CITY OF HEMET
POLICE DEPARTMENT
JAG FY 2010

Review Narrative:

This grant application is scheduled to be reviewed by the governing body (Hemet City Council) at their regular public meeting August 10, 2011.

The agenda for this public meeting is publicized in advance and opportunity for public comment on any agenda item is provided by the mayor or presiding member.

CITY OF HEMET
POLICE DEPARTMENT
JAG FY 2011

Abstract

Applicant Name: Hemet Police Department
Project Title: Hemet Police Automated License Plate Recognition Project
Goals of Project: Reduce crime and victimization by identifying stolen and wanted vehicles and apprehending associated criminals

Description of Strategies:

The city of Hemet will utilize the 2011 Justice Assistance Grant (JAG) to purchase and deploy the first phase of an Automated License Plate Recognition System (ALPR). This technology will enhance the department's ability to screen and survey for wanted and stolen vehicles throughout the city. This project will allow for the deployment of two mobile or fixed systems and will fund the purchase and licensing of supporting software. As stolen or wanted vehicles are identified, law enforcement will deploy resources more efficiently to investigate and prevent crime.

It is the intent of the department to survey other local jurisdictions in order to integrate systems where possible. This project will complement previous JAG-funded upgrades to the local Computer Aided Dispatch and Crime Analysis programs. The ALPR project is a key element in our pursuit of efficiency-enhancing technology.

PROJECT IDENTIFYERS:

- Career Criminals
- Computer software/hardware
- Crime Prevention
- Data Sharing / Linkage
- Officer Safety

CITY OF HEMET
POLICE DEPARTMENT
JAG FY 2011

Project Narrative:

The city of Hemet will utilize the 2011 Justice Assistance Grant (JAG) to purchase and deploy the first phase of an Automated License Plate Recognition System (ALPR). This technology has been refined since its inception in the early 2000's. ALPR systems enhance the police department's ability to screen and survey thousands of license plates per hour, far more efficiently than a police officer is capable of. This project will complement previous JAG-funded upgrades to the local Computer Aided Dispatch and Crime Analysis programs and the technology is fully compatible with existing systems.

This project will allow for the deployment of two mobile or fixed systems and will fund the purchase and licensing of supporting software. It is the intent of the department to survey other local jurisdictions in order to integrate systems where possible.

The Hemet Police Department must continue to identify technology that will improve efficiency in the face of recent 30% reductions in sworn police positions. The ALPR project is a key element in our pursuit of efficiency-enhancing technology. As crime, population and calls for service continue to trend upward, the department must rely more heavily on computer technology and software programs that help identify and apprehend criminals and to prevent crime by alerting authorities to would-be violators. The ultimate goal of this project is to enhance the police department's effectiveness in combating and reducing crime with the use of innovative technologies.

CITY OF HEMET
POLICE DEPARTMENT
JAG FY 2011

Budget Narrative:

The city of Hemet FY 2011 JAG allocation in the amount of \$38,716 will be used to fund the hardware and software required to implement the Hemet Police Automated License Plate Recognition Program.

Approximate Costs:

ALPR Hardware and Installation	\$32,400
ALPR Software and Licensing	<u>\$ 6,316</u>
TOTAL COST	\$38,716
