Mr. Robert S. Mueller, Director
Federal Bureau of Investigation
J. Edgar Hoover Building
935 Pennsylvania Avenue, NW
Washington, DC 20535-0001

Dear Director Mueller:

I am a senior executive with Intel Corporation in Folsom, California and I just completed the first FBI Citizen Academy held in Sacramento, California. SAIC Keith Slotter and his entire staff did an absolutely outstanding job. The only suggestion for improvement that I heard from anyone was to make the Academy a little longer to allow for even more material and discussion. b6 b7C

I was particularly impressed by the commitment of all the agents who put together material and presented to us. Of course, they really know the material, but their patience in explaining things and talking to us was deeply appreciated.

Another thing that impressed me was the time commitment they made. All of the agents presenting and SAIC Slotter were at the meetings and they were there for the entire time.

One final note, SA [REDACTED] was in charge of this program and she did a superb job organizing and managing it. She was there all the time also and her work made the Academy run smoothly.

I thank the FBI for inviting me to participate. We all learned a lot, and I am especially proud of being a member of the inaugural class for the Sacramento Office. If ever there is anything I can do to assist the FBI in carrying out its important mission, you have only to call.

Sincerely,

[REDACTED]
