Re: *ACLU v. Dep't of Defense, et al.*, No. 09 Civ. 8071 (BSJ) (FM)

Dear Ms. Goodman:

Enclosed please find three sets of documents that are responsive to the Freedom of Information Act ("FOIA") request dated April 23, 2009, which is the subject of the above-referenced case. Two of the sets are being released by the Department of Defense ("DoD"): one is Bates-numbered Bagram-OSD 1-97, and the other is Bates-numbered Bagram-Centcom 281-332. The third set is being released by the Department of Justice's National Security Division ("NSD"), and is a single page, which is Bates-numbered NSD 1.

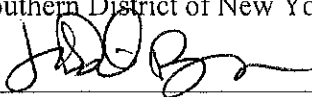

Please note that certain pages within DoD's production are being withheld in full, pursuant to various FOIA exemptions, as noted on sheets interspersed throughout the production, noting these withholdings and their basis. (Other pages for which there is a gap in the numbering have been removed either because they are duplicates of documents that are already part of DoD's productions in this case, or because further review of these documents showed they were not responsive to the FOIA request at issue.) Please also note that certain information in all of these documents is being withheld pursuant to various FOIA exemptions, as noted on the documents, and is redacted on the copies provided. Finally, please note that NSD's production today does not include a number of documents that have been referred to other agencies for their review and eventual production. We will apprise you when these referrals are complete and the documents are ready for production.

Please let us know if you have any questions regarding this production.

Very truly yours,

INFO MEMO

18 September 2009

FOR: DEPUTY SECRETARY OF DEFENSE
CHAIRMAN, JOINT CHIEFS OF STAFF

FROM: General David H. Petraeus, Commander, United States Central Command

SUBJECT: Implementation of Deputy Secretary of Defense Policy Guidance on Detainee Review Procedures at Bagram Theater Internment Facility (BTIF), Afghanistan (U)

Mr. Deputy Secretary, Chairman,

(U//FOUO) This provides the plan for implementation of the new Detainee Review Board (DRB) procedures established in your memorandum of 2 July 2009. (TAB A) Now that the 60-day Congressional notification period has elapsed, USCENTCOM will implement components of the new procedures per the attached Commander, USFOR-A memorandum (TAB B) with full implementation once the required additional Manning is in place and trained.

BACKGROUND

- (U) On 15 September 2009, the 60-day Congressional notification period expired, clearing the way for USCENTCOM to begin implementing the new DRB procedure.

DISCUSSION

- (U//FOUO) The new DRB procedure is a significant improvement, but one that requires additional personnel to implement fully. USCENTCOM recently released a request for forces (RFF) to enable implementation of the new procedure, and the requested forces are expected to be in place by mid-November. USCENTCOM will work to ensure the RFF is resourced as soon as possible while also exploring options for interim support.
- (U//FOUO) Until the requested personnel are in place and trained, USFOR-A and CJTF-82 will implement transitional DRB procedures as described in TAB B. The transitional DRB immediately implements key components of the new requirements and phases in the remaining components as key billets are filled. It represents a meaningful change in current procedures and a significant step toward full implementation.
- (U//FOUO) USCENTCOM anticipates full implementation of the new DRB procedure no later than December 2009, and will report back once this is accomplished.

RECOMMENDATION

- (U) None, for information only.

DEFINITIONS

(U) The following definitions are applicable to this guidance:

1. An "enemy combatant" (EC) for purposes of this guidance is defined as any person that US or allied forces could properly detain under the laws and customs of war. For purposes of this conflict, an EC includes, but is not necessarily limited to, a member or agent of al Qaeda, the Taliban, or another international terrorist organization against which the United States is engaged in armed conflict.
2. "Under DoD Control" means that the individual is either in the physical control of DoD or, if in the physical control of another agency, has been designated by the President or his designee for transfer to DoD control.
3. "Release" is the process by which an individual, who has been determined no longer to pose a threat to the United States or US interests, is released to a foreign government with no promise, in return, for continued detention.
4. "Conditional release" is the release of an EC who has been determined no longer to pose a threat to the United States or US interests, under a promise or agreement of that EC not to take up arms, or participate in further fighting, against the United States or its allies in exchange for freedom.
5. "Transfer" is the process by which the control of an individual is transferred to a foreign government with the promise that certain conditions will be fulfilled, usually including the promise of continued detention as an EC until returned to US control or until his release is authorized by the United States.

PROCESS

(U) Unless otherwise directed by the Secretary of Defense, within 90 days of a detainee being brought under DoD control, the detaining combatant commander, or his designee, shall review the initial determination that the detainee is an EC. Such review shall be made based upon all available and relevant information available on the date of review and may be subject to further review based upon newly discovered evidence or information.

(U) The detaining combatant commander or his designee shall produce a written assessment regarding the detainee's EC status based upon his review of all available and relevant information concerning the detainee. The review shall be administrative in nature and shall not be deemed to create any right, benefit, or privilege, substantive or

procedural, against the United States, its departments, agencies, or other entities, its officers or employees, or any other person. The detaining combatant commander shall be guided by the following:

- (a) The detaining combatant commander shall consider all relevant and reasonably available information, including any new information that has been identified since the initial status determination.
- (b) If necessary to make a proper review, the detaining combatant commander may interview witnesses, provided they are reasonably available and such interviews would not affect combat, intelligence gathering, law enforcement, or support operations.
- (c) The detaining combatant commander may, at his discretion, convene a panel of commissioned officers to review the available evidence and reach a recommended determination.

(U) After the initial 90-day status review, the detaining combatant commander shall, on an annual basis, reassess the status of each detainee.

(U) If, as a result of a periodic HC status review (90-day or annual), a detaining combatant commander concludes that a detainee may no longer meet the definition of an HC, the detaining combatant commander shall identify that detainee for possible release or transfer as appropriate.

(S) A detainee may also be considered for possible release, conditional release, or transfer when...

(b)(1), Sec. 1.4(a), Sec. 1.4(c)

- (S) A combatant commander, who has been authorized by the Secretary of Defense to conduct operations that may result in the detention of personnel or to take control of detained personnel, recommends release or transfer of a detainee under his control; or,
- (S) The Secretary of the Army, consistent with reference (C), recommends the release or transfer of a detainee following the conduct of a criminal investigation.

(b)(1), Sec. 1.4(a), Sec. 1.4(c)

(S) When a request conflicts with the requirements of a combatant commander or the Criminal Investigation Task Force (or DoD lead for criminal investigations for the region, when directed) concerning a particular detainee, the Secretary of the Army and the Director of the Joint Staff shall advise the Assistant Secretary of Defense for Special Operations and Low Intensity Conflict when the case can be ready for interagency consideration. The process for determining readiness for interagency consideration shall be conducted in a manner consistent with paragraphs below concerning instances when a combatant commander or the Secretary of the Army identifies a detainee for release or transfer.

(S) In the case of release, the Assistant Secretary of Defense for Special Operations and Low Intensity Conflict, in conjunction with the General Counsel of the Department of Defense, shall assess whether the detainee should still be detained as an EC or should be released (including whether any conditions should apply to his release, e.g., under a conditional release or other agreement).

(U) Recommendations for release or transfer, coordinated with the (b)(1) SEC 1.4(c)(d) as appropriate, shall be made to the Secretary of Defense or his designee for decision.

(U) In addition to other responsibilities prescribed herein, the Secretary of the Army and relevant combatant commanders shall assess detainees for potential release (including under conditional release or other agreements) or transfer on a comprehensive and ongoing basis.

(S) When a combatant commander or the Secretary of the Army identifies a detainee for possible release or transfer to foreign government control, as set out in reference (A):

- (S) If the detaining combatant commander recommends release or transfer, he shall notify the Commander of the Criminal Investigation Task Force (or DoD lead for criminal investigations for the region, when directed) and forward a completed detainee file to the Director of the Joint Staff for review. - (5) If the Commander of the Criminal Investigation Task Force (or the DoD lead for criminal investigations for the region, when directed) recommends release or transfer, he shall prepare the file and forward to the Secretary of the Army the completed detainee file including all supporting documentation to provide the information specified in paragraphs 1, 2.a, 3.b, and 3.a. of Annex A.
 - (6) If the case is under review and the file is not complete, the Secretary of the Army, or the Director of the Joint Staff, as appropriate, shall inform the Assistant Secretary of Defense for Special Operations and Low Intensity Conflict of the status of the file.

 - (8) the detainee file complete with all supporting documentation necessary for the Interagency Experts Group to make an informed recommendation (use information specified in the TAB to this document);

 - (8) an assessment of the threat the detainee poses to the United States or US interests, and a recommendation concerning how to address that threat -- with all supporting documentation so the Interagency Experts Group can make an informed recommendation (use information specified in Annex A to this document).
- (5) The Secretary of the Army and the Director of the Joint Staff shall provide completed files with all supplementary materials and recommendations to the Assistant Secretary of Defense for Special Operations and Low Intensity Conflict.

SUBJECT: Transfer of Detainees to the Government of Afghanistan (FOUO)

- (S) Policy recommends that you approve the USCENTCOM request to transfer the (b)(1), Sec. 1.4(a) Afghan Low-Level Enemy Combatants held by Combined/Joint Task Force (CJTF)-82 at Bagram Airfield, Afghanistan to the Government of Afghanistan (GOA) (TAB A).
 - (S) The transfer is based upon guidance provided by the Deputies Committee (DC) on February 7, 2007 to proceed with transfers from Bagram to the Afghan National Detention Facility (ANDF) at the rate of (b)(1), Sec. 1.4(a) (TAB B).
 - (S//NF) Thus far, you have approved the transfer of (b)(1) detainees from Bagram to the ANDF (TAB C and TAB D). CJTF-82 has transferred all of these detainees over a 3-month period (a rate of about (b)(1) per month).
- (S//NF-FOUO) The GOA intends to use its National Directorate of Security (NDS) criminal justice system to investigate and prosecute detainees transferred from DoD. The NDS has federal jurisdiction to prosecute internal and external security threats.
 - (S//NF-FOUO) The NDS has completed investigations on the (b)(1) detainees transferred in April and has referred charges against them to the GOA Attorney General's Office for the issuance of indictments.
- (S) Policy supports USCENTCOM's request to transfer the (b)(1), Sec. 1.4(a) detainees. "Baseball cards" pertaining to the proposed transferees are at TAB E.
 - (S) Approval will allow CJTF-82 to continue transfers from Bagram to the ANDF at the rate proposed by the DC.

FOR DEPUTY SECRETARY OF DEFENSE

ROBERT RANGEL
7/c

FROM: Joseph Benkert, Principal Deputy Assistant Secretary of Defense (1334) *[Signature]* SEP - 4 2007
SUBJECT: Government of Afghanistan Participation in the Enemy Combatant Review Board Process (FOUO)

- ~~(S)~~ Recommend you authorize the ^{(b)(1), Sec.} _{(d)(4)} participation of Government of Afghanistan (GOA) officials in the Enemy Combatant Review Board (ECRB) process used at the Bagram Theater Internment Facility (BTIF) for matters involving Afghan detainees.
 - ~~(S)~~ The ECRB process in Afghanistan assists Commander, USCENTCOM, or his designee, in making detainee status determinations and decisions on continued detention or release. The ECRB is comprised of U.S. military personnel, but routinely receives recommendations and input from other U.S. agencies.
 - ~~(S)~~ The ECRB process was established to implement policy guidance provided in "Global Screening Criteria for Detainees" (TAB A) and "Detainee Screening in Afghanistan" (TAB B). Existing policy guidance neither prohibits nor encourages GOA participation in the ECRB process.
- ~~(S)~~ In November 2005, USCENTCOM recommended, in the context of transfer of detainees to the GOA, establishing a collaborative enemy combatant review process that would include GOA participation.
 - ~~(S)~~ In July 2006, that recommendation and others were discussed at an OSD Detainee Affairs quarterly conference with USCENTCOM and Joint Staff. However, as the transfer of detainees had not yet begun, DASD Detainee Affairs considered a decision on the issue to be premature.
- ~~(S)~~ The Department has now initiated the transfer process in Afghanistan. There are a number of potential benefits to GOA involvement in the ECRB process.

SUBJECT: Global Screening Criteria for Detainees (U)

- (S//NF) Currently, we don't have guidance for all Combatant Commanders on screening and processing individuals detained in the war on terrorism.
 - (S//NF) Current policy addresses solely those enemy combatants detained in Operation Enduring Freedom in Afghanistan (Tab A).
- (S//NF) The attached guidance (Tab B) broadens extant policy to cover enemy combatants regardless of where they are captured.
 - (S//NF) The screening criteria apply to all terrorists whom the President has so designated because they pose a threat to the United States or US interests, or are of strategic intelligence or law enforcement value to the United States.
- (S) For our previous discussions, this guidance makes clear that "low-level" enemy combatants who represent only a tactical force protection threat are not eligible for movement to Guantanamo Bay.
- (S//NF) The Annex at Tab C provides supplemental guidance to Commander, US Central Command, for screening and processing individuals detained in Afghanistan.

III. POLICY

- (a) (U) The United States is engaged in an armed conflict with al Qaeda, its supporters, and other designated terrorist organizations that have targeted the United States and its interests. This is an armed conflict against terrorist organizations of global reach and is not confined to one geographic area or one theater of operations.
- (b) (U) It is the policy of the DoD to ensure that any individuals detained in war-on-terrorism operations and assessed to be Enemy Combatants are screened to ensure that they meet approved criteria for detention by the DoD.
- (c) ~~(S)~~ Combatant Commanders performing war-on-terrorism missions shall screen individuals over whom they obtain control to determine whether they are Enemy Combatants and whether detention at Guantanamo Bay, Cuba, is warranted. Upon approval by the Secretary of Defense in applicable circuit orders, Combatant Commanders may transfer to a DoD-approved facility for further detention those Enemy Combatants they determine are international terrorists or members of specified international terrorist organizations, pose a threat to the United States or US interests, and are of high operational or strategic intelligence or law enforcement value to the United States. Of those Enemy Combatants, Combatant Commander may only transfer to Guantanamo those whose exploitation requires the specialized capabilities available at Guantanamo.
- (d) ~~(S)~~ When a Combatant Commander is conducting a non-war-on-terrorism mission and obtains control over a suspected Enemy Combatant who is an international terrorist, or a member of a specified international terrorist organization, as identified in references (E) or (G), poses a threat to the United States or US interests, and is of high operational or strategic intelligence or law enforcement value to the United States, he shall notify the Director of the Joint Staff by message and shall maintain control over this suspected Enemy Combatant until the Combatant Commander receives appropriate direction regarding the individual's ultimate disposition.

- (D) (U) Reference (C) remains in effect. This document supersedes the *Implementing Guidance on Detainee Screening and Processing for Transfers of Detainees in Afghanistan, to Guantanamo Bay Naval Station, Secretary of Defense, January 7, 2002* [rev. December 10, 2002], reference (D).
- (a) ~~(S)~~ The availability of DoD detention facilities at Guantanamo Bay, or elsewhere, shall not be a determining factor in whether a Combatant Commander detains or obtains control over an individual. The detainee facilities at Guantanamo Bay, Cuba, function as a strategic intelligence gathering center and should be used for detaining those Enemy Combatants who meet the stated criteria, and are of high operational or strategic intelligence or law enforcement value, and not those Low-level Enemy Combatants who pose only a tactical force protection threat. Nothing in this guidance authorizes (1) the commencement of military operations, or (2) the transfer to Guantanamo Bay, Cuba, of an Enemy Combatant. Actions regarding specific terrorists and/or terrorist organizations will be authorized in execute orders approved by the Secretary of Defense.

IV. PROCEDURES

(b) The following procedures shall be followed when a Combatant Commander obtains control of individuals in connection with Operation Enduring Freedom or other war-on-terrorism operations.

- (a) ~~(S)~~ **Screening:** A Combatant Commander shall assess all individuals over whom he obtains control in connection with Operation Enduring Freedom or other war-on-terrorism operations to determine whether they are Enemy Combatants who are international terrorists or members of specified international terrorist organizations, pose a threat to the United States or US interests, and are of high operational or strategic intelligence or law enforcement value to the United States. A Combatant Commander shall request support from a Mobile Detainee Review and Screening Team (MDRST) (reference (C)), to conduct the screening. The detaining Combatant Commander shall collect and record to the maximum extent possible the following information about each Enemy Combatant under his control:

(b)(6) **Requests for Screening Assistance by a Mobile Detainees Review and Screening Team (MDRST):** The Combatant Commander shall request an MDRST review, or that an MDRST deploy to assist in, the screening process before recommending a detainee be sent to Guantanamo Bay or other detention facility. The MDRST will screen Enemy Combatants to determine whether they are international terrorists or members of specified international terrorist organizations identified in references (E) and (G), pose a threat to the United States or US interests, and are of high operational or strategic intelligence or law enforcement value to the United States. The MDRST will advise the Combatant Commander whether an Enemy Combatant warrants transfer to, and detention at, Guantanamo Bay or at an alternative detention facility. In the event the Commander, US Southern Command receives multiple requests for MDRST support, he shall prioritize his requests and, if unable to meet competing priorities, he shall notify the Director of the Joint Staff, who will establish priority of efforts among the Combatant Commanders.

(c) **Assignment of Internment Serial Numbers:** When the Combatant Commander obtains control of an Enemy Combatant, he shall ensure that the relevant military police element assigns an Internment Serial Number (ISN) to the Enemy Combatant within five days or as soon as operationally practical. The purpose of the Internment Serial Number is to aid in maintaining accountability for detained persons. Combatant Commanders shall include in the justification for the recommendation the results of all screenings and the recommendation of the MDRST.
- Obtaining control over any US citizen, or an individual claiming to have been born in or to be a national of, the United States, any citizen of a coalition partner nation, or a person whose transfer to a DoD detention facility is likely to raise significant policy concerns.

FROM: Joseph Bankert, Principal Deputy Assistant Secretary of Defense (OSD)

SEP 21 2007

SUBJECT: Transfer of Detainees to the Government of Afghanistan (FOUO)

- (S//NF) Policy recommends you approve the USCENTCOM request to transfer (b) Afghan detainees designated as Low-Level Enemy Combatants (LLEC) held by Combined/Joint Task Force (CJTF)-82 at Bagram Airfield to the Government of Afghanistan (GOA) (TAB A).
 - (S//NF) The transfer is based upon guidance provided by the Deputies Committee (DC) on February 7, 2007 to proceed with transfers from Bagram to the Afghan National Detention Facility (ANDF) at the rate of (b)(1), Sec. 1.4(b) (TAB B).
 - (S//NF) Beginning in April 2007, you approved the transfer of three groups totaling 106 detainees from Bagram to the ANDF. The last transfer (b) detainees) occurred on August 16, 2007.
- (S) It is anticipated that the Afghan National Directorate of Security (NDS) criminal justice system will investigate and prosecute these detainees. To date, the NDS has investigated and charged (b)(1), 1. a detainees transferred (the first (b) group).
 - (S) Charged offenses include (b)(1), Sec. 1.4(b) A typical minimum sentence for charged offenses is 5-7 years, but many charges carry more severe sentences.
 - (S) The one detainee who was ultimately not charged was released by the GOA through the reconciliation program (RTS). This detainee had previously been assessed as low threat and nominated for RTS release by CJTF-82.

FROM: Joseph Benkert, Principal Deputy Assistant Secretary of Defense (GSA)

OCT 12 2007

SUBJECT: Transfer of Afghan National held at Bagram to Department of Justice (S/NF)

- (S/NF) Recommend that you approve the movement and transfer of Afghan detainee Khan Mohammed, ISN US9AF-003020DP, from DoD custody at Bagram, Afghanistan, to Department of Justice (DoJ) custody in the United States. (Tab A)
 - (FOUO) In December 2006, DoJ indicted Khan Mohammed in the U.S. District Court for the District of Columbia for charges related to the distribution of heroin (Tab B). DoJ is now prepared to prosecute this detainee.
- (S/NF) Drug Enforcement Administration (DEA) officials have requested that DoD transport detainee Khan Mohammed to the United States on a non-reimbursable basis. (Tab C)
 - (FOUO) Due to operational constraints and international flight restrictions, DEA cannot conduct this flight without external support.
 - (U) Khan Mohammed has waived any objection to his transfer to the United States, so his movement to the United States will be voluntary. (Tab D)
 - (U) DoS and DoJ have notified the Government of Afghanistan of our desire to transport this detainee to the U.S. for prosecution, and the GoA has not objected.
 - (U) Since DoD has custody of this detainee within the USCENTCOM area of responsibility (AOR) and has a Departmental interest in removing him from the USCENTCOM AOR to facilitate his transfer out of DoD custody, this movement would be a DoD mission and could be executed on a non-reimbursable basis.
- (S) You previously approved a movement of this nature in May 2007 for Afghan

• (S//NF) There has been a change to the plan to transfer Afghan detainee Mohammed Issa, ISN US9AF-003095DP (TAB B) out of DoD custody and control.

• (S//NF) On March 3, 2007, you approved Issa's transfer to the Government of Afghanistan (GOA) to facilitate his eventual extradition to the United States to stand trial in a U.S. District Court in New York for charges related to the importation and distribution of heroin (TAB C).

— (P//NF) DOJ officials have informed us that they now want DoD to transport Issa to the United States and transfer him directly to DOJ instead of going through the GOA (TAB D).

— (P//NF) DOJ's new request results from Issa's decision to waive any objection to his transfer to the United States. A direct transfer by DoD to DOJ is now the quickest and most efficient way to effectuate his transfer.

• (S) If approved, Policy will coordinate with Joint Staff and DOJ to complete the transfer.

MEMORANDUM FOR COMMANDER, US CENTRAL COMMAND

SUBJECT: Counter-Resistance Techniques in the War on Terrorism ~~(S)~~

~~(S/NF)~~ I have considered the report of the Working Group on Detainee Interrogations in The Global War on Terrorism (GWOT), established January 15, 2003, and approve the use of specific counter-resistance techniques, subject to the following:

- (U) a. The techniques I authorize are those lettered A-X, set out at Tab A.
- (U) b. These techniques must be used with all the safeguards described at Tab B.
- (U) c. Use of these techniques is limited to interrogations of unlawful combatants held at the Bagram Control Point, Bagram Air Base.
- (U) d. Prior to the use of these techniques, the chairman of the Working Group on Detainee Interrogations in the Global War on Terrorism must brief you and your staff.

~~(S/NF)~~ I reiterate that US Armed Forces shall continue to treat detainees humanely and, to the extent appropriate and consistent with military necessity, in a manner consistent with the principles of the Geneva Conventions. In addition, if you intend to use techniques B, I, O or X, you should include these techniques as part of a detainee's initial interrogation strategy, and inform me five days in advance. Notification is not required if the application of the four techniques is within current doctrine (Field Manual 34-52). The use of maximum security units for force protection and security is not considered to be isolation for the purposes of interrogation. Sleep deprivation is defined as keeping a detainee awake for more than 16 hours or allowing a detainee to rest briefly and then repeatedly awakening him, not to exceed four days in succession. The least intrusive method is defined as the technique that has the least impact on a detainee's standard of treatment, while evoking the desired response from the detainee during interrogations.

~~(S/NF)~~ If, in your view, you require additional interrogation techniques for a particular detainee, you should provide me, via the Chairman of the Joint Chiefs of Staff, a written request describing the proposed technique, recommended safeguards, and the rationale for applying it with an identified detainee.

INTERROGATION TECHNIQUES ~~(S//NF)~~

~~(S//NF)~~ The use of techniques A - X is subject to the general safeguards as provided below as well as specific implementation guidelines to be provided by the appropriate authority. Specific implementation guidance with respect to techniques A - Q is provided in Army Field Manual 34-52. Further implementation guidance with respect to techniques R - X will need to be developed by the appropriate authority.

~~(S//NF)~~ Of the techniques set forth below, the policy aspects of certain techniques should be considered to the extent those policy aspects reflect the views of other major US partner nations. Where applicable, the description of the technique is annotated to include a summary of the policy issues that should be considered before application of the technique.

- A. ~~(S//NF)~~ Direct: Asking straightforward questions.
- B. ~~(S//NF)~~ Incentive/Removal of Incentive: Providing a reward or removing a privilege, above and beyond those that are required by the Geneva Convention, from detainees. (Caution: Other nations that believe that detainees are entitled to POW protections may consider that provision and retention of religious items (e.g., the Koran) are protected under international law (see Geneva III, Article 34). Although the provisions of the Geneva Convention are not applicable to the interrogation of unlawful combatants, consideration should be given to these views prior to application of the technique.)
- C. ~~(S//NF)~~ Emotional Love: Playing on the love a detainee has for an individual or group.
- D. ~~(S//NF)~~ Emotional Hate: Playing on the hatred a detainee has for an individual or group.
- E. ~~(S//NF)~~ Fear Up Harsh: Significantly increasing the fear level in a detainee.
- F. ~~(S//NF)~~ Fear Up Mild: Moderately increasing the fear level in a detainee.

H. ~~(S//NF)~~ Pride and Ego Up: Boosting the ego of a detainee.

(Caution: Article 17 of Geneva III provides, "Prisoners of war who refuse to answer may not be threatened, insulted, or exposed to any unpleasant or disadvantageous treatment of any kind." Other nations that believe that detainees are entitled to POW protections may consider this technique inconsistent with the provisions of Geneva. Although the provisions of Geneva are not applicable to the interrogation of unlawful combatants, consideration should be given to these views prior to application of the technique.)

J. ~~(S//NF)~~ Futility: Invoking the feeling of futility of a detainee.

K. ~~(S//NF)~~ We Know All: Convincing the detainee that the interrogator knows the answer to questions he or she asks the detainee.

L. ~~(S//NF)~~ Establish Your Identity: Convincing the detainee that the interrogator has mistaken the detainee for someone else.

M. ~~(S//NF)~~ Repetition Approach: Continuously repeating the same question to the detainee within interrogation periods of normal duration.

N. ~~(S//NF)~~ File and Dossier: Convincing detainee that the interrogator has a damning and inaccurate file, which must be fixed.

O. ~~(S//NF)~~ Matt and Jeff: A team consisting of a friendly and harsh interrogator. The harsh interrogator might employ the Pride and Ego Down technique. S. ~~(S//NF)~~ Change of Scenery Down: Removing the detainee from the standard interrogation setting and placing him in a setting that may be less comfortable; would not constitute a substantial change in environmental quality.

T. ~~(S//NF)~~ Dietary Manipulation: Changing the diet of a detainee; no intended deprivation of food or water; no adverse medical or cultural effect and without intent to deprive subject of food or water, e.g., hot rations to Meals Ready to Eat.

U. ~~(S//NF)~~ Environmental Manipulation: Altering the environment to create moderate discomfort (e.g., adjusting temperature or introducing an unpleasant smell). Conditions would not be such that they would injure the detainee. Detainee would be accompanied by interrogator at all times. (Caution: Based on court cases in other countries, some nations may view application of this technique in certain circumstances to be inhumane. Consideration of these views should be given prior to use of this technique.)

V. ~~(S//NF)~~ Sleep Adjustment: Adjusting the sleeping times of the detainee (e.g., reversing sleep cycles from night to day.) This technique is NOT sleep deprivation.

W. ~~(S//NF)~~ False Flag: Convincing the detainee that individuals from a country other than the United States are interrogating him.

X. ~~(S//NF)~~ Isolation: Isolating the detainee from other detainees while still complying with basic standards of treatment. (Caution: The use of isolation as an interrogation technique requires detailed implementation instructions, including specific guidelines regarding the length of isolation, medical and psychological review, and approval for extensions of the length of isolation by the appropriate level in the chain of command. This technique is not known to have been generally used for interrogation purposes for longer than 30 days. Those nations that believe detainees are subject to POW protections may view use of this technique as inconsistent with the requirements of Geneva III, Article 13, which provides that POWs must be protected against acts of intimidation; Article 14, which provides that POWs are entitled to respect for their person; Article 34, which prohibits coercion; and Article 126, which ensures access and basic standards of treatment. GENERAL SAFEGUARDS

~~(S//NF)~~ Application of these interrogation techniques is subject to the following general safeguards: (i) limited to use only at strategic interrogation facilities; (ii) there is a good basis to believe that the detainee possesses critical intelligence; (iii) the detainee is medically and operationally evaluated as suitable (considering all techniques to be used in combination); (iv) interrogators are specifically trained for the technique(s); (v) a specific interrogation plan (including reasonable safeguards, limits on duration, intervals between applications, termination criteria and the presence or availability of qualified medical personnel) has been developed; (vi) there is appropriate supervision; and, (vii) there is appropriate specified senior approval for use with any specific detainee (after considering the foregoing and receiving legal advice).

*Sheberghan
what
is sure*

(U) The purpose of all interviews and interrogations is to get the most information from a detainee with the least intrusive method, always applied in a humane and lawful manner with sufficient oversight by trained investigators or interrogators. Operating instructions must be developed based on command policies to insure uniform, careful, and safe application of any interrogations of detainees.

~~(S//NF)~~ Interrogations must always be planned, deliberate actions that take into account numerous, often interlocking factors such as a detainee's current and past performance in both detention and interrogation, a detainee's emotional and physical strengths and weaknesses, an assessment of possible approaches that may work on a certain detainee in an effort to gain the trust of the detainee, strengths and weaknesses of interrogators, and augmentation by other personnel for a certain detainee based on other factors.

~~(S//NF)~~ Interrogation approaches are designed to manipulate the detainee's emotions and weaknesses to gain his willing cooperation. Interrogation operations are never conducted in a vacuum; they are conducted in close cooperation with the units detaining the individuals. The policies established by the detaining units that pertain to searching, silencing, and segregating also play a role in the interrogation of a detainee. Detainee interrogation involves developing a plan tailored to an individual and approved by senior interrogators. Strict adherence to policies/standard operating procedures governing the administration of interrogation techniques and oversight is essential.

(S//NF) It is important that interrogators be provided reasonable latitude to vary techniques depending on the detainee's culture, strengths, weaknesses, environment, extent of training in resistance techniques as well as the urgency of obtaining information that the detainee is known to have.

(S//NF) While techniques are considered individually within this analysis, it must be understood that in practice, techniques are usually used in combination, the cumulative effect of all techniques to be employed must be considered before any decisions are made regarding approval for particular situations. The title of a particular technique is not always fully descriptive of a particular technique. With respect to the employment of any techniques involving physical contact, stress or that could produce physical pain or harm, a detailed explanation of that technique must be provided to the decision authority prior to any decision.

FOR: Under Secretary of Defense for Policy

FROM: Alan Lietta, Principal Director Detainee Policy

SUBJECT: Afghanistan Independent Human Rights Commission Access to the United States Theater Internment Facility-Afghanistan (A-TIF) (U)

- (U) Recommend you approve an exception to the DoD Foreign Access to Detainees Policy Guidance (Tab A), which limits foreign government access to detainees to those visits conducted for intelligence or law enforcement purposes. The requested exception would allow access by the Afghanistan Independent Human Rights Commission (AIHRC) to the A-TIF, including access to Afghan detainees and to the Detainee Review Boards.
 - ~~(S//NF)~~ The limited access policy was designed to ensure the safety of detainees under DoD custody and requires USD (P) approval for official requests by foreign government to access their nationals detained at the A-TIF.
 - A Terms of Reference will be crafted to ensure that the AIHRC is in full compliance with DoD policy and procedures while visiting the A-TIF.
- (U) On October 21, 2009, the Chairperson of the AIHRC sent a letter to CDR, United States Forces-Afghanistan (USFOR-A) requesting AIHRC access to detainees at the A-TIF and to observe the Detainee Review Board proceedings (Tab B).
 - ~~(U//FOUO)~~ On November 5, 2009, CDR, USFOR-A endorsed the AIHRC request for access to Afghan detainees and to Detainee Review Boards, subject to visual monitoring (Tab C).
 - ~~(U//FOUO)~~ On November 18, 2009, CDR, USCENTCOM recommended that the AIHRC be granted access to the detention facility, detainee review board procedures, and Afghan detainees at the A-TIF, subject to visual monitoring (Tab D).
- (U) The AIHRC submitted a similar request to visit detainees in 2005; however, the

AIHRC would not agree to Terms of Reference requiring auditory monitoring of AIHRC visits with Afghan detainees (Tab E).

- (U) The AIHRC is an official government body, established as an independent body pursuant to the Constitution of Afghanistan with a mandate to visit detention centers to monitor the implementation of laws on the treatment of prisoners (Tab F). Granting the AIHRC access to detainees is consistent with the USG's shift towards greater transparency in U.S. detention operations in Afghanistan. It is a positive step in promoting the eventual transfer of detention operations to the Government of the Islamic Republic of Afghanistan (GIROA).
- ~~(U//FOUO)~~ OSD Policy has ascertained with reasonable confidence that the AIHRC representatives will act suitably and in accordance with their mandate when visiting Afghan detainees.
- ~~(S//FOUO)~~ We believe that CDR, USFOR-A, is best positioned to negotiate Terms of Reference that address parameters for AIHRC access, including monitoring, confidentiality, and Detention Review Board access.

RECOMMENDATION: Approve an exception to policy to allow AIHRC access to A-TIF, Afghan detainees, and Detainee Review Board proceedings, based on Terms of Reference that CDR, USFOR-A will negotiate with the AIHRC to ensure the visit occurs in full compliance with DoD policies and procedures.

SUBJECT: Request for Afghanistan Independent Human Rights Commission (AIHRC) Access (U)

- (S) The Afghanistan Independent Human Rights Commission (AIHRC) has requested access to theater internment facilities (TIFs) in Afghanistan and to meet with Afghan detainees under DoD control at the TIFs (TAB A).
- (U) The AIHRC, established under the Bonn Agreement and the Afghan Presidential Decree of June 6, 2002, is recognized in Article 58 of the new Afghanistan Constitution.
 - (U) President Karzai appointed the eleven members of the AIHRC, whose responsibilities include human rights monitoring and investigation of violations in Afghanistan.
 - (U) All Afghan national authorities and institutions are required to cooperate fully with the AIHRC.
- (S//NF) Under existing DoD policy, foreign government access to detainees in Afghanistan is for law enforcement and intelligence purposes only.
 - (S//NF) The Joint Staff and USCENTCOM recommend approval as an exception to policy (TAB B). CFC-A has prepared draft classified Terms of Reference with strict procedures for the visit to address security concerns.
- (S) Allowing AIHRC access would further demonstrate USG transparency, improve cooperation between the U.S. and Afghan governments, and facilitate planned detainee transfer and release (reconciliation program) operations.

SUBJECT: Response to Letter from ACLU Regarding Detention of Juveniles

JAN 22 2010

- Attached at Tab A is a proposed response to a letter from the American Civil Liberties Union regarding its concern with the Department's detention of juveniles (Tab B).
- The letter from the ACLU requests very specific information, most of which is classified at the SECRET level. In addition, much of the letter focuses on the USG's responses to the Committee on the Rights of the Child, and the ACLU's June-2008 "Concluding Observations," to which the USG is currently in the process of responding. In the draft letter at Tab A, we have done our best to respond to the ACLU letter without getting ahead of the response to the Committee.

SUBJECT: Amendment of the Foreign Access Policy for Theater Internment Facilities (TIFs) in Afghanistan (U)

- (S) Request you sign the memo at TAB A, amending the foreign access policy for detainees in TIFs in Afghanistan by deleting the phrase "no lower than the level of Commanding General, Combined Forces - Afghanistan (CFC-A)" (TAB B, 2nd page).
- (S) CFC-A was inactivated on January 21, 2007. DJS endorsed USCENTCOM's request to re-delegate detention-related authorities that reference CFC-A (TAB C). The only authority that requires re-delegation is the authority to approve requests by the Governments of (b)(1), Sec. 1.4(d) for access to their nationals detained in Afghanistan.
- (S) The memo would authorize CDR, USCENTCOM to delegate, to a general or flag officer, approval authority for (b)(1), Sec. 1.4(d). We would expect CENTCOM to delegate approval authority to CJTF-76, the commander responsible for Bagram.

**FOREIGN ACCESS TO DETAINEES
POLICY GUIDANCE**

(5) Providing access to detainees at Theater Internment Facilities (TIFs) in Afghanistan by official representatives of foreign governments can, in select cases, serve three key U.S. objectives: (1) obtaining intelligence information, (2) furthering criminal investigations and prosecutions, and (3) facilitating the transfer of detainees to the control of their governments. All requests for access to detainees at TIFs in Afghanistan will be assessed in terms of how such access furthers these objectives and reinforces coalition support for Operation Enduring Freedom. No access will be authorized for consular visits or for non-government officials, with the exception of the International Committee of the Red Cross.

(6) Requests from the Government of (b)(1), Sec. 1.4(b)

- The Commander, USCENTCOM, or his General/Flag officer designee, or lower than the level of Commanding General, Combined Forces - Afghanistan (CFC-A), is authorized to approve

(b)(1), Sec. 1.4(b), Sec. 1.4(d)

(b)(1), Sec. 1.4(b), Sec. 1.4(d)

(6) Requests from all other foreign governments:

- The Under Secretary of Defense for Policy is authorized to approve all other foreign government requests for access to their nationals detained at TIFs in Afghanistan.
- Official requests from foreign governments for access to their nationals detained at TIFs in Afghanistan will be made to the Department of State.
- If foreign governments approach other USG entities (e.g., DoD components, Department of Justice, etc.), their requests should be referred to the Department of State. The Office of War Crime Issues at (202) 647-5072 is the point of contact at the Department of State for detainee policy.

~~SECRET~~

Bagram-OSD 85

~~SECRET~~

- The Department of State will forward the request to the DoD for approval on a case-by-case basis.
- Requests must list the purpose of the visit, proposed time frame, and names and positions of all government officials requesting travel, and the detainees they wish to see. DoD must be informed of languages to be used during interviews, special requirements (e.g., wheelchairs), and passport numbers of travelers prior to travel.
- Once DoD has made a decision regarding whether to grant access, DoD will notify the Department of State. The Department of State will notify the foreign government. DoD will consult with the Department of State as necessary.

~~(S)~~ Conditions of Access:

- Requests for access to detainees by foreign governments shall be reviewed and approved separately (i.e., after access has been approved once, any successive requests for access also must be approved on a case-by-case basis).
- Foreign government visits are for intelligence or law enforcement purposes, not for consular purposes.
- The requesting government will be responsible for all costs associated with the visit (transportation, lodging, etc.).
- Foreign government officials will normally be permitted access to their nationals only and not to detainees of other nationalities. DoD must approve any exceptions.
- Timing and logistical arrangements of all visits will be controlled by U.S. Central Command to ensure non-interference with operations and security of U.S. personnel, facilities, and detainees.

(b)(1), Sec. 1.4(a)
- Visiting officials must have identification and are subject to search.
- Visiting officials will not be permitted to photograph, videotape, or make sound recordings of their nationals during interviews. Such devices are not authorized for use at the DoD base at Bagram.

~~SECRET~~

~~SECRET~~

- DoD will be provided copies of all records of conversations and other information gathered by the foreign government officials.

(b)(1), Sec. 1.4(a), Sec. 1.4(e)

- DoD security, law enforcement, and/or intelligence personnel will be present at all times during the interviews and may end an interview at any time when, in the opinion of the senior DoD representative, the security of U.S. personnel, facilities, or detainees is at risk.
- In all cases, interviews shall be governed by the guidelines outlined in DoD Directive 3113.09. Visiting officials will sign a written document agreeing to abide by DoD policies and procedures. A trained and certified DoD interrogator shall monitor all interviews. If an interrogator is not available, a DoD representative with appropriate training and experience shall monitor the interview. The DoD monitor shall terminate the interview if visiting officials do not adhere to DoD policies and procedures.

(g) Any exceptions to this policy must be approved by the Under Secretary of Defense for Policy.

SUBJECT: Request for Delegation of Authority to Approve Family and Village Elder Visits to Bagram Theater Internment Facility (B)

- (S) Recommend you sign the memo at TAB A approving CDR, USCENTCOM's request for authority to approve visits of village elders and family members to detainees under DoD control at the Bagram Theater Internment Facility (Bagram) (TAB B). You are the approval authority for such visits.
- (S) Village elders play a significant role in Afghan societal structure and in the Government of Afghanistan's (GOA) reconciliation program; approving their access could build additional support for the GOA and for the transition.
- (S) Policy previously had been reluctant to approve family visits; however, as the pace of transition of detention in Afghanistan to the GOA has slowed, we now believe such visits could be conducted.

• (S) [Redacted] (b)(1), Sec. 1.4(a)

- (e) ~~(S)~~ Temporary Holding In-Theater: The detaining Combatant Commander shall designate as appropriate and consistent with military necessity a temporary holding area in-theater to house Enemy Combatants.
- (f) (U) Medical Screening: Before movement of any Enemy Combatant to Guantanamo Bay or other designated detention facility, the detaining Combatant Commander shall ensure that the Enemy Combatant has been medically screened for, among other things, life-threatening medical conditions and infectious diseases (including tuberculosis and HIV infection), or having a mental health condition that would require immediate psychiatric care upon arrival at the detention facility, if transferred, and is fit for transport. If the Enemy Combatant is fit for transport, a medical summary will be written and forwarded to the receiving facility prior to transfer. Additionally, if the detaining Combatant Commander is unable to determine accurately whether a detainee is age 15 or younger, he shall solicit assistance from the Armed Forces Institute of Pathology for this determination.⁶ The following procedures apply:
- Requests for assistance from Combatant Commanders will be routed via the Joint Staff to the Office of the Armed Forces Medical Examiner - Armed Forces Institute of Pathology, Special Investigations Division, and will include the detainee's name/aliases and ISN.

⁶ A review of radiological materials for age assessment will be made jointly by the Office of the Armed Forces Medical Examiner and the Musculoskeletal section of the Armed Forces Institute of Pathology.

~~SECRET~~

- Optimum records required for age estimation include a good quality anterior/posterior radiograph of the non-dominant hand (which will primarily be the left hand in most populations), and bitewing dental films picturing the second and third molars from one side of the jaw (maxillary and mandibular - one file each and should include molar root tips and surrounding alveolar bone).
- Film x-rays are preferred to digital, if possible. If digital radiographs are submitted, they are to be submitted on CD-ROM disk, including viewing program such as RVS (Rad info system), or in a Microsoft Windows compatible format.

b(1)1.4c

- (h) ~~(S)~~ Detainee Assessment Team (DAT): The Assistant Secretary of Defense for Special Operations and Low-Intensity Conflict, and the Deputy General Counsel (International Affairs) will co-chair a DAT comprising representatives of the CJCS and other appropriate DoD officials to review those Enemy Combatants recommended by the detaining Combatant Commander for transport to Guantanamo. This team will help coordinate issues with other agencies as appropriate.

SUBJECT: Enemy Combatant Status Determinations (FOUO)

CF:DCS/STS/CCM

(S) Pursuant to Deputy Secretary of Defense memorandum, "Global Screening Criteria (GSC) for Detainees," February 20, 2004, the combatant commanders shall assess individuals over whom they obtain control in connection with War on Terrorism operations to determine whether they are enemy combatants (EC) and are therefore subject to detention by DoD personnel. The Detainee Treatment Act of 2005 provides that no person in the custody or under the effective control of the Department of Defense shall be subject to any treatment or technique of interrogation not authorized by and listed in the United States Field Manual on Intelligence Interrogations. Field Manual 2-22.3, "Human Intelligence Collector Operations," September 6, 2006, provides that separation as an interrogation technique may only be used in the interrogation of persons determined to be unlawful enemy combatants. The National Defense Authorization Act, 2005 requires that the Secretary of Defense submit to Congress an annual report that includes, among other things, the number of individuals determined to be enemy combatants. Finally, pursuant to Deputy Secretary of Defense memorandum, "Policy Guidance on Department of Defense Detention Operations in Iraq, September 16, 2005, provides additional DoD policy guidance on detention operations in Iraq and includes a definition of enemy combatant.

~~(S)~~ U.S. forces are conducting war on terrorism operations against al Qaeda in Iraq. Although the designation of detainees as enemy combatants under the GSC applies globally, it is understood that individuals detained in Iraq generally are held as security internees under the law of war and relevant U.N. Security Council Resolutions. Because some of these detainees are al Qaeda and associated forces and would meet the criteria for designation as unlawful enemy combatants under the GSC, it is necessary that such detainees be formally evaluated pursuant to the GSC, consistent with the September 16, 2005, Iraq policy guidance.

~~(S)~~ For the purposes of applying the GSC in Iraq and other areas in the U.S. Central Command area of responsibility, Commander, U.S. Central Command, may delegate to the level of Task Force Commander, including to the Deputy Commanding General for Detainee Operations, the authority to designate detainees as enemy combatants in the war on terrorism under the GSC.

**Policy Statement and Guidelines on Body Cavity Searches and Exams
of Detainees in DoD Control.**

The United States has a significant and legitimate interest in performing appropriate security searches and medical exams that address the safety, health, and security concerns of DoD personnel and detainees under DoD control. However, the use of body cavity exams and searches may conflict with the customs of some detainees. Therefore, effective immediately, the following guidelines are in effect:

- Do not perform routine detainee body cavity exams or searches (to include hernia exams).
- Body cavity exams may be performed for valid medical reasons with the verbal consent of the patient. However, these exams should not be performed as part of a routine medical intake exam.
- Body cavity searches are to be conducted only when there is a reasonable belief that the detainee is concealing an item that presents a security risk.
- To the extent possible and consistent with military necessity, a body cavity exam or search, whether conducted for medical or security reasons, should be conducted by personnel of the same gender as that of the detainee being searched.
- All body cavity exams and searches will be conducted in a manner that respects the person.
- The first general officer in the chain of command shall be the approval authority for body cavity searches (other than those performed for valid medical reasons).
- For the purposes of this policy, a detainee is a person under the control of the Department of Defense as a result of armed conflict, including the global war on terrorism, and includes enemy combatants, enemy prisoners of war, and civilian internees.

MEMORANDUM FOR SECRETARIES OF THE MILITARY DEPARTMENTS
CHAIRMAN OF THE JOINT CHIEFS OF STAFF
UNDER SECRETARY OF DEFENSE FOR POLICY
UNDER SECRETARY OF DEFENSE FOR INTELLIGENCE
COMMANDER U.S. CENTRAL COMMAND
COMMANDER U.S. SPECIAL OPERATIONS COMMAND

SUBJECT: Revised Policy Guidance on Access to Detainees and Detention Facilities in
Afghanistan (U)

(U) U.S. forces operating under the auspices of Operation Enduring Freedom (OEF) are authorized to detain captured persons consistent with the laws and customs of armed conflict. Additionally, U.S. forces may detain and intern persons who meet specific criteria based on the Authorization for Use of Military Force (AUMF) (Public Law 107-40), dated September 18, 2001, as informed by the laws and customs of armed conflict.

(U) The Department of Defense (DoD) is making a concerted effort to ensure that OEF detention operations are aligned with, and fully support, strategic objectives, including the defeat of the Afghan insurgency. A crucial aspect of this effort is to increase the transparency of OEF detention operations in Afghanistan. On September 18, 2009, the Secretary of Defense established Joint Task Force (JTF) 435, whose mission includes oversight of such operations and coordination of efforts to align them with strategic objectives.

(U) The attached guidance is intended to clarify DoD policy on access to DoD detainees and detention facilities in Afghanistan; to clarify roles and responsibilities in this area, including with respect to the newly established JTF 435; to permit delegation of authority in this area to the theater level wherever possible; and to promote greater transparency. To the extent that the attached guidance conflicts with earlier guidance, the attached guidance prevails.

Access to Detainees and Detention Facilities in Afghanistan (U)

General Statement of Policy (U)

1. (U) It is the policy of the Department of Defense (DoD) to allow limited access to DoD detainees and detention facilities in Afghanistan, consistent with DoD's responsibilities to:

- Ensure humane treatment of detainees;
- Ensure the security and safety of detainees and U.S. Government personnel;
- Obtain intelligence;
- Investigate criminal law enforcement matters; and
- Reinforce Coalition unity.

2. (U) Visits to DoD detainees and detention facilities shall be conducted in conformity with applicable U.S. law, and relevant international law, including but not limited to the Detainee Treatment Act of 2005, as well as applicable DoD policy, including DoD Directive 2310.01E, DoD Directive 3115.09, DoD Directive-Type Memorandum 09-031 (upon publication), U.S. Army Field Manual 2-22.3, and application of the Geneva Conventions' provisions against subjecting detained persons to public curiosity.

3. ~~(FOUO)~~ As used herein, the term "detainees" refers to persons under the control of U.S. forces at DoD Theater Internment Facilities (TIFs) and other DoD detention facilities below the TIF level. The terms "access to detainees" and "visits to detainees" refer to direct contact or conversation with detainees. The terms "access to detention facilities" and "visits to detention facilities" refer more broadly to access to DoD TIFs and other DoD detention facilities below the TIF level that may involve direct or indirect observation of detainees. The term "direct or indirect observation of detainees" refers to any visual observation of detainees through direct line of sight or electronic means, including, but not limited to, the observation of detainees in their cells, living areas, or recreation areas; during interrogations, debriefings, or other questioning; or during detainee review board proceedings.

4. ~~(FOUO)~~ Commander, U.S. Central Command (USCENTCOM), shall ensure that U.S. forces under his command maintain a record of all visits to DoD detainees and detention facilities by non-DoD personnel.

5. ~~(FOUO)~~ The approval authorities prescribed in this policy are further delegable, as follows:

5.1. ~~(FOUO)~~ Approval authorities prescribed for exercise by Commander, USCENTCOM, are further delegable to a Flag or General Officer.

5.2. ~~(FOUO)~~ Approval authorities prescribed for exercise by Commander, Joint Task Force (JTF) 435, are further delegable to a TIF or Field Detention Site (FDS) Commander, as appropriate.

SUBJECT: Delegation of Authority to Waive the Autopsy Requirement for Detainee Deaths in USCENTCOM AOR

Pursuant to the Secretary of Defense memorandum of June 9, 2004, *Procedures for Investigation into Deaths of Detainees in the Custody of the Armed Forces of the United States*, in the event of a detainee death, the pertinent commander shall immediately report the death to the appropriate Department of Defense investigative agency. The investigative agency then shall contact the Office of the Armed Forces Medical Examiner (OAFME) to determine whether an autopsy will be performed. In most cases, it is necessary for the detainee's body to be transported to the United States for an autopsy to be performed.

In deference to cultural and/or religious sensitivities, it may be prudent to waive the autopsy requirement in certain cases. Specifically, in cases following death from natural causes, the potentially negative consequences of performing an in-theater autopsy or transporting a detainee's remains to the United States could undermine security operations and endanger U.S. Forces and may outweigh current procedures that are intended, in part, to protect individual service members, the Department, and the U.S. Government from unsubstantiated claims of abuse or mistreatment. In recent months, the

~~FOR OFFICIAL USE ONLY~~

~~FOR OFFICIAL USE ONLY~~

Commander, USCENTCOM, has requested that the requirement to perform an autopsy be waived in precisely such an instance.

Accordingly, in the event of a detainee death, USCENTCOM will take steps to ensure that the detainee's medical records are transmitted to the OAFME within 12 hours of a detainee's death. If the OAFME determines that an autopsy should be conducted, USCENTCOM shall first consult with the OAFME to determine whether an in-theater autopsy is an available, appropriate, and timely option. If the Commander, USCENTCOM determines that an in-theater autopsy is not a viable option, or that removing the remains from the host country could cause significant negative consequences that would affect security and stabilization operations, the Commander, USCENTCOM, is authorized to waive the autopsy requirement.

Should OAFME's preliminary review disclose any suspected evidence of abuse, neglect, maltreatment, or other injurious conduct as a contributing factor in the death of the detainee, the Commander, USCENTCOM is not authorized to waive the autopsy requirement. The OAFME's preliminary review may be based on a review of the medical records, consultation with a physician involved in treating the detainee and/or in pronouncing death, consultation with the investigative agency involved, and/or other information the OAFME considers appropriate. Furthermore, Commander, USCENTCOM may not delegate the authority to waive the autopsy requirement.

The presumption remains in effect that in the case of the death of an individual while in the custody of the United States, an autopsy shall be performed unless a determination is made by the OAFME that an autopsy is not necessary to ascertain the cause of death. The authority to waive an autopsy, as described and limited above, shall be used judiciously and on an exceptional basis only. In the event the Commander, USCENTCOM, exercises this authority, USCENTCOM shall immediately notify the Under Secretary of Defense for Policy, through the Joint Staff, of the circumstances and justification for the waiver.

This memorandum reiterates and clarifies procedures for investigating deaths of detainees in the custody of the Armed Forces, including the requirement for an autopsy.

References (a), (b) and (c) establish policy and procedure for investigations of possible violations of protections afforded enemy prisoners of war, retained personnel, civilian internees, and other detainees, including procedures in cases of deaths of such

persons. References (d), (e), and (f) provide that the Office of the Armed Forces Medical Examiner has primary jurisdiction and authority within DoD to determine the cause and manner of death in any DoD death investigation. This jurisdiction may be exercised as part of DoD death investigations of enemy prisoners of war, retained personnel, civilian internees, and other detainees in the custody of the Armed Forces of the United States.

In the case of a death of such an individual, the commander of the facility (or if the death did not occur in a facility, the commander of the unit that exercised custody over the individual) shall immediately report the death to the responsible investigative agency; Army Criminal Investigation Division, Navy Criminal Investigative Service, or Air Force Office of Special Investigations. This investigative agency shall contact the Office of the Armed Forces Medical Examiner (AFME). The AFME will determine whether an autopsy will be performed. The regional combatant commander shall notify the Secretary of Defense, through the Chairman, Joint Chiefs of Staff, of all deaths occurring in US armed forces custody.

Upon declaration of death, the remains will be placed in a clean body bag and secured awaiting instructions from the appropriate investigating agency. The remains will not be washed and all items on or in the body will be left undisturbed except for weapons, ammunition, and other items that pose a threat to the living. The body will not be released from United States custody without written authorization from the investigative agency concerned or the Armed Forces Medical Examiner.

In summary, in the case of death of any individual described above, while in custody of the Armed Forces of the United States, it is presumed that an autopsy shall be performed, unless an alternative determination is made by the Armed Forces Medical Examiner. Determination of the cause and manner of death in these cases will be the sole responsibility of the AFME or other physician designated by the AFME.

Points of contact for procedures under this memorandum are: AFME, CDR (b)(6) (b)(2), DSN (b)(2) (b)(2) @AFIP.OSD.Mil; ARMY CID, SA (b)(6) (b)(2) DSN (b)(2) (b)(2) @Belvoir.Army.Mil; NCIS, SA (b)(6) (b)(2) DSN (b)(2) (b)(2) @NCIS.Navy.Mil; OSI, SA (b)(6) (b)(2) (b)(2) DSN (b)(2) (b)(2) @ogn.af.mil.

Subject: Afghan Law on Internal and External Security

[REDACTED]

I'm attaching an unofficial summary of the national security offenses former Guantanamo and Bagram detainees face in their trials at the Afghan National Detention Facility (ANDF). I apologize for the pdf format of the document, but that's the only way I could get it to you on this system.

As I explained this morning, the law on internal and external security is part of the Afghan criminal code, but the cases are tried by special Afghan national security prosecutors. As I understand it, the prosecutors work for the Attorney General, but they rely on investigators from the Afghan National Directorate of Security (NDS) to conduct any investigation beyond the information we provide upon transfer -- to the extent there is any additional investigation, that is. Four different panels of judges, known as Central Primary Courts, travel to the ANDF to hear the cases. As we discussed, the 2nd Central Primary Court has been considerably more lenient than the others, perhaps because the judges are Pashtun, as are most detainees.

Also, it's worth repeating that the Afghans have sole discretion to decide which detainees to prosecute and, if so, for what offenses. Once we transfer detainees to the exclusive custody and control of the Afghan government, the disposition of their cases is out of our hands.

Best,
