ABSTRACT:

APPLICANT NAME: City of Milpitas Police Department

PROJECT TITLE: Funding for License Plate Reader Equipment

GOALS: Law Enforcement and Crime Prevention

The Milpitas Police Department currently has five vehicle-mounted LPR systems. The LPR systems use technology to have cameras read license plates and automatically conduct computer checks to determine if the license plate is associated to a stolen vehicle, a wanted vehicle, or other vehicle of special interest. Officers can manually enter license plate numbers of vehicles under current investigation that do not meet the requirements for entry into the state and national databases for wanted vehicles. In the 4 years that the Police Department has used the LPR systems, we have recovered about 80 wanted vehicles, including the recovery of a vehicle that lead to the arrest of a homicide suspect. The addition of another LPR system would enable more officers to use the technology.
