The issue requiring greater research pertains to cell phone records. The Police Chief reported that there may be some records related to this portion of the request, and that it would take his executive assistant approximately two hours to research. Her hourly salary, including a prorata share of benefits is approximately \$40. We do have a taser policy which he will forward to me, and as soon as I get it, I will send it to you electronically. He didn't mention your second request (ALPR), and I don't know what that is, but I will make sure I hear whether we have that info. I don't believe we have any policies and procedures regarding officer's appropriate response to members of the public photographing or video recording officers while at work. I will keep you posted.

Thank you for the update. If you would separately list which parts of our request you have that will require little cost and effort (ie copies of policies) from the information that may require greater research (information on cell phone records), I would appreciate it. Thanks again.

Good Afternoon,

Please accept my apologies for the delay in responding to your public records request. We are in the process of determining whether we have all, or a portion of, the information you requested. The approximate cost will be \$90, and I understand that you have requested a waiver of the fees beyond the \$15 that you submitted with your request. Regardless, I will send you what we've got as soon as it is available, and keep you posted on the waiver.

Again, I apologize for the delay.

Let me know if you have further questions or need additional information.
