the project which are improved officer safety, increased productivity, and to maintain a commitment of evidence based and data driven methods of combating crime will be furthered through the purchase of equipment which has been proven in the law enforcement community. The use of in-car camera systems has show to help in the prosecution of criminal cases, improve officer safety through training reviews of video footage, and to decrease litigation from fraudulent complaints against officers, saving police departments ten of thousands of dollars. The use of Automatic License Plate Readers has proven effective in apprehensions of motor vehicle thefts, abductions, and in border patrols along the Canada and Mexican borders of the U.S. By purchasing non-budgeted items through Federal Funding each police department is able to pool resources to preserve the jobs of police officers and civilian support staff.

Project Identifiers

Counter Terrorism - Automatic License Plate Reader.
Auto Theft - Automatic License Plate Reader.
Impaired Driving –in-car video cameras systems.
Excessive Use of Force - in-car video cameras systems.
Officer Safety - in-car video cameras systems.

**2012 South Bend Police Department interdepartmental
Annual Justice Assistance Grant (JAG) Application
Program Narrative**

In 2008 Law Enforcement agencies in Indiana were struck a heavy blow when the Indiana House Enrollment Act 1001 was passed. This piece of legislation placed a cap on property taxes and while beneficial to the average home owner greatly reduced the revenue potential of cities and municipalities of Indiana. One of the hardest hit counties was St. Joseph County in North Central Indiana. These revenue losses greatly impact Capital Fund budgets from which Police and Fire Departments receive the majority of their funding. Two law enforcement agencies which have jurisdiction in St. Joseph County are the City of South Bend Police Department, and the St. Joseph County Police Department. In order to deal with budgetary cuts and reductions in manpower the City of South Bend Police Department, and the St. Joseph County Police Department have focused on evidence based and data driven methods of combating crime. Through the use of emerging technologies and community oriented policing to engage residents in taking a stand against criminal behavior the agencies have been able to maintain the level of service need to protect our communities in tough economic times. In early 2012 the South Bend Police Department contracted with Crime Reports.com to provide the citizens of our community access to crime stats through our web site. A citizen can now gain more information on what is occurring in their neighborhood by going to our web site. This enables community members to know what is going on and possible give tip information on some of the crimes.

By using such methods as Geographic Information System (GIS) Mapping which integrates hardware and software for capturing, managing, and analyzing data as geographically referenced information we are able to visualize crime data in many ways that reveal relationships, patterns and trends in the form of maps. We are then able to use these maps and information to concentrate manpower where and when it is most needed to maximize effectiveness. This use of technology has proven effective across the United States. In addition the use of in car video cameras has proven beneficial in criminal prosecution. One St. Joseph County Judge stated that he wanted to see more cameras and body microphones used to document statements or situations in the field where officers are involved in criminal investigations. Another emerging technology which has already proven effective in crime reduction and criminal apprehensions is the use of Automatic License Plate Readers (ALPR). These devices use high speed camera systems and computers hard drives to capture up to 1800 license plates per minute and check against lists of license plates wanted as stolen or used for numerous criminal offences. The plate reader is able to scan license plates at speeds in excess of 75 mph. This technology has greatly increased motor vehicle theft recovery in areas where employed, has led to the apprehension of wanted criminals, and has even helped in catching homicide suspects. By using grant funding to purchase technology which has proven effective through evidence-based programs the City of South Bend Police Department and the St. Joseph County Police Department hope to be able to better protect our community while having our budgets reduced due to economic hardships.

The South Bend Police Department in conjunction with the St. Joseph County Police Department as parts of a disparate jurisdiction is applying for the 2012 Edward Byrne Memorial Justice Assistance Annual Grant Formula Program: Local Solicitation in the amount of \$97,185. It was agreed by the departments that the funds would be distributed with each department receiving the following amounts based on FBI Crime Statistics/Population.

South Bend Police Department	\$ 77,185
St. Joseph County Police Department	\$ 20,000

It was also agreed that the City of South Bend/South Bend Police Department would be the administrator for this grant. Each agency will be responsible for tracking individual grant statistics in regard to funds used, equipment purchased, methodology and goals attained. The generated information will be forwarded to the South Bend Police Department which will be in charge of grant reporting to the U.S. Department of Justice, Office of Justice Programs, and Bureau of Justice Assistance.

SOUTH BEND POLICE DEPARTMENT

FY2012 JAG Program Narrative

Project Objectives

The South Bend Police Department will plan on the continuation and upgrade of the Department's mobile video system technologies. We believe this is essential to our Department's Community Oriented Policing Philosophy, the professionalism required as a City of South Bend Police Officer, and Our commitment to providing the citizens of Our Community with the best criminal investigations possible.

With over 175 in-car video cameras already installed using both VHS and digital technology, the Department has shown an additional need for more in-car units as well as further migration to digital technology for more space saving with efficient storage and cost saving through migration away from outdated technology. In the past two years the South Bend Police Department has invested grant funding and limited Department funding into upgrading from VHS technology to digital technology, and has managed to switch over the majority of the outdated VHS systems. The South Bend Police Department has also started using wireless downloads to transfer through a secure link the video and audio footage from the digital in car video systems to a secure server. We currently have 57 vehicles outfitted with digital camera systems capable of using wireless transfers. We propose to purchase 16 more Digital Ally in-car video systems (\$80,000); any cost over the grant amount will be funded through the South Bend Police Department Budget.

The Digital Ally system records to a solid state hard drive which stores the video and audio information until the vehicle comes within range of a South Bend Police Department wireless access point. The information is then automatically downloaded to a secure server and stored. The officer or prosecuting attorney can then log onto the secure server at any time to view but not modify the video. This ability will assist officers in factually writing their reports and allows prosecutors the ability to accurately charge criminal cases. The use of in-car cameras has been shown to decrease fraudulent claims against officers for excessive use of force, race based traffic stops, and inappropriate conduct with members of the opposite sex. This alone saves police departments tens of thousands of dollars in legal costs. The South Bend Police Department has a policy which states that anytime an officer initiates a traffic stop or transports a prisoner the in-car camera must be on. Each police vehicle is also outfitted with an automatic start-up option for the Digital Ally System so that the system automatically powers on when the vehicle is started and has a battery back-up to power the system for an additional 45 minutes when the vehicle is shut off. If a person later files a complaint against an officer the video footage is one of the first items checked by Internal Affairs. The knowledge that their camera is on also reinforces the officers desire to maintain a high ethical and moral standard at all times. With the pre-event recording option on all the cameras, video footage is captured up to 2 minutes prior to an officer activating a recording.

The video footage is used by prosecutors in court cases to demonstrate probable cause and for recorded victim, witness, or suspect statements. In addition to video footage the audio footage from the officer's body microphone has shown increasing importance in criminal prosecution of violent crimes such as domestic violence cases where children are present. The body microphone which has a range of approximately 1000' from the officer's car is able to

capture real time audio from inside the crime scene while the officer is investigating the alleged crime. With this technology, prosecutors, judges, and juries are able to hear for themselves the distraught nature of abused children and battered spouses. This allows judges and juries to better assess sentencing guidelines and break cycles of violence to protect our community from continuing patterns of violence.

In addition, video footage has shown increased importance in officer safety and wellness. We are able to use video footage from officer vehicle pursuits for training of new officers and address gaps in current officers' training or handling of vehicle pursuits to decrease the likelihood of injury. In 2001 a South Bend Police Officer was shot and suffered life threatening wounds. His in-car video camera was instrumental in helping to apprehend and convict the suspect who shot him. This video continues to be used for training new officers in the danger of "routine" traffic stops and the becoming complacent.

Organizational Capabilities and Competencies

The South Bend Police Department is comprised of 257 sworn officers and 69 civilian employees. The Department was officially founded in 1903 and services a population of 101,168 (2010 Census Data) within an area of approximately 39.1 square miles.

The South Bend Police Department's Interdepartmental Annual Justice Assistance Grant will be managed by [REDACTED] who is a veteran officer of the South Bend Police Department with over 14 years of service. He is the Community Outreach coordinator for the South Bend Police Department, and has successfully managed the Police Department's Weed & Seed Site 1 and 2 grants, as well as Community Development Block Grant (HUD) funding for the South Bend Police Department, and numerous other grants through the COPS office and U.S. Department of Justice. At this time there are no anticipated coordination efforts involving JAG and related justice funds. b6

Timeline

The proposed equipment will be purchased in the first year. Any additional equipment needed will be purchased prior to the end of the grant term. By the end of the first year installation and training on the new equipment should be completed.

Performance Measures

The goals and objectives of the project which are improved efficiency, officer safety through evidence based and data driven methods of combating crime and will be measured by the following:

1. Officer safety will be improved through the use of the in-car video footage in training. This will be measured by the number of training opportunities given to new and veteran officers in a year's time and documenting any necessary changes in training as deficiencies are brought to light from the videos.
2. Efficiency will be measured by the number of videos requested by the Local Prosecutor's Office for case evaluation instead of the issuance of a subpoena for an officer who would be paid overtime for off-duty court request. The number of videos used in court will also be tabulated for reporting and how using improvements in technology have helped in smart policing.
3. Efficiency will also be measured by the number of exonerated cases of officer wrong doing by fraudulent complaints and by the decrease in expense of transferring video from outdated VHS technology to digital technology for court usage.

ST. JOSEPH COUNTY POLICE

Program Narrative

Project Objectives

The St. Joseph County Police Department serves a community of approximately 266,931 residents and covers 461 square miles. The Department oversees the daily operation of the St. Joseph County Jail which averages between 11,000 and 13,000 bookings each year and security of 700 inmates on a daily basis. The St. Joseph County Police Road Patrol Division provides enforcement services for approximately 112,000 residents 24 hours a day. The Department has studied the evidence based programs of neighboring departments in their use of Automated License Plate Recognition Systems to recover stolen vehicles and apprehend wanted felons. The St. Joseph County Police Department proposes to use funding from the 2012 Edward Byrne Memorial Justice Assistance Annual Grant Formula Program: Local Solicitation to purchase an Automatic License Plate Reader. In areas that experience high vehicle related crime; monitoring and tracking a large number of vehicles efficiently becomes prudent for law enforcement. It has been proven that a significant portion of violent crimes and terrorist activities worldwide involve vehicles. A method by which we can process large volumes of license plates has become critical. To this end we are looking to purchase an Automatic License Plate Reader (ALPR). The ALPR will allow an officer to drive through a parking lot, down a city street, or highway and automatically scan thousands of license plates. Because the ALPR scans automatically it defeats allegations of bias based policing, and allows an officer to maintain driver awareness as his or her vision is not diverted. The system also allows for frequent updates so if there is a crime which just occurred the license information can be quickly added to the system. In Georgetown,

South Carolina one of these systems led to the apprehension of a homicide suspect. When Homeland Security sends out State wide alerts on suspected terrorist's vehicles, or there is an alert on a bank robbery or homicide suspect vehicle we can add the information to the system to further protect the citizens of our community.

Areas to be addressed cover not only the safety of police, but safety and security of the public in which we serve; by using grant funding we are able to further our commitment to evidence based and data driven methods of combating crime in tough economic times.

Organization Capabilities and Competencies

The St. Joseph County Police Department is a full-service police agency, which serves the 266,931 (2010 census) residents of St. Joseph County, Indiana in an area of approximately 461 square miles. St. Joseph County Police Department also assists the town and city police departments for Lakeville, New Carlisle, North Liberty, Osceola, Roseland, Walkerton, Mishawaka, and South Bend, Indiana. The St. Joseph County Police Department is comprised of 116 sworn officers and over 200 civilian personnel. The funds received from the Byrne Formula Grant will be tracked with a spreadsheet program, which will allow the St. Joseph County Police to monitor all draw downs and grant expenditures separately from other federal funding.

Timeline / Project Plan

Within the first year the proposed equipment will be purchased, installed, and training will be accomplished. By the end of the second year additional officers will be trained in the use of the system and any additional need equipment will be purchased and implemented.

**2012 South Bend Police Department interdepartmental Annual
Justice Assistance Grant (JAG) Application
Review Narrative**

On April 10, 2012 the South Bend Police Department sent e-mail notification of the pending submission of the Annual 2012 JAG Grant application to the Mayor of South Bend, City Council Members. This notification included a copy of the projected disbursement of funds due to a disparate jurisdiction, proposed usage of the funds, and the proposed grant administrator being the South Bend Police Department. In addition a hard copy was given to the Board of Public Safety Members. The public review of the proposal was added to the agenda of the Board of Public Safety for April 18th 2012 meeting, and handouts were made available to members of the public in attendance. The agenda notices are posted at the City of South Bend County City Building where all official notices are posted and the city web site.

INTERLOCAL AGREEMENT CONCERNING

ANNUAL BYRNE JUSTICE ASSISTANCE GRANT (JAG) PROGRAM AWARD (2012)

U.S. Department of Justice, Justice Assistance Grant (JAG)

Application Number: 2012-H1454-IN-DJ

1. This Agreement is between the City of South Bend (Hereinafter "South Bend"), Indiana, and St. Joseph County (Hereinafter "St. Joseph County"), Indiana.
2. The purpose of this Agreement is to allow each of the parties to receive grant money from the Department of Justice for programs of the party's choice.
3. This Agreement shall remain in full force and effect until Oct. 01, 2015.
4. This Agreement shall be administered through a Joint Board consisting of two members who shall be the President of the Board of County Commissioners of St. Joseph County, and the Mayor of South Bend. Each member shall have the power to give a written power of attorney to any person for a particular meeting.
5. Pursuant to this Agreement, South Bend is in the process of applying on behalf of all parties for a JAG Grant in the amount of \$97,185. If awarded, the money will be disbursed as follows:

South Bend agrees to pay St. Joseph County a total of \$20,000 of the JAG funds.
South Bend will use a total of \$77,185 of JAG funds.
6. The parties agree that of the monies received:

St. Joseph County agrees to use \$20,000 from the JAG award for its Officer Safety and Technology Program prior to September 30, 2015.
South Bend agrees to use \$77,185 from the JAG award for its Officer Safety and Technology Program prior to September 30, 2015.
7. Nothing in the performance of this Agreement shall impose any liability for claims against St. Joseph County other than claims for which liability may be imposed upon St. Joseph County by the Indiana Tort Claims Act.

Nothing in the performance of this Agreement shall impose any liability for claims against South Bend other than claims for which liability may be imposed upon South Bend by the Indiana Tort Claims Act.
8. Each party of the Agreement will be responsible for its own actions in providing services under this Agreement and shall not be liable for any civil liability that may arise from furnishing of the services by another party.
9. The parties to this Agreement do not intend for any third party to obtain any right by virtue of this Agreement.
10. By entering into this Agreement, the parties do not intend to create any obligations express or implied other than those set out herein, further this Agreement shall not create any rights in any party not a signatory hereto.

11. The Board may meet at least once each calendar year. A meeting may be called by any member of the Board upon written notice to the other members at their respective offices forty-eight (48) hours in advance. It is necessary that each member or his designee be present to constitute a quorum.
12. The City Controller of the City of South Bend has the duty to receive, disburse and account for all monies generated under this Agreement.
13. The Board shall not acquire any property with the monies which may be given by the Department of Justice through a grant.

5. Pursuant to this Agreement, South Bend is in the process of applying on behalf of all parties for a JAG Grant in the amount of \$97,185. If awarded, the money will be disbursed as follows:

South Bend agrees to pay St. Joseph County a total of \$20,000 of the JAG funds.
South Bend will use a total of \$77,185 of JAG funds.

6. The parties agree that of the monies received:
 St. Joseph County agrees to use \$20,000 from the JAG award for its Officer Safety and Technology Program prior to September 30, 2015.
 South Bend agrees to use \$77,185 from the JAG award for its Officer Safety and Technology Program prior to September 30, 2015.
7. Nothing in the performance of this Agreement shall impose any liability for claims against St. Joseph County other than claims for which liability may be imposed upon St. Joseph County by the Indiana Tort Claims Act.

 Nothing in the performance of this Agreement shall impose any liability for claims against South Bend other than claims for which liability may be imposed upon South Bend by the Indiana Tort Claims Act.
8. Each party of the Agreement will be responsible for its own actions in providing services under this Agreement and shall not be liable for any civil liability that may arise from furnishing of the services by another party.
9. The parties to this Agreement do not intend for any third party to obtain any right by virtue of this Agreement.
10. By entering into this Agreement, the parties do not intend to create any obligations express or implied other than those set out herein, further this Agreement shall not create any rights in any party not a signatory hereto.

11. The Board may meet at least once each calendar year. A meeting may be called by any member of the Board upon written notice to the other members at their respective offices forty-eight (48) hours in advance. It is necessary that each member or his designee be present to constitute a quorum.
12. The City Controller of the City of South Bend has the duty to receive, disburse and account for all monies generated under this Agreement.
13. The Board shall not acquire any property with the monies which may be given by the Department of Justice through a grant.
