Subject: Matrix/Facts

Happy new year.

One of the many advantages of MATRIX/FACTS is that we get to take advantage and use all of the data Accurint purchases. Did you know that running a person in the Department of Corrections search also queries the Accurint court data? In some cases this will query for traffic and misdemeanor charges. See below for the areas and types of charges that are covered.

Remember I am always looking for more success stories. Please feel free to send them to me or if your not sure about it I will be happy to discuss it with you.

ALASKA Statewide Felony and Misdemeanor Convictions.,1980,
