CA Department of Water Resources

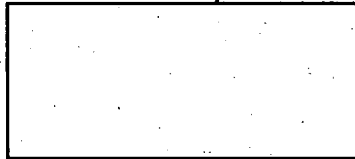

April 14, 2004

Keith
Dear Mr. ~~Slotter~~:

I sincerely appreciate the recent opportunity to have participated in the FBI Citizen's Academy, especially since it was the inaugural class for the Sacramento Division. The insights into the broad case loads your office investigates were of tremendous value to me and highlighted the dedication and professionalism of all your Special Agents.

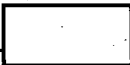

I have attached an informative brochure on the State Water Project for your use and future reference. Hopefully in the near future I will be able to convene a meeting of the various infrastructure groups to provide a briefing to you on their critical missions and infrastructure. In the meantime, I wish you continued success in your new assignment and wish you and all your agents a safe return home each day.

Best Regards,

b6
