Subject: . . . Eminent Domain is a right of the local municipalities

Dear Ed Demarco,

San Bernadino County and other municipalities are in their constitutional right to help under water borrowers with their home mortgages. This is a local issue, where the fhfa has no role or jurisdiction. A local government can purchase the under water loans at a fair market rate for a public purpose. Mr. DeMarco, STOP being an obstructionist and protecting the greedy banks. This eminent domain policy is a good common sense policy for financially strapped American counties. Mrs. Marc Prevost, San Diego, California
