Ms. Carson,

I received your Public Records Request concerning our policies and procedures concerning technology.

Number 1). Enclosed is our department policy concerning Use of Conducted Energy Devices. Our department currently uses TASER.

Number 2). We do not use, own or subscribe to ALPR and do not have a policy for that technology.

Number 3). We currently do not have any policies or procedures in obtaining data from cell phone carriers. To obtain this information from the carrier requires a subpoena or warrant and is dependent on the information requested.

Also asked for was the amount of funds used to acquire data from companies in the last three years. Our research shows that we have had only one case in the last three years where a company has charged us a fee for information. That charge was \$69.50; however we will not be providing you with an invoice. That document is exempt from disclosure pursuant to ORS 192.501(3) as investigatory information compiled for criminal law purposes, since this is an ongoing investigation.

Number 4). We do not have a policy or procedure about members of the public video recording or photographing our officers while engaged in their official duties.

I am also denying your request to waive the fee for this information. You were not charged for the research time involved for Number 3 of your request. Your payment of \$15.00 will be accepted and your receipt is enclosed with this letter.

Thank you,

Dale Jorgensen
