FY10 JAG Abstract

Name: Forest Park Police Department

Title of Project: Operation Stolen Vehicle

Goals of the Project: The main goal of the project is to reduce the number of vehicles stolen in the city limits of Forest Park by locating vehicles that have already been reported as stolen and arresting any occupants.

Strategies: GCIC and NCIC data will be downloaded to the Automatic License Plate Locator and Reader on a daily basis. The vehicle equipped with this equipment will then patrol through out the city while the Automatic License Plate Locator and Reader continuously logs and checks all licenses plates that it encounters for stolen. When a positive hit is received the officers will receive notification so that he/she may take the appropriate action.

Major Deliverables: Equipment provided through the JAG program will allow officers to check a greater number of license plates for stolen in any given period of time and therefore increasing the likelihood that a stolen vehicle will be recovered. The higher the number of individuals arrested for being in possession of a stolen vehicle, the lower the number of crimes being committed in Forest Park. If an individual will drive a stolen vehicle, then they will break into someone home or any other type of crime.

The main deliverable from this grant will be an increase in recovered stolen vehicles and a reduction in new vehicles stolen. Secondary effects of this grant will be a reduction in all part 1 crime.

FY10 JAG
Program Narrative

The Forest Park Police Department is requesting funds from the Bureau of Justice Assistance to assist with purchasing an automatic license plate locator, reader, and associated equipment. This device will significantly improve our capability to perform vital functions in a real life environment. These functions will enable officers to drastically increase the number of recovered stolen vehicles by allowing officers to significantly increase the number of license plates checked against the NCIC database.

All funds obtained through the JAG program would be utilized for equipment purchases and accounted for through the use of accepted budgetary practices currently utilized by the City of Forest Park. All funds would be drawn down at the time of expenditure or drawn down to reimburse expenditures already made by the City of Forest Park. Expenditures would be reported to the Department of Justice within guidelines specified by the BJA.
