Official Course Title: International Terrorism (IT) Origins and Ideologies

Duration: 4 days

Training Hours: 8AM - 5PM

Official Course Description: The "IT Origins and Ideologies" Training is a four-day, interactive, unclassified course taught by the Combating Terrorism Center (CTC), which is affiliated with the West Point Military Academy. This course will provide students with a better understanding of International Terrorism and Counterterrorism by exploring the history of Islam and the Middle East, nuances of Arab culture, and the foundation of the origins and ideologies related to international terrorism. Along with the core curriculum, this course will provide students with specific information concerning target groups located within the domain of the invited field offices.

Student Selection: The core curriculum of this course is similar to that which is provided by CTC during New Agent Training (NAT). The CTC blocks of instruction began with

NAC 07-01. Students who have already received the CTC presentations during NAT need not attend captioned course.

In accordance with the priorities of the CTD and the requirements of the Special Agent Career Path (SACP), priority will be given to candidates in the following order:

Date of Report: February 23, 2009
Class: FBI Regional Training b6 b7C
Training Dates: February 17-19, 2009
Training Coordinator: b7E
Class Size
CTC Operations Officer/Author: b6 b7C

Summary:
Class went well. Main problem was with the attendees coming in late to class in the morning and after lunch time. Training Coordinator was in and out of the class. Class was appreciative of all the deliverables handed out on Day 1.

Notes

Logistics:

1. There was miscommunication on Day 1 regarding start time. HQ informed the T.C. that class began at 0830, however class started at 0800. In the future, Ops Officer will ensure that HQ's is aware of the correct start time.
2. Books were not passed out to the class by the T.C. on Day 1. Ops Officer passed out books and materials to everyone before class began.

Class Survey Comments:

1. I sincerely enjoyed the training! All of the instructors were very professional, prepared, knowledgeable, and interesting. The information was presented in a clear & easy to understand/learn setting. All of the instruction was perfect for my current knowledge level. I found it all very helpful and interesting and it will benefit me in my investigations in the future. Thank you very much.

2. Very topical/relevant. Well organized & delivered. Great support from Excellent presenters/instructors. Truly fascinating & useful content/materials. I wish it were 5, so as to fully explore the issues. This is an excellent course, which I will recommend to my peers. It needs a bit more length, and more respectful & professional participation by the students. b7E

3. I enjoyed all the presentations. They were all well put together and I felt the information provided helped establish a solid base of understanding where the groups come from (physically & mentally). I would really enjoy more emphasis on case work. How to take this knowledge & apply it to real life. The "name" lecture and explanation of gestures and spelling of names is useful information. Great training-I'm glad I attended, I feel I have a better understanding of the groups, leaders, and the phenomenon covered by this class. b6 b7C

4. Arab and Islamic names presentation was phenomenal! Very informative and now I know how to interpret Islamic names. Thank you. Great emphasis on history and background with regard to all the topics covered in the last three days. Very good to know about all this to understand their mindset and "where they come from". Would like to see more practical examples of what investigators and intelligence collectors should look for and be aware of during the course of investigations. Operation Smokescreen was fascinating; it related directly to what we as investigators/intelligence collectors do on

a daily basis. Another general observation is that sometimes there was an overload of information trying to be covered in a short amount of time, but this is understandable since it was just a 3-day course. The course materials provided to us is greatly appreciated, particularly the Terrorism/Political Islam textbook and the Field Manual and check-list for On-Line investigations. Would like to hear more about Arab & Muslim culture, traditions so that we as investigators/intel collectors know and recognize these traits and know how to interact with them. Emphasize more that the instructors are available and willing to help us with any questions that we may have during our investigations. The instructors are the experts that we should be turning to and should be [redacted] b7E

5. Overall, the course was nothing short of phenomenal. The information presented in this course is info that should have been presented to all FBI employees on Sept 12, 2001. Of particular interest were the sections on History of Islam, differences between Sunni & Shi'a, and the Hamas/Hizballah briefs. As an Investigative Specialist these particular discussions will have the most impact in my day to day activities.

6. Presentations need a little more enthusiasm in presenting material. Speakers have lots of expertise & knowledge but need to attempt to get more audience input to add to the material.

7. I enjoyed the class. I think that the instructors are masters in their domains. They are knowledgeable. I learned a lot. Thank you!

8. In discussing the Origins of Islam, I would like to see a section comparing/contrasting the Judeo/Christian concept of "Free Will" vs a similar/dissimilar notion in Islam.

9. **Origins of Sunni Islam** - interaction between Sunni and Shia Muslims. **Origins of Sunni Islamism** - further info on terminology. **Muslim Brotherhood** - more info on M.B. in U.S. **Hamas** - more detail on historical and present Hamas.

10. **Afghanistan/Pakistan** - would have like to hear more about the relationship between India and Pakistan.

11. **Program Overview** - more about the early expansion of Islam. **Origins of Sunni Islam** - more terms of common use. **From Qutb to Al-Qaida** - more about Qutb's issues with the West. **Muslim Brotherhood** - more about the MB today, i.e. Iraq. **Al-Qaida** - more on Al-Qaida's failures in Iraq. **Jihadist Radicalization** - perhaps other models (beyond NYPD). **Afghanistan/Pakistan** - more time to cover US role in fostering this climate in 1980's-90's. **Origins of Shia Islam** - longer block of time. **Hizballah** - perhaps some thought on their likely evolution.

12. **Operations Smokescreen** - the content was EXCELLENT, however there was way too much content to shove into 2 hrs. so either the presentation needs to be trimmed or the proper amount of time alloted (3 hrs?) because the last part of the presentation was rushed and content lost. **Global Jihad Online** - would have been good to have gone through a case study using investigative techniques.

13. **Hamas** - Great information that provides a baseline of understanding this group and increased knowledge. **Afghanistan/Pakistan** - a little hard to follow. **Lebanese Hizballah** - Great information. Helps w/current case load/potential case load and understanding origins of this group. **Operation Smokescreen** - great presentation overall. It really helps to see how a CT investigation can go from start to finish. This case really encompassed many facts of investigative tools/challenges. **Horn of Africa** - would like to see more info pertaining to implications this topic poses for law enforcement.

14. **Operation Smokescreen** - great presentation.

15. **Origins of Sunni Islam** - More info on the Quran. **Hamas** - more on the Hamas, Hizballah, Al-Qaida similarities and differences. **Operations Smokescreen** - more info on the Hizballah connection. **Horn of Africa** - more time! Too much info that was rushed through. **Global Jihad Online** - More focused case studies. There were many briefings on many cases . More depth would have been appreciated. **Arabic Naming** - need better handouts to follow the naming convention.

16. **Afghanistan/Pakistan** - elaborate more on specific differences between Shia and Sunnis leading to the animosity between the 2 groups. **Operation Smokescreen** - an additional 1 hr block for further case info. **Global Jihad Online** - presentation was confusing and hard to follow. **Islam in America** - add'l info on local customs of Muslims living in U.S. **North Africa** - well covered.

17. **Origins of Sunni Islam** - content very slow delivery. **Jihadist Radicalization** - good content. **South Asian Terror Groups** - very monotone with delivery, content was interesting. **Origins of Shia Islam** - did not finish on time which affected next class. **Operation Smokescreen** - great speaker, wonderful content, needed more time was affected by previous instructor. Needed to hear more of his investigative techniques. **Global Jihad Online** - more time talking about investigative techniques.

Comments:

(+) • Very topical / relevant
• Well-organized & delivered
• Great support from [redacted] b7E
• Excellent presenters / instructors
• Truly fascinating and useful content / materials

(–) • I wish it were 5 days, so as to fully explore the issues
• Poor / unprofessional conduct by several of the students:
→ Routinely late to class in the morning, at lunch and after breaks
→ Talking while instructors are speaking
→ Constant use of Blackberry's in class
→ Overly casual / sloppy attire

→ This is an excellent course, which I will recommend to my peers. It needs a bit more length, and more respectful & professional participation by the students.

Comments:

I enjoyed all the presentations. They were all well put together and I felt the information provided helped establish a solid base of understanding where the groups come from (physically & mentally)

I would really enjoy more emphasis on case work. How to take this knowledge & apply it to real life. The "name" lecture and [redacted] explanation of gestures and spelling of names [redacted] is useful information. Great training - I'm glad I attended, I feel I have a better understanding of the groups, leaders, and [redacted] phenomenum covered by this class.

Comments: Arab and Islamic names presentation by [redacted] was phenomenal! Very informative and now I know how to interpret Islamic names. Thank you. b6 b7C

Great emphasis on history and background with regard to all the topics covered in the last three days. Very good to know about all this to understand their mindset and "where they come from"

Would like to see more practical examples of what investigators and intelligence collectors should look for and be aware of during the course of investigations.

Bob Fromme's presentation of his case study was fascinating; it related directly to what we as investigators / intelligence collectors do on a daily basis.

b7E

Another general observation is that sometimes there was an overload of information trying to be covered in a short amount of time, but this is understandable since it was just a 3-day course.

[redacted], the course materials provided to us is greatly appreciated, particularly the Terrorism/Political Islam textbook and the Field Manual [redacted]

b7E

In the future, it would be great to receive more useful course materials such as the ones I just mentioned, covering other topics.

Would like to hear more about Arab & Muslim culture, customs, traditions so that we as investigators / intel collectors know ~~how to~~ and recognize these traits and know how to interact w/ them. - More of [redacted] material

4 b6 b7C

Emphasize more that the instructors are available and willing to help us with any questions that we may have during our investigations. The instructors are the experts that we should be turning to and should be

Comments:

Overall, the course was nothing short of phenomenal. The information presented in this course is info that should have been presented to all FBI employees on Sept 12, 2001. Of particular interest were the sections on history of Islam, differences between Sunni + Shia, and the Hamas / Hizbollah briefs. As an Investigative Specialist, these particular discussions will have the most impact in my day to day activities.

In discussing the origins of Islam, I would like to see a section comparing/contrasting the Judeo/Christian concept of "Free Will" vs a similar/dissimilar notion in Isam.

Summary:
Overall, the training was successful, but the host site did not seem to be as involved in the training as other field offices (potentially due to competing priorities at the time of the training). The Training Coordinator made an opening statement on Day 1 but was not present on Day 2 or 3. The ASAC assigned to help the CTC was not able to be present due to work in Overall class was engaged, asked many questions and were impressed with the level of knowledge of all instructors. b7E

Notes

Logistics:
1. b7E
2. HQ's was notified of the problem and assured Ops Officer that this will not occur again in future trainings.
3. AV personnel were not able to resolve a problem with the audio capability in the classroom. The instructors played excerpts from videos without sound as a result.

Course Materials:
1. Discussed with Vahid Brown and changing/deleting slides in the Origins of Islamism block which cross into later block the Muslim Brotherhood. b6 b7C
2. Additional course material was requested by students to share with colleagues who could not make it to the training.

Class Survey Comments:

1. Great course. Wish I got this in my 1st year with the Bureau and not my 7th. Too short. Make it a day longer. Maybe an entire week.

2. Course was very informative. Material presented was very relevant.

3. Very good conference-thanks. I can't think of any way to improve it. It was very informative and definitely helpful to what we do. Every speaker was very knowledgeable and well prepared.

4. I felt that the Americas & Latinos were not mentioned enough as this is a groups that is likely to be targeted for recruitment in order to go against the U.S. Some point to consider: 1) Financial ties or businesses, 2) Migration to S. America by Muslims, 3) Links/ties to particular countries/regions of interest.

5. I would like to congratulate you all for offering such an excellent course. The instructors showed a great deal of expertise and the information provided a better understanding of the culture, religion, mindset of the people we deal with in our cases. I suggest you develop different levels of these courses, ex. intermediate, advance, etc. even courses that we could attend to further learn about all the discussed topics. Thank you all.

6. To date with my participation on the JTTF, this has been the BEST terrorism training so far.

7. Good course. All instructors were well-informed.

8. Every instructor was very knowledgeable and interesting.

9. As a whole, all of the training was helpful, informative, relevant and interesting.

10. This training was great overall. I wish that it was provided to me 4 yrs ago.

11. Every instructor was well prepared and demonstrated their expertise on each topic. I found extremely helpful the section explaining the meaning and use of their names. I gained a much better understanding of the background and all the conflicts throughout the years in an attempt to reach their view of the will of God for their lives. I believe my interviews with subjects of interest will be more productive than before.

12. The materials provided in 3 days of training was great and very informative in helping us do our job better. However, three days, I believe, are not enough to cover such a wide range of topics and information. Overall, the training was great. Thanks to all who put this together and to the instructors.

13. All in all this is an excellent course, and very knowledgeable instructors.

14. I enjoyed the presenters and the material discussed during the three days.

15. The training block was very good in covering all aspects of IT.

16. Would have liked to see case studies for all modules.

17. **Origins of Islam** - More detail on Shia Islam. **Al-Qaida 1988-2008** - how to stop Al-Qaida. **Arabic Naming** - correct pronounciation of names. **Afghanistan/Pakistan** - more details. **South Asian Terror Groups** - more details.

18. **Origins of Islam** - would like to hear about tribal areas of the Middle East divided by religious affiliation to Sunni/Shia sects. **Muslim Brotherhood** - more on MB in America. **Hamas** - more about Hamas methods and techniques of fundraising in U.S. **Jihadist Radicalization**- radicalization around the world.

19. **From Qutb to Al-Qaida** - more on what is MB strategy today. **Muslim Brotherhood** - MB strategy today, who do they target for membership - universities/associations?

20. **Origins of Islam** - could have had more detailor could have been more elaborated, some historical periods were not discussed fully/omitted, no coverage of time period 11-13 century/crusades an important historical period. **Al-Qaida** - could have been more elaborated, some minor gaps in history. **Arabic Naming** - excellent, very usable information. **Operation Smokescreen** - excellent, very animated speaker. **North Africa** - very good - historical/economic info scholarly material. **Afghanistan/Pakistan** - good/excellent material, the speaker has incredible knowledge, but so much material - not enough time to cover such vast amount of history. **Horn of Africa** - excellent speaker, very scholarly presentaion - comprehensive information.

21. **Terrorist Groups on the Internet** - more simplified for those not too computer literate.

22. **Jihadist Radicalization** - discussion on how the public G.W.O.T. may influence people to radicalize.

23. **Al-Qaida 1988-2008** - more on current state of leadership. **Terrorist Groups and the Internet** - more on current websites. **Arabic Naming**- great block. **Jihadist Radicalization** - just not as specifically relevant, felt like much was already covered. **Terrorist Cell Typology** - more on financial cells. **Origins of Shia Islam** - more on current status. **Global Jihad Online** - more on current groups. **Islam in America** - current geo-locations. **Afghanistan/Pakistan & South Asian Terror Groups** - more on US based groups.

24. **Origins of Sunni Islamism** - role of Tablighi Jama'at. **Hizballah** - more on growing political power and threat to Israel.

25. **Origins of Sunni Islam** - more on Sunnis and Shias.

26. **Afghanistan/Pakistan** - would like more information on Pakistan's government.

27. **Terrorist Groups and the Internet** - case studies may have been useful if any. **Global Jihad Online** - could have been longer to go over methods in greater detail.

28. **Origins of Sunni Islam** - a "linkage" with current events. **Terrorist Groups and the Internet** - be less complicated. **Arabic Naming** - more accuracy.

I enjoyed the presenters and the material discussed during the three days. I would suggest possibly having transportation for individuals from out-of-state or catering for lunch.

The training block was very good in covering all aspects of IT. Only thing about training I would change is, in the EC, Allocate for all students flying in to have a rental car. The location is nice, but not good for anyone without a car. Also the hotel was OK, but other chains are better.

Comments:

1) I believe that the material in the "Arabic Names" class needs To be reviewed by a native linguist (one or Two). The Lecturer did a very good job, a hard one, To bridge the gap.

2) All in all it is an excellent Course, and very Knowledgeable Instructors.

Comments:

The materials provided in 3 days of training were great and very informative in helping us do our jobs better. However, three days, I believe, are not enough to cover such a wide range of topics and information.

Possibly more days & courses added to this training will be a good thing.

Overall, the training was great.

Thanks to all who put this together and to the instructors

I felt that the Americas & Latinos were not mentioned enough as this is a group that is likely to be targetted for recruitment in order to go against the U.S. Some points to consider.

1)- financial ties or businesses
2)- Migration to S. America by Muslims.
3)- Links/ties to particular countries/regions of interest.

Date of Report: March 16, 2009
Class: FBI Regional Training
Training Dates: March 11-13, 2009
Training Coordinator: [redacted]
Class Size: [redacted]
CTC Operations Officer/Author: [redacted]

b6 b7C b7E b6 b7C

Summary:
This was the largest class yet with a total [redacted] people. Training went very smooth on days 1 and 2. On day 3 an unexpected dilemma occurred. [redacted] It was late Friday afternoon and many departed, but approximately [redacted] people stayed to hear the instruction despite the block starting one hour later. [redacted] revised the block to run for one hour instead of two in which he hit all the key points he felt the class needed to hear. The class was given the choice to run the full two hour version of the block or one. Majority ruled one hour. Class was let out at 1700 as scheduled.

b6 b7C b7E

Training Coordinators were EXTREMELY helpful! They were present on all 3 days and sat through most of the training. All materials, copies, and AV help requested by the Ops Officer were there within a matter of minutes throughout the training. Truly great help and organization in [redacted]

b7E

Notes

Logistics:

1. [redacted] In the event that they must teach elsewhere, another instructor will be contacted to fill in.

b7E

Course Materials:

1. [redacted] was the first class to receive all materials [redacted] allowing CTC to use [redacted] to print all the handouts)which included AQ manuals, 3 book summaries, Big 3 cards, and textbooks. All future regional classes will receive ALL materials produced by the CTC for the FBI program which have now all been printed.
2. [redacted] handouts ought to be included in the spiral bound handbook. His handouts total 9 pages and would be more beneficial in the sense that they will be easy to access if they were included in the book as opposed to being handed out separately at the beginning of his block. The same goes for [redacted] "Arabic World Familiarization" handout.

Class Feedback

1. I have been in the FBI for 20 years and this is one of the best courses I have ever attended. The background and culture segments are definitely information I will employ in my current position. Thank you for a wonderful and informative 3 days.

2. I will be teaching a basic terrorism block to Leo's. The explanation of Islamist and the various Islamist groups will help to explain differences in groups.

3. From the first presentation on I was convinced I should call [redacted] FBOP, and recommend contracting this training for Bureau [redacted] staff nationwide. b6 b7C

4. Utilizing scholars as instructors was a welcome change from other intro level courses I've taken. Peaked my interest in seeking advanced courses. Recommend giving more on investigative tips. Blocks on associated/supporting crimes that could be looked at to help get a prosecution and/or deportation. Also a discussion on source recruitment or targeting.

5. Great class. Great instructors.

6. One of the best CT courses I have taken. I would like to see a similar course that concentrates on domestic terrorism/extremism for local and state law enforcement since we also have to deal with that aspect of terrorism prevention.

7. Excellent course!!!

8. Spend more time investing in these two areas: possible indicators of radicalization and prevention & detection.

9. Every single speaker was dynamic, informed and great at making so much information relatable and easy to understand.

10. Excellent speakers with most impressive subject matter expertise.

11. PowerPoint handout was hard to see. Print was really small making future use limited. Great class content. Thanks so much!

12. Information on specific terrorist groups will help identify upcoming threats to me in my job as an intel analyst. The courses built on each other in a logical order. We hope to get more people from our office in on the next class taught, very beneficial.

13. All instructors were very knowledgeable. Overall, excellent course.

14. Would LOVE more internet training. I also really enjoyed the fact the instructors have extensive experience and seemed to love their work instead of listening to an FBI drone that transferred in from some form creation unit at HQ and can't spell Jihad and didn't know there were differences between Sunni and Shia or Arab and Persian.

15. Great course with knowledgeable subject matter experts. Material/course contents were relevant and reflected current trends. The information in the module block of instructions will tremendously help me in my duties as a force protection officer in the Army.

16. Great course!!! Highly recommend to all Law Enforcement.

17. Excellent course!

18. Additional emphasis on prevention and detection...tactics, techniques, and procedures would be helpful. Qualifications of instructors was outstanding. The most professional group of instructors in any course to date.

19. By far the best terrorism course I've taken in my 23 years of service (U.S. Navy).

20. Good course, instructors dynamic and did a good job of portraying their knowledge.

21. I learned a lot from this course. I would recommend the course to my colleagues. I think this training would be great for SOS training class - which was unclassified last year and would benefit from this instruction. I will pass the contact information to the SOS coordinators.

22. Truly outstanding base of knowledge in this room these past 3 days!

23. More case studies would make the course even better.

24. The blocks in this course were interesting, and completely useful to my position. The only negative about this course in the lack of time. It would be perfect if the training could be extended by a day, in order to slightly lengthen each block in order to complete all slides and enough time for more in depth discussion of questions.

25. **Operation Smokescreen** was excellent, but third time for presentation. **Somalia presentation** very helpful and useful!

26. Increase **online investigation class** time.

27. Additional prevention and detection techniques and procedures in the **Investigating Internet Jihad** block.

28. **Arabic naming** - almost confusing.

29. [redacted] was difficult to understand at times and he spoke too fast. b6 b7C

30. **Arabic naming** would be a good class, but info did not seem to be presented in a logical order - info and logic seemed scattered. Investigating Internet Jihad was very informative and helpful. **History of Islam** was excellent, no matter how many times I hear it, always get something out of it. Video clips were helpful to exemplify points.

31. **Investigating Internet Jihad** - have 2 people to each laptop in the future for more in depth learning. Have a 2-3 hr block of instruction.

32. **Investigating Internet Jihad** - need a longer session with this topic.

33. **Terrorist Cell Typology** - additional time on prevention and detection.

34. **Arabic Naming** - great instructor. May be a bit much detail. Some slides almost too small to read in text.

35. **Arabic Naming** - could be cut to 1 hr block.

36. **Terrorist Groups and the Internet** - I work in an environment where the perpetrators don't have access to internet or internet correspondence. "Federal Penitentiary". Class was great though.

37. **Afghanistan/Pakistan** - speaker spent too long on the point of borders and not the rest of the PowerPoint. **Arabic Naming** - too complex of concept for just two hrs.

The blocks in this course were interesting, and completely useful to my position. The only negative about this course is the lack of time. It would be perfect if the training could be extended by a day, in order to slightly lengthen each block in order to complete all slides and enough time for more in depth discussion of questions

FBI-CTC Collaborative
After Action Report b7E

[redacted]

Date of Report: March 30, 2009 b6 b7C
Class: FBI Regional Training
Training Dates: March 25-27, 2009
b7E **Training Coordinator:** [redacted]
Class Size: [redacted]
CTC Operations Officer/Author: [redacted] b6 b7C

Summary:

[redacted] could not have gone any smoother thanks to the wonderful help of [redacted] training coordinator. [redacted] from [redacted] FBI HQ's was present and observed all 3 days of the training. She served as our escort [redacted] There were problems with attendees coming in extremely late in the morning and after lunch. [redacted] notified HQ's of this problem once the training concluded. HQ's took action informing the Ops Officer if this occurs again in forthcoming trainings to notify them immediately. They will proceed by contacting the training coordinator or whoever is in charge at the particular venue. The training coordinator will then make an announcement to the class as to what is expected of them throughout the 3 days. For example: being on time, no reading newspapers, no laptops (as was the case in [redacted] etc. Being on time is very important to ensure instructors are not cut short on time. b6 b7C b7E

Notes

Logistics:

1. In future regional training, HQ's will be notified if attendees are habitually arriving late. Entering the training room after class has begun is completely disruptive to the class and the instructors.

Course Materials:

1. FBI HQ's requested that the CTC pass out class surveys on day 1 as opposed to the last day of training. In the future, class surveys will be included in the spiral bound handbook on the very last page.

Class Survey Comments:

1. This course is the best CT training I have experienced. I look forward to similarly constructed CT trainings.

2. Overall, this was an excellent course, and one all employees working IT should take.

3. While there were some very basic themes, there was a lot of what I call "bridge" material. Picture each bit of information as a block, the bridge material is what ties block to block. This course is good for those who are very new to AT/CT, or the Dinosaur. I am probably in the middle, and I would recommend it!

4. Some of the presentations were more practical, e.g. Arabic Naming. Recommend more cheat sheets on what collectors and analysts should look for in trying to identify radical Islamists, good sources, and clues to their affiliations/ideologies. This course was invaluable because you had experts teaching these subjects. What a difference! I especially appreciate receiving the textbooks, and not just the spiral w/copies of the slides. Why? Complete sentences are better. Hard to remember what bullets on slides referred to. Would have liked some assessment of our (U.S.) prospects of achieving

stability and democratization in Iraq and Afghanistan, given the military presence in these 2 countries.

5. If possible provide more practical application and how to insert it during and prior to real investigations. Most of us never get that real expertise, experience thru real life situations, therefore, this is the best method to transfer that experience. Would be extremely beneficial. Would like to hear more case studies.

6. Excellent, well done course. I will use what I learned here. I learned many facts that will help and improve my work.

7. This was the best CT training I've received, it should be a part of all Quantico training for SA's, IA's, and SOS's and their field counterparts, anyone who touches CT for the Bureau. The structure, topic and time block was perfect. Thanks for the great book of handouts, etc.

8. Excellent training. All of the instructors were professional an interesting.

9. I thought the course was beneficial and would recommend it to others. Good job!

10. This is a good course for beginners or new JTTF members.

11. I can't speak highly enough about this training. It should be mandatory for all employees working IT matters. If anything, the course could probably be expanded a day or two. The presenters were top-notch. This was the best training I've been to since joining the FBI.

12. Very good training!

13. Handout materials were of very high quality!

14. I believe there would be a great benefit to raise portions of this course to the secret level, in order to get into issues revolving around current cases. It may be helpful to students to have the ability to share ideas and brainstorm on cases, or current issues which they may be facing.

15. Possibly increase the course time to 4 days. Excellent presenters. Very knowledgeable. Would have liked to learn more of the religious beliefs and the Quran.

16. Some slides in PPT's had too much detailed info. Broaden them and expand through lecture. Found myself trying to read slides while listening to lecture.

17. More emphasis on how to investigate and interrogate people from different regions would be helpful. A lot of info in a short period of time.

18. [redacted] needs to speak more loudly. He was hard to hear at the times he turned toward the projector screen. [redacted] is a very strong, knowledgeable speaker. However, he compulsively uses the word "um". It is very distracting. b6 b7C

19. The Combating of Global Jihad Online presentation lacked focus and was jumpy. No real value with the limited time and technical aspect.

20. The data on Arabic naming needs to be re-examined.

21. The online class was hard to follow. It may be better explained by giving examples of how an FBI employee can use these techniques based on what the FBI employee can/can't do from the equipment/access in their office.

22. Brown was a great way to start the training and made a complex topic very interesting and easy to retain. Would liked to have seen [redacted] not so rushed. But he was informative. b6 b7C

23. Vahid Brown [redacted] and [redacted] were truly outstanding. b6 b7C

24. The basic understanding of Islam and how to analyze Arabic names is a great tool in performing my job taskings.

While there were some very basic themes, there was a lot of what I call "bridge" material. Picture each bit of information as a block, the bridge material is what ties block to block. This course is good for those who are very new to AT/CT, or the Dinosaurs. I am probably in the middle, and I would recommend it!

Some of the presentations were more practical, e.g. ~~Hamas~~ Arabic naming. Recommend even more cheat sheets on what collectors & analysts should look for in trying to identify radical Islamists, ~~what~~ good sources, and clues to their affiliations / ideologies.

This course was invaluable because you had experts teaching these subjects. What a difference! I especially appreciate receiving the textbook, and not just the spiral w/ copies of the slides. Why? complete sentences are better. Hard to remember what bullets on slides referred to.

Would have liked some assessment of our (the US's) prospects of ~~of~~ achieving stability + democratization in Iraq + Afghanistan, given the US mil presence in these 2 countries.

If possible, provide more practical application and how to insert it during and prior to real investigations. Most of us never get that real expertise (experience that real life situations), therefore, the best method to transfer that experience could that be improved? Do more, would be extremely beneficial.

Since this is a regional conference, it should be expanded to 3½ days so the presenters won't be so rushed (and the participants won't have to travel on a Saturday). Actually, it could easily be a 4 day conference I'm sure. The information was very useful, but nearly every presenter ~~seemed~~ seemed rushed and a few went over.

The online class was hard to follow. It may be better explained by giving examples of how an FBI employee can use these techniques Based on what the FBI employee can / can't do from the equipment/access in their Office.

I can't speak highly enough about this training. It should be mandatory for all employees working International Terrorism matters. If anything, the course could probably be expanded a day or two. The presenters were top-notch. This was the best training I've been to since joining the FBI

I believe there would be a great benefit to raise portions of this course to the Secret level, in order to get into issues revolving around current cases. It maybe helpful to students to have the ability to share ideas & brainstorm on cases, or current issues which they maybe facing.

FBI-CTC Collaborative
After Action Report b7E

Date of Report: May 18, 2009
Class: FBI Regional Training
Training Dates: May 12-14, 2009 b6 b7C
Training Coordinator:
b7E **Class Size:**
CTC Operations Officer/Author: b6 b7C

Summary:

b7E class was engaged throughout the entire training. They were an outspoken group with plenty of comments and questions for the instructors. During several blocks, the class participated in group discussions amongst themselves as well as with the instructors.

Overall, the training ran smoothly with no major issues. The only problem was with the embedded videos in PowerPoint that did not function properly on the computer provided by the host. For future trainings, the videos will be saved separately as well as in the power point presentations to ensure that they can be played.

The training coordinator provided refreshments during all 3 days of training which was much appreciated by the class.

Class Feedback:

1. Exceptional training. I wish my whole office could get access to it.

2. Overall, an excellent course. My background knowledge of the subjects taught over the last 3 days has been greatly enhanced!

3. Only feedback is the course is so informative it could be a whole week to allow more time for questions and lectures.

4. It would be nice to have copies of all the notes of all the presenters. It would be easier to follow and write my notes by, especially with the Arabic Naming block. I would have liked this program to be 4 or 5 days. The presenters had to skip through slides and had no time to answer all questions.

5. Maybe spread info over 4 or 5 days so there is more time for speakers to tell about personal experiences. Great job!

6. Excellent course! Provides great outline of all fundamental issues with keys to expand understanding in the future. Could almost be a 4 or 5 day class. All instructors were great. Arabic Naming was best by far. Everyone should take this class.

7. May need to break lectures with video components or case study components. Needed more time on the Horn of Africa/Somalia. Maybe more on the utilization of material learned. More case studies. Great

training! Definitely would recommend to all those in CT. Arabic Naming should be MANDATORY for FBI Agents.

8. Would like to see more case studies such as Operation Smokescreen example which was excellent.

9. I am new to the JTTF. I found this training very informative. It was very overwhelming at times but very helpful. I plan to further educate myself and feel this was a great start. Great class! [redacted] and Mr. Fromme were both great Instructors. Mr. Fromme was very dynamic and interesting. All instructors were great and very informative. I learned a lot these 3 days. b6 b7C

10. Some of the material relied heavily on academic information which is different from reality. I found some of the presenter's naïve in a way because most of their experience came from reading books.

11. There were sections of instruction in which no written materials were provided. I felt the information was important, however too much to take notes due to volume and pace.

12. Thanks guys. Big help. Great training and hospitality.

13. Every lecture was very informative. Some seemed rushed and could be beneficial if it were longer to provide for more discussion time.

Some of the material relied heavily on academic information which is different from reality. I found some of the presenters naive in away because most of their experience came from reading books.

It would be nice to have copies of all the notes of all the presenters. It would be easier to follow and write my notes by, especially with the Arabic Naming #20.

I would have liked this program to be 4 or 5 days. The presenters had to skip through slides and had no time to answer all questions.

Maybe Spread into over 4 or 5 days
So there is more time for Speakers
to tell about personal experiences

GREAT JOB!!!

- Needed more on Horn of Africa/Somalia
- Maybe more on the utilization of material learned.
- More Case Studies.
- Great Training! Definitely would recommend to all those in CT.

Arabic Naming should be MANDATORY for FBI agents

There where several sections of instruction in which no written materials were provided. I fell the information was important, however too much to take notes due to volume & pace.

Summary:

This was the first venue located outside of an FBI building. The CTC team was permitted to bring and use their laptops. No gate list or escorts were required which made it very simple for instructors to come and go as needed all 3 days. AV help was provided each morning prior to instruction. Training Coordinator was not present throughout the training session.

Class was focused and extremely interested in all topics presented through the entire training. Culture and Customs Q&A did not go as expected. Not too many questions were asked during this block as anticipated. Suggest that the Q&A session is at the most 30 minutes and not 1 hour or merge it with Islam in America as it has been done in New Agent Training.

Class Feedback:

1. This course clearly needs at least an extra day. The instructors had to hurry through some material due to time constraints.

2. Fantastic class. Very informative.

3. Overall, this training was very informative. I would recommend it to others. Would like to see more advanced training as a continuation. [redacted] seemed unorganized; thought/sentences didn't seem to be completed. [redacted]

b6
b7C

4. More visual aids (not PowerPoint) would be helpful. Excellent course.

5. I would have preferred more visual aids such as videos, case studies or examples. I thought the days were very long and has so much detail packed into 8 hours of lectures. I lost some of the info. I would recommend shortening the days and maybe extending the course an extra day. I think students would get more out of the class and not feel rushed and anxious from sitting through lectures all day. All speakers were very interesting and had extensive knowledge in their area of expertise. They had facts that pertain to our job and are relevant. **CTC Intro and Origins of Islam** were a little lengthy and had too much information, an extra day would be perfect. **Terrorist Groups & the Internet and Investigating Internet Jihad** were a bit technical; I would have preferred the instructor just state what he does and what tools can be used...not step by step. **Operation Smokescreen** was excellent, need more examples like this. **Jihadist Radicalization** had good visual aids.

6. I enjoyed learning the history of Islam and the Middle East culture. I would suggest that each guest speaker who have this wealth of knowledge on their subject matter that they break it down into 2 parts, 1st the history of the topic and 2nd would be how that applies to current day – using more video presentations and maybe current terrorist cases here or abroad. I felt there was too much lecture type presentation. I would like to further suggest that all these topics – the different cultures, tribes, Arabs, Muslim Extremists, Al-Qaida, Hizballah, Hamas, etc. I would like to learn about the history of these groups like you did in a very effective way, but I would like to learn about their tradecraft here in the U.S. or in Europe to somehow connect the dots to learn what these groups are doing in the U.S. (fundraising, recruiting, plotting, terrorism, sabotage, espionage, etc.) What as

field investigators can we look for or be aware of on these groups. Theories on how terrorist cells operate in the U.S. Again, I felt that too much emphasis was on history only and too much lecture, and would have been interesting to see video of terrorist investigations by law enforcement or investigative media reports. Day 3 did incorporate many ideas I expressed above. I enjoyed the case study of **Operation Smokescreen**, it encompassed a lot of what I was interested in and the types of targets I might encounter out in the field. Also enjoyed the recruitment segment of the presentation although it was rushed. Also maybe briefly go over the capabilities of **Terrorist Groups & the Internet –** [redacted] presentation was excellent but way too long and too detailed [redacted] and....woah! Again, more would have been gained by using an actual example of an investigation from start to finish. Overall, I enjoyed the whole 3 days of training. b6 b7C b7E

7. As an FBI Agent for 9 years, this is by far the best FBI training I've ever had. As a Muslim American this is the best, most comprehensive, none biased Islamic culture education that I've experienced. I highly recommend this for my colleagues and encourage the CTC and FBI to continue providing this training. Job very well done!

8. Instructors have depth of knowledge and appear to be experts in this field. Very fortunate to have been able to listen to them speak. Class overall was very informative. I would have liked to see more case studies. I also enjoyed use of media. Perhaps my perception is off, but it appears that the less controversial issues were omitted or not even addressed.

9. The 3rd day saved the course. The first 2 days were for the most part too basic. Also a couple of the presenters were somewhat hostile (dismissive) towards me when I approached them after their session with legitimate questions. Some of the info presented contradicted [redacted] presentation. [redacted] will be a good presenter at some point – like [redacted] he is not quite ready to present/brief at the level required. Also, we have well established cyber investigation methods so I question the reasons for including [redacted] methods – non cyber skilled investigators should partner with cyber squads or get training. b6 b7C

10. Course was very well presented. Excellent knowledgeable presenters. I've learned a great deal from **Terrorist Groups & the Internet and Investigating Internet Jihad**. **Terrorist Cell Typology and Jihadist Radicalization** were also exceptional as it clarified the recruiting process. I would like to see a section about Yemen, and its place with reference to AQ.

11. Enjoyed immensely! Poster boards with key player's pictures and names to refer to during various blocks would have helped.

12. I would agree that this course should be taken by all intelligence community participants. Thank you.

13. Great job!

14. Good course content and detail. Liked more current info vs. old history. At times there was overlap which was a bit confusing. I definitely gained better understanding through this course. This course should be mandatory for my department [redacted] Overall, positive. Got most out of the geography portions – helpful in understanding the overall picture of different groups. **Culture and Customs Q&A** needed to be more of a formatted session directed by the instructor. Seemed like too much of "free for all" with no initial directive. There is no doubt that the knowledge of **Origins of Shi'a Islam** is there, but the presentation was not dynamic enough for instructor level of this course. **Bill Braniff** showed great enthusiasm during the **Horn of Africa** block and conveyed b7E

information very well in this course. **Growth of the Muslim Brotherhood** was an informative segment. [redacted] was a great instructor, but if you are in this class and don't already know the basics of this segment, you better get another assignment. **Vahid Brown** was a dynamic instructor, enjoyed! **Operation Smokescreen** was one of the best blocks of instruction. **Afghanistan/Pakistan and South Asian Terror Groups** included informative material, great instructor. Favorite instructors – **Bill Braniff, Bob Fromme and Vahid Brown.** Great course, good content, lots of information pertinent to expertise/job. Sometime overlaps occurred. Would have liked to see more current events/information if available. b6 b7C

15. Great class, very useful! [redacted] should teach a whole class on his internet presentation. b6 b7C

16. The training was excellent! I actually wish it were longer. An additional few days to cover some of the topics in-depth would be useful. Great training. Much of the information on Origins of Islam, AQ's origins, Islamic culture, etc. was very good, but I have already read/studied these topics. Repetition helps to refresh my knowledge base. All the training was exceptional and interesting.

17. Excellent training and very interesting presentations. The depth and amount of knowledge of the presenters are very impressive. Thank you for one of the best trainings I have ever had.

18. The subject of **North Africa and Somalia** issue was fairly new to me. I knew about the rise of the Somalia problem just recently, but I didn't know all the details I learned in this course. I just wanted to thank you sincerely especially for that.

19. I wish/hoped that class was longer. Everything was well condensed but it is much easier to understand if it was spread out a bit. Overall great job!! The class overall was great. My feedback for improvement would be per certain presenters to be aware that the audience may not have as extensive knowledge or familiarity on acronyms, terms, vocabulary, etc. commonly used in their line of expertise. By having this awareness, they can be moderate in their use of them and not spout all terms in one long narrative and eventually lose the audience. Thanks! You guys did a great job.

20. 100% impressed with the array of experts who spoke to us. In particular [redacted] **Vahid, and** [redacted] **Bill Braniff** has organized a great 3 days. While the counterintelligence division has always been ahead with the educational opportunities, it's nice to see the counterterrorism division catching up. I believe this training opened a lot of minds. I am in a position to train Probationary Agents in [redacted] and I will definitely recommend this course. I enjoyed the opportunity to ask academic-type questions to real experts! I felt that the honest, analytical study of all topics was refreshing and outstanding. A lot of the time, we get "pseudo experts" or virtual crusaders that provide CT information. Refreshing and academic. b6 b7C b7E

21. Courses were good/well-presented. Instructors were prepared, knowledgeable and easy to understand while discussing their many difficult/complex topics. **North Africa** block gave me great knowledge/understanding of the area. **Origins of Shi'a Islam and Lebanese Hizballah** both had huge amount of information to understand threat/motivations. Afghanistan/Pakistan and South Asian Terror Groups were relevant to what I work and view as most serious threat to National Security. Thanks!

22. **Vahid Brown** was particularly knowledgeable and got his point across excellent.

The first 2 days of instruction could be completed in 1 day by removing/addressing over most of the very basic intro materials (Sections 1-7) Culture & Customs (Section 10) was pointless in actuality. Lesson 14

→ Focus more on Methods, Investigations, & Ideologies & Origins in order to provide more utility to professionals.

Overall, it was very informative. Would recommend to others. Would like to see more advanced training and a continuation series.

10. Seemed unorganized; thought didn't seem to be completed.

I would have preferred more visual aids such as more videos or case studies or examples. I thought the days were very long & had so much detail packed into 8 hours of lecture each day... I lost some of the info. I would recommend shortening the days / maybe adding the course an extra day. I think your students would get more out of the class & not feel rushed or anxious from sitting

All speakers were very interesting & had extensive knowledge in their area of expertise. They had facts that pertain to our jobs & are relevant.

* Units 1 & 2 were a little lengthy & had too much information condensed extra day would be perfect.

* Units 11 & 12 were a bit technical; I would have preferred he just state what he

Overall it was an awesome tool to utilize & have knowledge of.

I wish/hoped that class was longer.
Everything was well condensed but it is much easier to understand if it was spread out a bit.

Overall great job !!!

The class overall was great. My feedback for improvement would be for certain presenters to be aware that the audience may not have as extensive knowledge or familiarity on acronyms, terms, vocabulary etc commonly used in their line of expertise. By having this awareness, they can be moderate in their use of them and not spout all terms in ~~the~~ one long narrative and eventually lose the audience. Thanks! You guys did a great job.

BEAT NAVY!

100% impressed with the array of experts who spoke to us. In particular: [redacted] Valid [redacted] Bill Brannigff has organized a great 3 days, & while the counterintelligence has always been ahead with educational opportunities, it's nice to see the counterterrorism division catching up. I believe this training opened a lot of minds. I am in a position to [redacted] and I will definitely recommend this course. I enjoyed the opportunity to ask academic-type questions to real experts!

I felt that the honest, analytical study of all topics above was refreshing and outstanding. A lot of the time, we get "pseudo experts" or virtual crusaders that provide CT information. Refreshing and academic.

The training was excellent – I actually wish it were longer. An additional few days to cover some of the topics in-depth would be useful. Great training.

Much of the information on Islam's origins, AQ's origins, islamic culture, etc. were very good, but I have already read/studied these topics. Repetition helps to refresh my knowledge base, but I rated other courses higher because I learned something new in each. All the training was exceptional + interesting.

Great Course. I would like to See the Course extended to 40 hours of a Basic 40 hour Course and an advance 40 hour Course. Should be required by New TFO's Also, the notes Should be placed into a book format for easy Recall & Study after Training! The Instructors are an all Star team of who is who of Radical Islam. Great work!

All courses excellent, the time for each needs to be extended. this should be at least two 40 hour training sessions. all lectures should be placed on a book for future reference. for the class, water, coffee Tea & Bagles would be nice.
Also, need better class Room / training Hotel Conference Room more conducive to interaction

I ENJOYED learning the history of Islam and the middle east culture – I would suggest that each guest speaker who have this wealth of knowledge on their subject matter that they break it down into 2 parts, 1 – history of the topic and 2nd part would be how that applies to current day – using more video presentations and maybe current terrorist cases here or abroad. Felt there was too much lecture type presentation.

I would like to further suggest that all these topics – the different cultures, tribes, Arabs, muslims, Extremist, Al Qaida, Hizbulla, Hamas, etc I like to learn about the history of these groups like you did in a very effective way but I would like to learn their tradecraft here in the US or in Europe. to somehow connect to date to learn what these groups are doing in the US. (Fund raising – recruiting, plotting, terrorism, Sabotage, espionage etc) what as field investigators can we look for or be aware of on these groups – Theories on how Terrorist cells operate in the US. Again I felt that too much emphasis was on history only and too much lecture, and would have been interesting to see video of Terrorist investigations by Law Enforcement or Investigative Media reports.

Day 3 Did incorporate many ideas I expressed on the front page. I enjoyed the Case Study of the Operation Smokescreen – it encompassed a lot of what I have interested in and type of Targets I might encounter out in the field. Also enjoyed the Recruitment Segment of the presentation although it was a bit rushed.

Maybe briefly go over the capabilities of Terrorists Groups & the Internet. [redacted] was too long and too detailed [redacted] Again more would have been gained by using an actual example of an investigation from start to finish. More these are what I can do – no the actual step by step – too tedious – lost interest immediately. Overall I really enjoyed the whole 3 day training.

Class are all very informative – would have liked to see more case studies also enjoyed use of media. Perhaps my perception is off, but it appears that the less controversial issues were omitted or not even addressed. While I understand this is not a theological Class, it would have been nice to have more focus on the day

FBI-CTC Collaborative b7E
After Action Report
[redacted]

Date of Report: August 4, 2009
Class: FBI Regional Training
Training Dates: July 28-31, 2009 b6 b7C
b7E **Training Coordinator:** [redacted]
Class Size [redacted]
CTC Operations Officer/Author: Bill Braniff

Summary:

On a scale from 1 to 5 in which 1 is Excellent and 5 is Poor, the overall instructor rating for the 32 hours of instruction was 1.55. The class was engaged throughout the four days of instruction, and the venue coordinators were exceptionally helpful. This was the first iteration of the 4-day Regional IT model. As a result of this extended schedule, the pace of instruction was slower and there was more time for questions and answers. Having experienced both the 3 and 4 day models, the CTC found the 4 day model to be more conducive for comprehension and discussion. Bill Braniff served as a discussant through the duration of the 4 days, encouraging greater class participation and clarifying points through out the lectures. This proved to be a positive experience for the class, based on the feedback.

The CTC piloted a new block of instruction provided by [redacted] The block discussed her experience conducing academic interviews in Islamist environments. The instructor was unfamiliar with this audience and made the mistake of soliciting class participation by asking questions about how the students would approach given situations. For the students, this was perceived poorly, as they were being asked to discuss tradecraft. CTC has provided this feedback to the instructor, and will ensure that this block of instruction is focused on the instructor's experiences in environments that may be insightful for the students. b6 b7C

Class Feedback:

1. I thought the four day course was well done! Very informative. **Interview and Interrogation** kind of questionable.

2. It would be beneficial to have larger slides to view in some cases. They are too small in the book. This feedback form was printed on the back of the presentation slides. [redacted] presentations could have provided more on how to interact with subjects online and less on the computer techniques. [redacted] just stood up there and read a speech. This presentation could have been so much better given the wealth of knowledge of the speaker. This presentation was very disappointing. They questions she asked were too academic and lacked an understanding of law enforcement reality. [redacted] perspectives and comments are vital to know. This presentation was very helpful. However, I was disappointed that the slides on "Islam in America" were not addressed at all.

b6
b7C

3. Overall, very good course for someone with no CT experience. [redacted] a little arrogant, stop reading from a script. Basic 101 interview techniques. **Islam in America** was interesting, but our questions could have been better. **Horn of Africa Diaspora** was interesting as well.

b6
b7C

4. [redacted] did a great job conveying Muslim perspective post 9-11. I have a better understanding of Islam and the ideology of its extremists. [redacted] was great at making the Afghan-Pakistani relationship understandable. This will definitely help me with the writing of intelligence products. This **history of AQ** was also really good. I was not a fan of the **internet and jihadi sessions**. There was too much technical information. The **Arabic Naming** was absolutely fantastic! I needed this! My favorite portion was the **cigarette case study**. It's great the **Mr. Fromme** tells a story and doesn't stay on a slide

b6
b7C

too long. **Interview and Interrogation** seemed a bit unnecessary since [redacted] just spoke on the basics, which most people know. I enjoyed [redacted] because he spoke from his heart and was honest about his experiences. It put a face to the issues and feelings Muslims encounter in the U.S. b6 b7C

5. I'd be interested to know if each instructor knows of one or two books they'd recommend. My limited readings have indicated to me that the crusades plays a considerable role in the mindset of many Muslims, so I wonder if this factor should have been identified and discussed as thoroughly as the other historical factors such as colonialism, etc. Textbook and CD will be useful. **Jihadist Radicalization** provided helpful use of internet videos of propaganda. Would have liked to see more examples from the internet during the **Investigating Internet Jihad** session. Improvements noted in class (i.e. more personal experiences, less questions) would be helpful for **Islam in America: Culture and Customs**. Would have liked to hear the omitted information on Somalia. Looks informative and helpful.

6. **Mr. Braniff** was an excellent instructor and class facilitator. [redacted] English was difficult to follow; poor presentation. The class made sense when Bill interrupted and reviewed the information. [redacted] was a nice lady and a good presenter, but the information was not very helpful. b6 b7C

7. Handouts could include a map of the areas discussed and could also have tips on developing new sources. **Braniff** was extremely valuable and thought provoking. Please continue to keep him in this training. Group exercises could illicit a lot of participation from the attendees as well as give them an opportunity to share their experiences in an open way.

8. Please come back to [redacted] and provide us with the 2010 version of this course. Excellent instructors! [redacted] **Braniff**, [redacted] I would like to see a section on Israel, their culture, history, religion and issues with Palestine. We need a better understanding of the Israeli-Palestinian conflict, this comes up in investigations. Nice Q&A session with [redacted] very useful and informative. Thank you. b6 b7C b7E

9. [redacted] presentation concerning cyber issues was a little too detailed/specific and a little over my head. The question and answer session with [redacted] was excellent! I would recommend that in the future. The **Arabic Naming** section was highly beneficial and appropriate for my job. **Mr. Braniff** did an excellent job managing the course (specifically, **Mr. Braniff** kept the course on a prompt schedule). A more interactive approach to some of the topics (i.e. group project) may assist or break up PowerPoint monotony. Over all, this was an excellent course! The [redacted] presentation would be good but I would limit questions of tradecraft and I would have her present more of her firsthand experiences. b6 b7C

10. I like how [redacted] brought the topic to the understanding of the audience. Culturally brilliant, putting ideas into audience's cultural and ideological understanding. Excellent communicator. [redacted] presentation was very engaging and informative. He provided insight from his personal experience which was value added. **Arabic Naming** included very useful information that can be used in my position. For **Interview and Interrogation** if the speaker was law enforcement then maybe the topic would have been relevant. I did not see the relevancy for the course. Review by **Bill** at the end was good. It reinforced what was covered in a snapshot. b6 b7C

11. [redacted] is a wonderful speaker. Consider moving **Arabic Naming** toward the beginning of the training. Also consider moving **Terrorist Cell Typology** at the beginning of the training. I wish **Braniff** would have had more subject knowledge on Hizballah [redacted] I wish we would have covered the b6 b7C b7E

investigative sheet/attachment for the **Investigating Internet Jihad** session. **Interview and Interrogation** was not helpful and should be eliminated from the course.

12. Overall a very good course with excellent presenters. I think it was somewhat basic, even for an intro course, and could go into a bit more depth. It would be nice to have the presenters stay the night after they present and have a happy hour type thing where students could meet with them and discuss topics in greater detail. **Radicalization** was good, but I think it could have used more and more depth. **Terrorist Groups and the Internet** was not very useful. [redacted] I thought was very interesting. I would continue to use her but arrange for her to meet with an FBI Agent to understand what we do and how we do it so she can more comfortably put things in context. The discussion with [redacted] was interesting but would also have liked to hear his presentation and then had the same discussion after class for those interested. b6 b7C

13. Overall, a good program! Very informative and will assist in my job. Information on **Lebanese Hizballah** was good, but I would have liked to have an expert on the topic. **Investigating Internet Jihad** was too advanced. If improvements are implemented for **Interview and Interrogation**, it could be a good block of instruction.

14. All of the instructors demonstrated a high level of expertise (experience in their respective field of discussion). I have taken /attended other terrorism courses/conferences but the West Point course has surpassed those by providing great information on the history both past/present, of each of the topics discussed. I would definitely recommend this course to others.

15. The course is very worthwhile. I have learned a great deal every time I have attended. The instructors are very knowledgeable. The **Interview and Interrogation** aspect was least worthwhile. The presentation of this block was not consistent with the others. An author, asking uncomfortable questions, with unclear motivation and no knowledge of general FBI culture, was less effective and out of place.

16. Some material was too complex for me being new to CT. I came to the course with very little knowledge and no knowledge of some of the material. It seems that it would work better for me to have all the history up front then talk about the splits and then the ideologies. Finish up with customs, etc. **Arabic Naming** was essential for financial investigation. I am too new to know if the **Horn of Africa Diaspora** will apply to my casework. As a general note: more videos will help with keeping interest since not all sections are relevant to everyone in the class.

17. I would recommend a few more real life examples of applied material incorporated into the lectures. For example, give a specific example of a person who was radicalized and show his growth through the movement. Overall, very good. I learned I wish I had this class instruction before. I felt the instructor on **Interview and Interrogation** had a lot to offer, experience wise, but taught too much in an academic manner. We were not there to take a test, better service would have been her experiences and how she adapted to various interviews.

18. Exceptional speakers. Very solid material presented in a very logical way. **Mr. Braniff's** knowledge was incredible – glad he is on our side. The recap was very good to make sure we understand concepts. Both [redacted] and [redacted] brought a great local/Muslim touch to the class – nice addition. Thanks for the Q&A with [redacted] Thanks for the effort – a very worthwhile program. b6 b7C

19. Outstanding training – Thank you.

20. Great instructors. **Mr. Fromme** was awesome. I found **Islam in America** and **Operation Smokescreen** to be the most useful for investigations. The history blocks were very interesting and useful. [redacted] block would be very useful if more examples and customs were shared. b6 b7C

21. You might be able to go into more detail with the specific terror groups when you do visits to the field offices. I would guess on average you will have more CT experience in the field office vs. Quantico. [redacted] did not convey how her experiences might be able to assist during our interrogations. Specifically, she addressed barriers for people to leave an Islamic group but not the reasons for why one would want to leave. In addition, [redacted] Historically, Agents are very adverse speaking to reporters. In fact, we will be fired for speaking to a reporter without prior approval. She could learn from the other presenters, who said they were here to convey their experiences which may help us in our job. b6 b7C

22. To gear/tailor the course for LEO's it will be better suited to assist LEO's on the job. I feel that LEO's know that not all Muslims are bad, we want to know "indicators". Prevention is hard to do if we are told that all Muslims are good and extreme videos are not indicators. Please have the confidence that LEO's can distinguish through proper investigation "profiling vs. probability".

23. Great course. I felt like the questioning section that the class did on the last day with [redacted] was extremely knowledgeable and insightful in my assignment. It was great to hear how [redacted] The section about **Internet Jihad** was interesting, however it seemed like it could have been shorter. The section on **Interview and Interrogation** was not useful to this audience. I felt like [redacted] gave the class better insight. Not to take away from what [redacted] said, however I think her audience would be better towards the education system (college or university). Her questions towards the class seemed inappropriate. b6 b7C

24. This course will allow me to apply better interview skills including **Arabic Naming** and meanings. The course was very well organized and will allow me to organize reference material for future use. Each instructor brought expertise and knowledge of area presented. The information will serve as a guide to future investigative cases. I would highly recommend this course to FBI Agents, Analysts, and Task Force Officers because it will improve their knowledge of ideologies of Islam. Very useful information for investigations and intelligence gathering for CT cases.

25. This training course provided a new perspective on many of the issues surrounding the macro CT mission. Much of the information presented will assist me in my investigations and in my contacts within the Muslim community. Topics covered were very timely and relevant regarding the current CT environment. Well done. **The Interview and Interrogation** block of instruction was somewhat problematic as the presenter seemed to be seeking information from the audience rather than presenting information to the audience. A potential solution to the issues encountered with the presentation would be to present techniques that would be beneficial in an interview setting rather than asking about FBI investigative techniques.

26. **Operation Smokescreen** case study was excellent. **Lt. Fromme** is an outstanding speaker. The explanation of Hizballah, Lebanon and the PLO and how they fit together was very helpful. Understanding the politics of the region was helpful. I had never heard a good explanation before. **Bill Braniff** is a great instructor and very knowledgeable.

THIS TRAINING COURSE PROVIDED A NEW PERSPECTIVE ON MANY OF THE ISSUES SURROUNDING THE MACRO COUNTERTERRORISM MISSION. MUCH OF THE INFO. PRESENTED WILL ASSIST ME IN MY INVESTIGATIONS AND IN MY CONTACTS WITHIN THE MUSLIM COMMUNITY. TOPICS COVERED WERE VERY TIMELY AND RELEVANT RE: THE CURRENT CT ENVIRONMENT. WELL DONE.

(18) THE INTERVIEW BLOCK OF INSTRUCTION WAS SOMEWHAT PROBLEMATIC AS THE PRESENTER SEEMED TO BE SEEKING INFORMATION FROM THE AUDIENCE RATHER THAN PRESENTING INFORMATION TO THE AUDIENCE. A POTENTIAL SOLUTION TO THE ISSUES ENCOUNTERED WITH THIS PRESENTATION WOULD BE TO PRESENT TECHNIQUES THAT WOULD BE BENEFICIAL IN AN INTERVIEW SETTING RATHER THAN ASKING ABOUT FBI INVESTIGATIVE TECHNIQUES.

3- TO GEAR/TAILOR THE COURSE FOR LEOs IT WILL BE BETTER SUITED TO ASSIST LEOs ON THE JOB. I FEEL THAT LEOs KNOW THAT NOT ALL MUSLIMS ARE BAD, WE WANT TO KNOW "INDICATORS." PREVENTION IS HARD TO DO IF WE ARE TOLD THAT ALL MUSLIMS ARE GOOD AND EXTREME VIEWS ARE NOT INDICATORS. PLEASE HAVE THE CONFIDENCE THAT LEOs CAN DISTINGUISHING THROUGH PROPER INVESTIGATION "PROFILING VS. PROBABILITY."

Found Culture & Customs, Operation Smokescreen most useful for investigations

- History very interesting and useful!
- [redacted] block would be very useful if more examples and customs were shared.

18. [redacted] did not convey how her experiences might be able to assist during our interrogations. Specifically, she addressed barriers for people to leave an Islamic group but not the reasons for why one would want to leave. In addition, [redacted] Historically, Agents are very adverse to speaking to reporters. Infact, we will be fired for speaking to a reporter without prior approval. She could learn from the other presenteess, who said that they were here to convey their experiences which may help us in our job.

3) Some material was too complex for me being new to CT. I came to the course with very little knowledge and no knowledge of some of the material.

4) Seems that it would work better for me to have all the history up front then talk about the splits and then the ideologies. Finish up with customs etc.

The Interview & Interrogation aspect was least worthwhile. The presentation of this block was not consistent with the others. An author, asking uncomfortable questions, with unclear motivation and no knowledge of general FBI culture, was less effective and out of place.

Overall a very good course with excellent presenters. I think it was somewhat basic, even for an intro course, and could go into a bit more depth. It would be nice to have the presenters stay the night after they present and have a happy hour type thing where students could meet with them and discuss topics in greater detail.

Block 13 - radicalization - was good but I think could have used more and more depth.

Block 10 - Terrorist Groups & Internet - not very useful

Block 19 - [redacted] I thought was very interesting. I would continue to use her but arrange for her to meet w/ an FBI Agent to understand what we do and how we do it so she can more comfortably put things in context.

Block 19 - Discussion w/ [redacted] was interesting but would also have liked to hear his presentation & then had the same discussion after class for those interested.

- The presentation by the individual concerning Cyber issues was a little too detailed/specific and a little over my head.
- The question & answer session w/ [redacted] was excellent! I would recommend that in the future.
- The Arabic naming section was highly beneficial & appropriate for my job.
- Mr. Bramitt did an excellent job managing the course (Specifically, Mr. Bramitt kept the course on a prompt schedule)
- A more interactive approach to some of the topics (i.e. group projects) may assist or breakup powerpoint monotony.
- Overall, this was an excellent course!
- The [redacted] presentation would be good but I would limit questions of tradecraft & I would have her present more of her ~~history~~ PIs

I'd be interested to know if each instructor knows of one or two books they'd recommend. My limited readings have indicated to me that the Crusades plays a considerable role in the mindset of many Muslims, so I wonder if this factor should have been identified and discussed as thoroughly as the other historical factors such as colonialism, etc. Textbook + CD will be useful.

Day 1- [redacted] did a great job conveying Muslim perspective post 9-11. I have a better understanding of Islam and the ideology of its extremists.

Day 2 [redacted] was great at making the Afghan - Pakistani relationship understandable. This will definitely help me with the writing of intelligence products. The history of AQ was also really good. I was not a fan of the internet and jihad session. There was too much technical information. The Arabic naming was absolutely fantastic! I needed this!

Day 3 My favorite portion was the cigarette case study. It's great that he tells a story and doesn't stay on a slide too long.

Day 4 Interview/interrogation seemed a bit unnecessary since she just spoke on the basics, which most people know. I enjoyed [redacted] because he spoke from his heart and was honest about his experiences. It put a face to the issues and feelings Muslims encounter in the U.S.

Excellent instructors! ([redacted] Granitt, [redacted] b6 b7C b7E

I would like to see a section on Israel, their culture history, religion, & issues with Palestine. We need a better understanding of the Israeli-Palestinian conflict, this comes up often in investigations. Nice Q+A session with [redacted] very informative & useful.

Thank you.

I like how [redacted] brought the topic to the understanding of the audience. Culturally brilliant putting ideas into audiences cultural and ideological understanding. Excellent communicator.

[redacted] presentation was very engaging and informative. He provided insight from his personal experience which was value added.

Arabic Naming very useful info can be used in position

Interview + Interrogation - If speaker was law enforcement then maybe topic would have been relevant; I did not see the relevancy for the course as most law enforcement know how to respond to subjects. I was expecting more practical application.

After Action Report b7E

Date of Report: August 26, 2009
Class: FBI Regional Training
Training Dates: August 18-21, 2009 b6 b7C
b7E **Training Coordinator:**
Class Size
CTC Operations Officer/Author: Bill Braniff

Summary:
On a scale from 1 to 5 in which 1 is Excellent and 5 is Poor, the overall instructor rating for the 32 hours of instruction was 1.44. The class was very quiet at the onset of the training, but asked more questions and engaged in more discussion as the week went on. Having a senior instructor present to facilitate this interaction across the 32 hours proved useful. The CTC intends to continue this practice, especially with the 4 day Regional IT model, which does allow for review and discussion. The comments offered by the class were very positive, and reflect the benefits of the 4 day model. The facilitator at the field office was a very helpful throughout the week.

Class Feedback:

1. The classes are awesome. Military should adopt this program/conference to enhance our knowledge on what is going on with the world and to fully understand what we are fighting for.

2. Overall, this course provided me with a better concept and knowledge of ideologies and origins. It was all very useful.

3. This regional course was superb! 4 days away from my home office allowed the time to fully absorb the content. The CTC is truly an exceptional resource for subject matter experts! Thanks for hosting excellent background information for working this topic. I picked up excellent points for [redacted] Excellent training. Wished I would have had it 10 years ago! Presenters were truly subject matter experts! Thanks for the invite and training.

b7E

4. **Operation Smokescreen** with **Fromme** was most beneficial.

5. Detailed course presented by knowledge experts. Excellent insight to the global issue.

6. I really enjoyed the cultural information presented. It is very helpful in my daily work. **Horn of Africa** was a great presentation. **North Africa** and **Islam in America** were excellent presentations, loved the practical info/knowledge. **Arabic Naming** was very interesting. **Investigating Internet Jihad** was too technical.

7. I would put the **Arabic Naming** block earlier in the course so the knowledge can be applied as we saw names throughout the course. One technique we use a lot in instruction is to blank the screen when we are not directly addressing a bullet or image. That focuses the student on the instructor. The blocks on Tuesday morning had a ton of information that was confusing. I would break the slides down more to convey information in smaller bits. My day to day assignment isn't directly tied to international terrorism. The course did five me perspective on the world situation, ideas for investigative techniques for domestic groups, and things to keep my eye out for. In particular, I will use examples to encourage officers to look at things with an eye towards further information.

8. Great course!

9. [redacted] possessed an extensive knowledge on her topic; however she was less effective in teaching the material and effectively presenting the subject matter.

10. Thanks! Great job! Excellent presentation of information.

11. In general, I would have liked to have seen a combination of PowerPoint and more small videos incorporated into the presentations. All the information is very good, but a video component would benefit those visual learners in the class – maybe some news segments or 20/20 type clips. I have gained so much knowledge from this very informative course. I would highly recommend it to anyone exposed to IT cases. I feel very honored to have taken this course and will take everything I have learned and apply it to my job. My favorite sections were **The Horn of Africa** information and the case study **Operation Smokescreen** with **Bob Fromme**. It was very beneficial to see an entire case from beginning to end and to hear thoughtful advice in conducting cases of our own. I would also like to thank the very knowledgeable staff of instructors, their experiences and expertise helped tremendously. A special note to **Bill Braniff**, who always remembered to give us breaks every hour and encouraged us to interact and ask questions, thank you. I would like to see more **Arabic Naming** on day 1 or 2 to use the information that follow as practice. Plus, names referenced in later sections may have more meaning after knowing their significance and since it is a difficult concept to grasp, people would be more alert earlier in the seminar, by day 4 my brain is in information overload where an engaging case study would be more beneficial.

12. Continue to use PowerPoint as a visual cue/information only, as opposed to relying on it for the entire instruction to teach the subject/class. One of the few LEO classes that is practical and applicable to real life LEO cases/responsibilities. Most LEO classes reinforce the obvious without learning.

13. **Bill Braniff**, glad you facilitated between the class and lecturers, this helped answer "so what?" And provided techniques or considerations for our real work/cases. Absolutely key.

14. Generally, very good. Some of the presentations were too academic in approach, without enough practical information. The terror/criminal relationship was under-represented. **Arabic Naming** was confusing.

15. I have been exposed to the majority of the information offered over many years of working terrorism issues both domestic and foreign. A huge strength of this course was that it provided a logical framework for a more complete understanding of crucial issues. I am amazed that so much practical information was taught without getting into classified material. It was evident that all instructors gave much thought into the preparation and delivery of the subject matter. Overall, one of the best courses taken in a long life career. **Mr. Brown** successfully destroyed some myths about Hamas vs. the US. The **Afghanistan/Pakistan** block was the best I have seen on this subject. **Mr. Brown** was fluent in the subject matter of **South Asian Terror Groups**, but the presentation was too long. **Origins of Shi'a Islam** and **Hizballah** blocks were again the best I have seen. Too much geography vs. terrorism in the **North Africa** block, but the I.D. and interview section was useful.

16. Add an additional case study.

17. I loved the Horn of Africa section. All presenters were great. The class was so useful – almost hated to see it end. How about a part II. Possibly need one more day added – I felt like instruction on Thursday and Friday were a bit rushed.

18. For issue/country/culture specific topics, have a video of in depth versions of this course available on FBI net would be very useful; maybe links to threat or issue specific lectures that are more in depth and geared more towards LE analysis.

19. Could use a recap each morning of yesterday's main points.

20. More videos would help with the blocks of instruction.

I would put the Arabic names block in earlier in the course so the knowledge can be applied as we saw ~~other~~ names throughout the course.

One ~~thing~~ technique we use a lot in instruction is to blank the screen when we're not directly addressing a bullet or image. That focuses the student on the instructor.

The blocks on Tuesday morning had a ton of information that was confusing. I'd break the slides down more to convey information in smaller bits.

I'd keep the survey on a form in a separate form so that it's not on the back of a page with information on it.

My day to day assignment isn't directly tied to ~~terror~~ international terrorism. The course did give me perspective on the world situation, ideas for investigative techniques for domestic groups, and things to keep my eye out for. In particular, I will use examples to encourage officers to look at things with an eye towards further info.

In general, I would have liked to have seen a combination of power point and more small videos incorporated into the presentation. All the information is very good, but a video component would benefit those visual learners in the class - maybe some news segments or 20/20 type clips.

I have gained so much knowledge from this very informative course. I would highly recommend it to anyone exposed to IT cases. I feel very honored to have taken this course and will take back everything that I learned and apply it to my job. My favorite sections were the horn of Africa information and the case study on operation Smokescreen with Bob Fromme. It was very beneficial to see an entire case from beginning to end and to hear thoughtful advice in conducting cases of our own. I'd also like to thank the very knowledgeable staff of instructors - their experiences and expertise helped tremendously.

A special note to Bill Braniff who always remembered to give us breaks every hour and ~~[illegible]~~ encouraged us to interact

18 I'd like to see Arabic naming on day 1 or 2 to use the information that follows as practice. Plus, names referenced in later sections may have more meaning after knowing their significance and since it is a difficult concept to grasp, people would be more alert earlier in the seminar, by day four my brain is in information overload where an engaging case study would be more beneficial.

I have been exposed to the majority of the information offered over many years of working terrorism issues both domestic and foreign. A huge strength of this course was it provided a logical framework for a more complete understanding of crucial issues. I am amazed that so much practical information was taught w/o getting into classified material. It was evident that all instructors gave much thought into the preparation and delivery of the subject matter. Overall, one of the best course taken in a long LEF career.

6. Successfully destroyed some myths about Hamas vs. the US.
7. Best I have ever seen on this subject.
8. Fluent in subject matter, but presentation was too long
13 & 14. Again, best I have seen.
15. Entertaining, but overtaught and too long.
9. Diaspora should have been clearly defined at the outset.
16. Too much geography vs. terrorism. Too many attempts to be funny. I.D. and in the view was useful
18. Good presentation in time allowed. Have had more extensive course.

Generally, very good. Some of the presentations were too academic in approach, without enough practical application. There was an understood of an agenda

AIC drowned out some of the safety speakers speakers.

The terror/criminal relationship was under-represented.

For issue/country/culture specific topics, having a video of in depth versions of this course available on FBInet would be very useful; Maybe links to threat or issue specific lectures that are more indepth and geared more towards LE analysis.

Date of Report: September 21, 2009 b6
Class: FBI Regional Training b7C
Training Dates: September 15-18, 2009
Training Coordinator: [redacted]
b7E **Class Size:** [redacted]
CTC Operations Officer/Author: Bill Braniff/Vahid Brown

Summary:

On a scale from 1 to 5 in which 1 is Excellent and 5 is Poor, the overall instructor rating for the 32 hours of instruction was 1.42. The class was engaged throughout the four days of instruction, and the venue coordinators were helpful. This was another iteration of the new 4-day model, and based on the feedback the only complaint the class had with the format was that it was too short; in other words, this class further confirmed that the 4-day model is an improvement over the 3-day sessions. This was the first time that Vahid Brown provided overall coordination of the event, though Bill Braniff led the first day. Interjections and interventions by Brown worked especially well with [redacted] blocks and on [redacted] block on Islam in America, but not as naturally with [redacted] North Africa blocks, [redacted] HOA blocks, or [redacted] interview blocks. b6 b7C

This was the second time that Bob Fromme was asked to teach the Hizballah block, and it was not well received [redacted] presentation at the end of the conference on Interview and Interrogation was very poorly received; at her first break mid-way through her presentation a sizeable portion of the class turned in their surveys and left for the day. She did not succeed in linking her experience conducting interviews on Islamism with the particular interests and challenges of U.S. law enforcement. CTC does not currently plan to include this block of instruction in future training events. Though the feedback reflects these issues with these two presentations, it also indicates that the training event as a whole was very well received. b6 b7C

Class Feedback:

1. **The Horn of Africa** block was extremely relevant to my work. It provided great insight to the culture and conflicts.

2. **Vahid Brown** is among the best presenters I've encountered in any in-service. This training was fantastic, but could have been longer. [redacted] and [redacted] need improvement [redacted] was not bad, but pales in comparison to **Brown**. [redacted] needed to focus on how to actually conduct interviews and interrogations.

b6
b7C

3. Excellent course – one of the best I have attended. **Interview and Interrogation** was somewhat interesting to what I do, but seemed more like a speech or a collection of anecdotes.

4. Overall, excellent course for information. All instructors were very knowledgeable of their subject matter, and presented their portions very well.

5. There were too many tangents/anecdotes during the **Islam in America** block. **Operation Smokescreen** was a mostly disjointed war story. Fox New special was much better. See if you can use that one. [redacted] in the **Horn of Africa** block. [redacted] was too academic/theoretical - I felt considerable disconnect from what I do.

b6
b7C
b7D

6. All excellent topics, speakers and opportunity for interaction. Outstanding resource materials/text. I would like to see more examples of financing techniques originating from the U.S. and charity contributions – how they are connected. **Islam in America**

22. Best in source training I have attended. The information was outstanding and applicable (which is sometimes unusual). Subject matter experts (all instructors) are to be commended! My only criticism -- Instructors are so familiar with materials, Arabic names, etc. They are pronounced too quickly for non-Arab speakers. Slow down when pronouncing names/place names. **Lebanese Hizballah** was a disjointed presentation, but good case study. **The Horn of Africa** presentation provided phenomenal information, give the presenter more time, it was hard to follow. **Interview and Interrogation** provided interesting information/presentation, but not as applicable to FBI mission (different approaches required) but good perspective!

23. If the info is available, it would be good to get information on areas where terrorists and their supporters/activities are concentrated in the U.S. [redacted] The practical info such as the U.S. ethnic communities, indicators of terrorist activity, etc. was helpful and can be useful in my work. I would have liked more information on madrasas in Pakistan that were not covered in the lecture. During the **Hizballah** lecture, the May 14 coalition was referenced. I think it's the March 14 coalition. Would have liked more information on different terrorist groups and tactics, recruitment, even if only reference material (as opposed to lecture). **Interview and Interrogation** would have been more helpful if the person gave examples from US-Muslims as opposed to foreign born. b7E

24. I came with very little knowledge. A pre-study guide with definitions/glossary would have been great. A map handout would also have helped. S. Asia? SE Asia? Awesome class. Great instructors. Thanks.

25. The course was great and extremely informative. The only recommendation I would make would be to have a subject matter expert instruct the **Lebanese Hizballah** block. **Mr. Fromme** was excellent in discussing the case study, but may not be the best suited to discuss the group in general. Overall, one of the best courses I've ever taken. Thank you.

I (WE) ARE VERY FORTUNATE TO GET A HIGHLY EDUCATED STAFF TO PRESENT AN INTELLIGENCE CLASS ON A TOPIC THAT CAN SEEM INTIMIDATING AT TIMES. I COME FROM A CI-CT BACKGROUND AND WILL BE ABLE TO USE THIS INFORMATION EVERYDAY. UNFORTUNATELY WE NEED A MONTH OR SO MORE, NOT JUST A WEEK! THE INSTRUCTORS AND WAY THAT THE INFORMATION WAS PRESENTED WAS ON POINT WHAT ATTENDING A RAND MEETING. VERY GOOD.

12-13 I WANTED MORE ON THESE TOPICS AS THEY DIRECTLY RELATE TO MY EVERYDAY CT CASE WORK. WALID BROWN IS AN INCREDIBLY CHARASMATIC SPEAKER WHO DISPLAYS A GENUINE PASSION IN THE TOPICS HE ASCUSSED. IF HE CAN MAKE COUNTER INTELLIGENCE SOUND AS INTERESTING, SIGN ME UP! OVERALL, I FELT THE QUALITY OF INFORMATION AND THE RESOURCES USED TO DELIVER IT WERE WELL WORTH THE TIME AND MONEY.

THANK YOU

P.S. 15. A BIT WEAK IN COMPARISON BUT IT LEAD INTO A INTERESTING CASE STUDY.

The course sections were appropriately organized, but within each section, presenters would often jump around through slides. This makes it more difficult to follow and leaves us trying to figure out which slide we need to be on. The days are also very long. The class is extremely [redacted] interesting, but 8 hours of lectures get tedious. Possible ways to remedy this would include video or audio clips, more case studies, etc. Great class overall, though. Very interesting and informative. Instructors obviously are experts in their fields.

A class that could be added in would be "Future of Terrorism" giving us outlooks for various types of terrorism and specific indicators for a developing threat for specific terrorist groups in our AORs.

19. The topic was interesting, but we weren't shown how to do any of it. Getting a quick practical lesson would have been more helpful rather than a quick lesson on what investigative action can be done... by someone else.

10. This was good, but we were primarily given just an overview of the region. Not much time was spent focusing on terrorism.

20. This course may have been better taught by an FBI SSA with experience in IT interviews/ interrogations, who know the nuances and regulations and interests present in FBI interviews.

4. Overall excellent Transition and Content. However updated case study Concerning Current Trends regarding [redacted] activities in U.S. seemed to be brushed over. In our particular AO, this is a significant Pressure and Concern. Most, if not all, of our TFA/TFO and SA personnel understand Arab Sunni extremism, but there is still a significant amount of ambiguity when we talk about Cultural and Criminal activity surrounding the Central Asians. b7E

#20 - interesting but not particularly relevant to day to day LE operations. Academic researches do not do interrogations. An interview done by a University professor has different objectives than a police interview.

Day 1 → good overview of Terrorism & Islamic Ideologies

Day 2 → had a good breakdown of some of the different organizations & player heads –

Day 3 → was nice to see how the case example of Operation Smokescreen and how a multi-agency ~~be~~ worked together –

Day 4 → was a good background on other areas that terrorist organizations arise. Additionally, the tools used – specifically the internet – was great to see and understand how they are able to communicate around the world.

Information provided was useful in understand methodology and ideology of the organizations that we have under investigation. Anyone working CT matters would benefit from taking this course

#17) part IV of presentation should be included in part I as part of the background – rather than having to go back to the history after we had already mutually discussed it earlier in the presentation – The flow would be better and the subsequent sections would be more cohesive ⇒ for the time alloted there is almost too much focus on background and too little time focused on law enforcement concerns & assessment

#20) presentation may work better if presented in a case overview with powerpoint slides of the numerous successes and difficulties rather than a lecture of what techniques should work based on her research that may not necessesarily be generalized to other interviews/interrogations ⇒ specifically if interview techniques by a researcher can translate equally for law enforcement personnel. If presented as a case overview – would flow better for the purpose of awareness by law enforcement and the challenges that are faced and how she was able to overcome some challenges

BEST IN SERVICE TRAINING I HAVE ATTENDED. INFORMATION WAS OUTSTANDING AND APPLICABLE (WHICH IS SOMETIMES UNUSUAL).

SUBJECT MATTER EXPERTS (ALL INSTRUCTORS) ARE TO BE COMMENDED!

ONLY CRITICISM- INSTRUCTORS ARE ~~SO~~ FAMILIAR W/ MATERIALS, ARABIC NAMES, ETC ARE PRONOUNCED TOO QUICKLY FOR NON ARAB SPEAKING COMPREHENSION! SLOW DOWN WHEN PRONOUNCING NAMES / PLACE NAMES.

FBI-CTC Collaborative
After Action Report [redacted] b7E

Date of Report: November 23, 2009
Class: FBI Regional Training
Training Dates: November 17-20 b6 b7C
Training Coordinator: [redacted]
b7E **Class Size:** [redacted]
CTC Operations Officer/Author: Bill Braniff

Summary:

On a scale from 1 to 5 in which 1 is Excellent and 5 is Poor, the overall instructor rating for the 32 hours of instruction was 1.62. The class was engaged throughout the four days of instruction, although the availability of networked computers in the back of the room did entice some students to check in on their inboxes and active cases during the instruction. As always in [redacted] b6 b7C b7E were very helpful coordinators. This was another iteration of the new 4-day model, and based on the feedback the only complaint the class had with the format was that it was too short; in other words, this class further confirmed that the 4-day model is an improvement over the 3-day sessions. This was the first time that Vahid Brown provided overall coordination of the event, though Bill Braniff led the first day. Interjections and interventions by Brown worked especially well with [redacted] blocks and on [redacted] block on Islam in America, but not as naturally with [redacted] North Africa blocks [redacted] HOA blocks, or [redacted] Interview blocks.

Primary Critiques
- The printed versions of the slides were difficult to read
- The North Africa block and the internet block were too long for their relevance

Additions Suggested by Class
- Provide this training to the FBI's Intelligence Analysts at their basic course (see #21 below)

Class Feedback

1. Great course! When [redacted] explained and broke down names, it was difficult to keep track of what/where the name reference was. For example instead of using "kunya" or "ism", maybe breaking it down by using A, B, C, or D. When she would say "this is kunya" I could not figure out what part or where in the name "kunya" belonged. b6 b7C

2. Topics discussed were very knowledgeable and informative. This will be an asset in my endeavors.

3. **Terrorist Groups and the Internet** and the last portion on investigative techniques and examples were good. Otherwise the information was overly generalized. I would like to have has **Arabic Familiarization** at the beginning of the course, it would help give a better understanding of names and terms used in the rest of the course. Outstanding course. I highly recommend the presentations to State and Local Law Enforcement.

4. Overall, an electronic copy of the PowerPoint presentations would be useful, since the printed copies are hard to read.

5. Some of the materials (PPT's) in the handout are hard to read, this makes it difficult to go back and re-read/review. The biggest issue with the order was waiting to do some history/background on later days. I have had no formal CT training until now, and felt a little behind until all background was covered. Class was overall extremely well put together and informative and relevant to my work. I was very impressed with the instructors, materials and presentations. I really enjoyed the lectures by **Vahid Brown**. It was evident he is extremely intelligent, but was able to teach at our level. He is an

excellent speaker and conveys the lecture very efficiently and effectively. There was significant focus on history during **Islamism and Militancy & The Muslim Brotherhood** and less on application today. **Terrorist Groups and the Internet & Combating the Global Jihad Online** were really good – they got a little deep at times, but still relevant. **Arabic Naming** was way too deep, [redacted] taught over the class' head, used too much Arabic and had us all lost after the first 5 minutes. **North Africa** was a very good presentation. **Terrorist Cell Typology** was extremely informative and useful more than just on an intel level – very helpful with day to day work. **Jihadist Radicalization, Origins of Shi'a Islam, Hizballah, & Operation Smokescreen** were the best blocks of training through day 3. **Modern Jihadist Groups** was extremely informative, very beneficial, and very well done! **The Horn of Africa** was really heavy material for the last day, consider moving this presentation to an earlier time. b6 b7C

6. For most blocks, I am sure this course was at an appropriate level of detail and complexity. I have a background in biochemistry and have only been with the Bureau for one year, a lot of this is new. **Muslims in America** presentation was very entry level – maybe good to start with this block – if the schedule allows. I am currently working white collar crime. This course was to widen my knowledge base, allowing me to help in additional fields. **Modern Jihadist Groups** was a great presentation and the PowerPoint slides were very educational and beneficial. I really enjoyed each presentation/presenter. The information was great and. Everyone's education and subject matter knowledge is impressive.

7. During the **Origins of Islam** block, some terms like Fatwa, were used without further explanation. The presentation was not at a basic level for some in the audience and was over their head. Before going into [redacted] in the **Terrorist Groups and the Internet**, good presentation otherwise. [redacted] had a hard time conveying her message and speaking to a basic level audience. Instead of using Arabic terms, break it down like A+B+C, not ism+kunya, etc. She lost the audience in less than 5 minutes, sad because of its importance. The handouts were too light to read in some columns. **The Horn of Africa** was very in depth. Great topic, great information, but hard to digest in one huge clump. Can you break it up in to two blocks? b6 b7C

8. While I primarily work Domestic Terrorism matters, this course has prepared me to competently assist in cases. I do not see the value in focusing on **Muslims in America**. The issue at hand seems to be trends involving militant Muslims. That being said, the familiarization with customs and practices is valuable.

9. Have you considered inviting [redacted] to present on Afghanistan? [redacted] is a renowned expert on Afghanistan. Not that Vahid does not know about what he is talking. Overall, everything was great. b6 b7C

10. All presenters seemed very knowledgeable and were able to answer questions. They provided much more than a slide by slide presentation and did not appear to rely on reading from the PowerPoint. **Internet & Arabic Naming** were a bit long and too specific. An overview would have sufficed. Occasionally, I felt too much time was spent on history rather than current issues, although I felt most of the history was useful. I primarily noticed this on **North Africa**. **Combating the Global Jihad Online** was an interesting discussion but seemed too specific or too general. It would have been better to have a big picture discussion of what we can find out on the internet or else step by step directions on how to do an actual investigation. A shorter lesson on **Arabic Naming** with more references would have been more useful.

11. I plan to use the knowledge and skills learned to build a relationship with members of the prison system to help with situational awareness of groups in and out of the prison

system who could possibly become sources or target subject to watch. **The Muslim Brotherhood** block of instruction was very helpful because it gave me insight into the mindset of militancy in the Islamic world.

12. On Day1, both instructors, **Braniff and Brown** were well organized and their level of course curriculum/subject knowledge was phenomenal. **Arabic Naming** was difficult to grasp, but [redacted] was awesome. Failed plots should be reviewed and presented for value intel/identify investigative approach. Overall, the course did provide an extensive overview of Terrorism, Islam and Politics. **The Horn of Africa** was found to be very intriguing and a great topic. Provided materials covers pertinent reference/summaries that will assist in day-to-day job responsibilities. Attendee was recently assigned to JTTF with no prior exposure to either Terrorism and/or Muslim culture, extremists, etc. The block of instruction was found to be not only useful but informational. b6 b7C

13. I will use all courses to further my knowledge of the Muslim and Arabic world. The class was very helpful. I really enjoyed [redacted] class. The material needed to be larger in print [redacted] really made the class interesting and got to the point. She needed more time. b6 b7C

14. I enjoyed the course. It was very informative and well taught. I do feel that the topic was too broad. It was a lot of information to absorb in 1 week. It might be more useful to have two classes. One on AQ/Salafi-Jihad and the other on Islam as a whole. I will recommend this course to my co-workers. It would be very useful for the students if the slides were larger. It was hard to read the text written in the slides. Possibly even provide an option for the students to obtain an electronic copy of the presentations.

15. Excellent speakers and very knowledgeable regarding the subject. The briefings/lectures were very practical and the discussions were very lively. The instructors provided valuable resources to aid the audience within our various agencies. I would highly recommend this course to my colleagues and others. The information was very informative.

16. I wish **Bill Braniff** wouldn't walk around so restlessly during his presentations. I thought [redacted] did better after she warmed up a bit and could relax. The language stuff can be a bit of confusing, but her lecture helped clear some of it up. **Vahid Brown** is a really good presenter and very engaging. b6 b7C

17. Very informative.

18. Instructors need to take a more intermediate approach for those of us who are less experienced in CT matters.

19. Excellent course. It helps CT veterans get a refresher over the basics and origins of IT and synthesize information from case work and perhaps identify intel gaps. **Origins of Shi'a Islam & Hizballah** were both very interesting. My rating of 3 reflects that I don't work Hizballah very much.

20. All topics covered were good. Some topics such as **Arabic Naming & North Africa** were helpful but in way too much detail. I would recommend reducing those to "dumbed down" 15-20 min lectures. **Bill Braniff** did a good job of restating things in a simplified manner that may have sounded complex from speakers. Don't schedule AQ, Hamas, or Hizballah immediately after lunch break. **Operation Smokescreen** was really good. **Arabic Naming** should use commonly known or important name examples (i.e.Usama Bin Laden, Muhammed Abd al-Salam Farraj).

21. I have been an FBI Agent for almost [redacted] years, majored in [redacted] in college, and have worked and/or taught CT matters for the past [redacted] years. These were the best informed instructors and this was the best CT class I have attended. The classes were thorough and informative and instructors were able to answer all questions posed to them. I would recommend this class be taught to Analysts in their Basic Course and that it be offered to CT Agents a year or so after they graduate from the Academy as a refresher. Fantastic course! I knew a lot coming in but still learned a great deal and was able to have some questions I had answered by these experts.

I enjoyed the course. Very informative and well taught. I do feel that the topic was too broad. It was alot of information to absorb in 1 week. Might be more useful to have 2 seperate classes, one on AQ/Salafi-jihad and the other on Islam as a whole.

I will recommend the course to my co-workers.

It would be very useful for the students if the slides were larger. Hard to read the text as written in the slides. Possibly even provide an option for the students to obtain an electronic copy of the presentations.

Excellent Speakers and very knowledgeable regarding the subject. The Briefings/lectures were very Practical and the discussions were very lively. The instructors provided valuable resources to aid the audience within our various agencies. I would highly recommend this course to my colleagues & others. The information was very informative.

"ONLY complaint" - Slide presentations need to be clearer as well as in the Book.

I wish Bill Braniff wouldn't walk around so restlessly during his presentations.

I thought [redacted] did better after she warmed up a bit. And could relax. Her language stuff can be a bit confusing, but her lecture helped clear some of it up.

Vahid Brown is a really good presenter and very engaging.

DAY #1 BOTH INSTRUCTORS WERE well organized and level of COURSE CIRRICULUM / subject of knowledge WAS Phenominal.

DAY #2 Arabic Naming Block FOUND difficult to Grasp BUT INSTRUCTOR WAS AWESOME.

DAY #3 Failed Plots SHOULD BE REVIEWED & PRESENTED FOR Value INTEL / IDENTIFY investigative APPROACH

DAY #4 OVERALL COURSE DID PROVIDE AN EXTENSIVE OVERVIEW OF TERRORISM, ~~4~~ ISLAM, AND POLITICS. SOMALIA Briefing was Found to BE VERY INTRIGUING. AND A GREAT TOPIC. ~~4~~ ATTENDEE overheard A Few STUDENTS mentioning there is little to NO INFO Addressed about Country as THROUGH other TRAININGS received QUICK.

PROVIDED Materials COVERS pertinent REFERENCE/Summaries that will ASSIST in DAY-TO-DAY JOB responsibilities.

ATTENDEE WAS RECENTLY ASSIGNED TO JTTF WITH NO PRIOR EXPOSURE TO EITHER TERRORISM AND/OR MUSLIM CULTURE, EXTREMISTS, ETC. THE BLOCK OF INSTRUCTION WAS FOUND TO BE NOT ONLY USEFUL BUT INFORMATIONAL.

ARABIC NAMING - Although instructor was Great, this Presentation needs to BE dummied down [redacted] Possibly using English names As Parallel EXAMPLES. THIS BLOCK WAS difficult to Grasp.

Course successfully provided Attendee fundamental ideology of IT Groups.

2 I plan to use the knowledge + skills learned to build a relationship w/ members of the Prison System to keep with being situationally aware of groups in and out of the prison system who could possibly become sources or target subject to watch.

#5 The Muslim Brotherhood block of instruction was very helpful because it gave me insight into the mindset of militancy in the Islamic world.

6. All presenters seemed very knowledgeable and were able to answer questions. They provided much more than a slide by slide presentation & did not appear to rely on reading from the powerpoint.

3. ~~#~~ Two sections – Internet & Arabic Naming - were a bit long & too specific. An overview would have sufficed. Occasionally, I felt too much time was spent on history rather than current issues, although I felt most of the history was useful. I primarily noticed this on N. Africa.

8 - interesting discussion but seemed too specific or too general. It would have been better to have a big picture discussion of what we can find out on the internet or else step by step directions on how to do an actual investigation.

10 A shorter lesson with more references would have been more useful.

*some of the material (power points) in the handout are hard to read – makes it difficult to go back & re-read/review.

*Biggest issue of order was waiting to do some history/background on later days. I have had no formal CT training until now, and felt a little behind until all background was covered.

* Class was overall extremely beneficial well put together & informative & relevant to my work. I was very impressed with the instructors, materials, & presentations.

#5 - significant focus on history, less on application today.

#8 - Really good - got a little deep at times - but still relevant.

10 - Way too deep - instructor taught over the class' head. Used too much Arabic & had us all lost after the 1st 5 minutes.

11 - Very good presentation - just don't do much at work w/ north Africa.

* Really enjoyed lectures by Brown. Texas evident he is extremely intelligent, but was able to teach at our level. He is an excellent speaker & conveys the lecture very efficiently & effectively.

20. Really heavy material for the last day. Might consider moving to an earlier block.

19 extremely informative & useful. Very beneficial, very well done!

12. Extremely informative & useful - much than just an mid level - very helpful of day to day work.

#3-for most I am sure this was an appropriate level. I have a background in biochemistry and have only been with the Bureau for a year - a lot of this is all new.

#4- Muslim's in America presentation was very entry level - may be good to start with - if schedules allowed. Really helped to tie in information from day 1 material.

In addition - modern jihad presentation would be great to follow

3. Some terms, like fatwa, were used without further explanation. The presentation was not at basic level for some in audience and was over their head.

7. Before going into the speal on [redacted] explain who he is. Good presentation Otherwise.

10. Presenter had a hard time conveying her message & speaking to a basic level audience. Instead of using Arabic terms, break it down like A+B+C, not ism + kunya + patron, etc. She lost audience in less than 5 minutes. Sad because of its importance. Handouts too light to read in some columns.

20. very in depth. Great topic, great information but hard to digest in one huge clump. Can we break it up into two blocks? Yes

10 - When the instructor explained and broke down names it was difficult to keep track of what/where the name reference was. For example instead of using "kunya" or "ism", maybe breaking it down by using A, B, C or D. when she would say "this is the kunya" I could not figure out what part or where in the name "kunya" belonged.

Comments – Use item number and provide specific feedback. Terrorist groups & the Internet: the last portion on investigative techniques & examples was good. Otherwise the information was overly generalized.

I would like to have had "Arabic Familiarization" at the first of the course - it would help give a better understanding of names and terms used in the rest of the courses.

Outstanding Course - I highly recommend presentation to the State & local law Enforcement - STRAT with State Chapters of the FBINA.

FBI-CTC Collaborative
After Action Report b7E

Date of Report: March 4, 2010
Class: FBI Regional Training b6 b7C
Training Dates: January 26-29, 2010
b7E **Training Coordinator:**
Class Size
CTC Operations Officer/Author: Bill Braniff

Summary:

On a scale from 1 to 5 in which 1 is Excellent and 5 is Poor, the overall instructor rating for the 32 hours of instruction was 1.42. The class became more engaged throughout the four days of instruction, but were quiet relative to other Regional classes. The extended schedule along with having a senior instructor on-site does allow the class to get more comfortable over the course of the week. was very helpful in her role as coordinator. Alex Gallo attended the last day of the training and participated along-side of during the Afghanistan and Pakistan lectures, providing a practitioner's point of view and providing current information based on The combination of cultural and historical knowledge, with Alex's practitioner's perspective, was very powerful. b6 b7C

Class Feedback:

1) Great course program. Constructive feedback: 1) show the audience/students how some different organizations in the U.S. government, intel, police, and military deal with issues and 2) for FBI classes maybe a brief by HQ's – presented or given by DVD that speaks to issues. [redacted] gave good examples. **Braniff** may want to mention that religious wave of terrorism in the past may be a moving wave through history and not just by Islam. During **Hamas** lecture, discuss the general plight of the Palestinians so that FBO interviewers can appreciate issues and show understanding in interviews. [redacted] provide pictorial of various terror cells in the Africa/Kenya 1998 bombing case.

b6
b7C

2) The course as a whole was amazing! Around the only two points I can make are for presenter [redacted] who could use some better comparative maps and [redacted] – so amazing in knowledge, but I think the points could be better discussed by relating to the audience – problem though there was just not enough time.

b6
b7C

3) The **Operation Smokescreen** case study was an excellent way to demonstrate how they organize a criminal enterprise to fund their terrorist organizations.

4) The additional resources provided (Terrorism and Political Islam, etc.) are a valuable asset in attending this course. The reference materials captured in the agenda are great resources also. FBI contribution: One suggestion is to provide the attendance list to all participants as well as a segment to capitalize on region representative's common interests – a group builder. The specific information on **Culture & Customs** is extremely helpful to enhance our interviewing capabilities. During **South Asian Terror Groups** [redacted] Madrassa topic is of importance to better understand the differences. Overall an excellent baseline of history and its relevance to today's environment! A type of training to continually attend.

b7E

5) [redacted] has a distracting habit of pacing while he talks. A close-up map of Israel-Gaza-West Bank would be helpful. **Lt. Fromme** was superior. Real-life is best teacher. [redacted] is very knowledgeable, but difficult to follow [redacted] provides a very good perspective from the diplomatic view. Information was often totally new.

b6
b7C

6) Sometimes class moved too fast, or the instructor did not cover all points on the PowerPoint. Other than that, great class! Great classes. **The Arabic Naming** class was a little too technical – difficult to follow at times. Maybe more graphical aids and a simpler presentation would be better. **Terrorist Cell Typology** class is too academic. Taught like a business class. **Operation Smokescreen** was outstanding. **The Horn of Africa** was great too.

7) Excellent course and very informative.

8) Excellent classes. Most helpful is that the teachers have hands-on experience in regions they are teaching about. That's the most valuable part of these courses for me. It was also a good refresher of information that I knew but had forgotten over time.

9) The course content was covered in detail, with the exception of the case studies, especially the ones that resulted in prosecution. As investigators, it would have been helpful if you covered the cases in more detail. Since the cases were prosecuted, you have access to a lot of open source materials, such as indictments, trial transcripts and/or complaints. It would have been helpful to detail the proof used to prosecute these individuals and how the agents were able to prove material support for terrorism.

10) Tangential discussions were a little too lengthy and it was difficult to remain on point and learning as various sub-points were made. Give citations of information, particularly when figures are cited. At times presenters confused points others made. Many statistics were thrown out with no sources given.

11) Lots of knowledgeable, passionate instructors – good stuff. Overall, an excellent overview of the origins and ideologies from the perspective of a terrorism investigator at the local level. I will highly recommend this course to me peers. And I'll probably come back again myself.

12) All presenters are very informative and full of useful knowledge.

13) **Arabic Naming** contained good information, but needs an earlier time slot. After lunch is not a good time for that type of lecture. I was unable to read the chart on slide # 5 in the **Modern Jihadist Groups** lecture due to the background color.

14) This was an excellent and very useful course. It was evident that the instructors were very knowledgeable on this subject matter. The reference material which was provided will also be very useful. The desk-side reference book looks great. Hopefully, we will receive updates for it. Thank you for the important and useful training. **CTC Introduction** was good, but could be shortened. [redacted] did not hold my interest, presentation was dry. **Braniff** was excellent. [redacted] was a good speaker and had useful information. **Arabic Naming** was useful but hard to grasp. **Origins of Shi'a Islam, South Asian Terror Groups and Modern Jihadist Groups** were excellent and very useful. **The Horn of Africa** lecture was very informative.

b6
b7C

15) Streamline the **Muslim Brotherhood**. Switch **Operation Smokescreen and The Horn of Africa**.

16) **The Origins of Islam** should be discussed prior to **The Strategy of Terrorism** for a better understanding of the key religious origins. **Arabic Naming** could have been a bit slower and more guided – it was a lot thrown out at once for someone unfamiliar with Arabic names. [redacted] interacted well with the audience with videos, asking questions, and drawing diagrams. In general, more photos and videos would be more interactive and beneficial in understanding certain topics rather than strictly lectures.

b6
b7C

17) 5 Star rating overall for the entire training, exceptional!! Every presenter was extremely knowledgeable and possessed great skills at presenting. Great job at making complex information understandable. Highly useful to my job.

18) Sometimes the course was too detailed, but better than not enough.

19) Excellent course. Give slightly longer breaks so we can return our phone calls and check our e-mail. **The Horn of Africa** was pretty good, but way too much information for a Friday afternoon, cut this in half. **Arabic Naming** was a little tough to understand. **Oluic** was an outstanding, excellent speaker on the Balkans. Excellent presentation on **Operation Smokescreen**.

20) Overall this course was informative and beneficial. The course was presented in a very professional manner with the material presented most beneficial in anyone's job description working CT or assigned to a JTTF unit.

21) The course is an eye opener. The course explained in detail the roots of terrorism, and its future. The presenters were very well informed, passionate about the subjects and the materials were well prepared. I am impressed by the presenters and their knowledge and they gave us the chance to ask questions and were clear with their answers. **Braniff** was very well informed – excellent flow of information [redacted] was easy to understand – well informed [redacted] took a very hard subject and explained it very well. **Afghanistan/Pakistan and South Asian Terror Groups** were extremely informative – well delivered. b6 b7C

22) Suggestion: It would be very useful to see a block dedicated to terrorist financing. Specifically where are major groups getting their money? How is the money delivered, spent/managed? In terms of a state actor like Iran, how do they finance radical movements? What vehicles do they use to move that money? Where are the vulnerabilities in this system? It would be good to hear this considering this is how they run. There are still misconceptions about bin Laden's wealth. The man is broke, where is AQ getting money? How do they actually raise funds? Is it through drugs or donors? Who are the donors and how do they deliver donations? *Maybe a note on Iran's ability (or inability) to fund effectively a large army due to restrictions in Islamic law or, a look at how Iran uses the international financial system despite Islamic law. Excellent awareness on LET. We don't get enough educated guesses on what's coming next.

23) This was an excellent course. I am going to recommend this course to my fellow analysts as it provides a very good general review of the history and the regions of the cases. I now have a better understanding of the Shia/Sunni divide and I have appreciated the interaction and the "encouragement" of contributing to the discussion. Good background on **The Horn of Africa**, but the slides were a little out of order. Sometimes it was difficult to hear [redacted] but great presentation. Remember to stress how this applies to law enforcement. Key-takeaways were good. b6 b7C

24) All information was very good. It can all be applied to my job.

25) The only thing that I would add to some or all of the presentations would be short videos that might help bring home the message or support the premises of the particular block of instruction. Otherwise, the course is extremely informative, especially for Task Force Officers with little knowledge or experience in international terrorism.

So much to cont but Bravo just great. Found the only 2 points I could make a presentation - [redacted] could use some better comparative maps... on sizing

[redacted] so amazing in knowledge. I think the points could be better discussed by relating to the audience - problem though there was just not enough time

1) The additional resources ~~provided~~ (Terrorism + Political Islam, etc) is a valuable asset in attending this course. The references captured in the agenda are great resources also.

FBI Coordinator's Suggestion is to provide the attendance list to all participants as well as a segment to capitalize on region representatives common interests - a group builder.

[redacted] ha, a distracting habit of pacing while he talks.
A closeup map of Israel-Gaza-West Bank would be helpful.
Lt. Fromme was superior, real-life is best teacher.
[redacted] very knowledgable, but difficult to follow.
[redacted] provided a very good perspective from the diplomatic view. Information was often totally new.

Great classes. The Arabic Naming class was a little too technical - difficult to follow at times. Maybe more graphical aids and a simpler presentation would be better.

Terrorist Cell Typology class is too Academic. Taught like a business class.

The Case study was outstanding. Horn of African great, too

Excellent classes. Most helpful is that the teachers have hands-on experience in regions they are teaching about. That's the most valuable part of these courses for me. It also was a good refresher of information about information that I knew but had forgotten over time.

The course content was covered in detail, with the exception of the case studies, especially the ones that resulted in prosecutions. As investigators, it would have been helpful if you covered the cases in more detail. Since the cases were prosecuted, you have access to a lot of open source materials, such as indictments, trial transcripts and/or complaints. It would have been helpful to detail the proof used to prosecute these individuals and how the agents were able to prove material support for terrorism.

This was an excellent and very useful course. It was evident that the instructors were very knowledgable on their subject matter. The reference material which was provided will also be very useful. The desk side reference book looks great. Hopefully, we will receive updates for it.
Thank you for the important and useful training.

3. The origins of Islam should be discussed prior to the Strategy of Terrorism for a better understanding of the key religious origins.

9. The naming section could have been a bit slower & more guided - it was a lot thrown out at once for someone unfamiliar with arabic names.

In general, more photos and videos would be more interactive & beneficial in understanding certain topics rather than strictly lectures.

The course is an eye opener. The course explained in details the roots of Terrorism, and its future. The presenters were very well informed, passionate about the subjects and the materials were well prepared. I am impressed by the presenters and their knowledge and they gave us the chance to ask questions and were clear with their answers.

* SUGGESTION - IT WOULD BE VERY USEFUL TO SEE A BLOCK DEDICATED TO TERRORIST FINANCING. SPECIFICALLY WHERE ARE MAJOR GROUPS GETTING THEIR MONEY? HOW IS THAT MONEY DELIVERED, HOW IS IT SPENT/MANAGED? IN TERMS OF A STATE ACTOR LIKE IRAN, HOW DO THEY FINANCE RADICAL MOVEMENTS? WHAT VEHICLES DO THEY USE TO MOVE THAT MONEY, WHERE ARE THE VULNERABILITIES IN THIS SYSTEM?
IT WOULD BE GOOD TO HEAR THIS CONSIDERING THIS IS HOW THEY RUN THERE ARE STILL MISCONCEPTIONS ABOUT BIN LADEN'S WEALTH. THE MAN IS BROKE, WHERE IS AQ GETTING MONEY? HOW DO THEY ACTUALLY RAISE FUNDS? IS IT THROUGH DRUGS OR DONORS? WHO ARE THE DONORS AND HOW DO THEY DELIVER DONATIONS?

* MAYBE A NOTE ON IRAN'S ABILITY (OR INABILITY) TO FUND EFFECTIVELY AT LARGE ARMY DUE TO RESTRICTIONS IN ISLAMIC LAW

This was an excellent course. I am going to recommend this course to fellow analysts as it provides a very good general overview of the history of the region and the cases. I now have a better understanding of the Shia/Sunni divide and I have appreciated the interaction and the "encouragement" of contributing to the discussion. I also have appreciated how they stress what law enforcement offices should do (EX. Question to ask, groups etc.)

The only thing that I would add to some or all of the presentations would be short videoes that might help bring home the message or support the premises of the particular block of instruction. Otherwise the course is extremely informative, especially for Task Force officers with little knowledge or experience in International Terrorism.

Summary:

On a scale from 1 to 5 in which 1 is Excellent and 5 is Poor, the overall instructor rating for the 32 hours of instruction was 1.56. The class was engaged throughout the four days of instruction. Bill Braniff became quite sick over the course of the week, and as a result relied more heavily on the individual subject matter experts to co-teach some of his blocks of instruction, specifically the Hezbollah block at the end of the week. Both [redacted] and SSA [redacted] made themselves available throughout the week. There was no representation from the ASAC/SAC.

b6 b7C

Primary Critiques
- More time spent on Hezbollah
- More time spent on Yemen

Additions Suggested by Class
- "This course needs to be incorporated into the FBI's SSG training"

Class Feedback:

1) Information is very good.

2) This week of training was by far the best single source of info I have received. It provided a clear and concise historical perspective as it relates to CT. I wish I had this block of training before the first of two deployments to Iraq. Keep up the good work!

3) Well organized, well presented!

4) Great course. Great presenters.

5) The anecdotal illustrations were most helpful in cementing the information in our minds. Thank you! What would be most helpful as a reference would be a list of imagery (logos, etc)

6) [redacted] is one the reasons our FISA and UC laws and regulations are so restrictive.

b6
b7C

7) Excellent presentations! Instructors are knowledgeable (overall) outstanding. Too many slides on population/distribution of Muslims in **Muslims in America** block. There should be one slide. [redacted]s a very knowledgeable presenter. Should have spent more time on culture and customs.

b6
b7C

8) Excellent training.

9) **The Horn of Africa** PowerPoint did not match speaker's presentations. Felt as if things were missed flipping around only to learn the presentations were not in the binder. Update **Case Study**. **Hizballah** needs more training than provided.

10) This is an excellent, comprehensive, easily digestible course that I wish I took when I first became a Task Force Officer. It is the best training I have received explaining the origins/ideologies of Islamic Extremism. Interesting speakers who were all articulate, enthusiastic, and well informed. Some were more relevant to my work and interests than others.

11) [redacted] was an excellent lecturer. b6 b7C

12) Please provide additional instruction on **Hizaballah**. [redacted] b7E

13) Fantastic overall presentation. Instructors were all very knowledgeable and interesting in their presentations. **Origins of Hamas and Balkan Muslim Communities in the U.S.** didn't seem applicable to us.

14) Overall, great presentations. I just wish there was an extra day for extra time to absorb the material. It was great to see the amount of knowledge all of the presenters had.

15) It may be helpful to add an additional ½ day to the course to allow more time for in depth discussion on some topics. Some speakers mentioned that because of time constraints, they couldn't go into more detail on topics.

16) [redacted] is clearly knowledgeable but should use more interactive instructional methods (question the class, use dry-erase board, etc.) instead of relying only on lecture format. **Mr. Braniff** is brilliant and well-spoken; he very clearly links the historical points to their relevance to our mission. **Mr. Fromme's** presentation could have been shorter. b6 b7C

17) **The Horn of Africa** PowerPoint did not match the handout. It was very confusing and hard to take notes.

18) This course needs to be incorporated into the FBI's [redacted] training. b7E

19) I do agree that this course was good, but there was not enough time allocated to cover all the details. Some presenter (s) lacked the full knowledge of the subject. Overall, it was very beneficial for most people with little knowledge about the Middle East and Africa. Thank you.

20) [redacted] had great knowledge and presentations. However, resist filling space with "um" when talking. Great group of presenters and information. Lacking welcoming and initial support from [redacted] access to rooms, local info, hospitality was poor [redacted] b6 b7C b7E

21) Great course.

22) All instructors were very knowledgeable and much appreciated by the audience when sharing experiences with other cultures. Thank you for your time and compassion during presentations.

23) Instructors are very knowledgeable and covey the information in an easy and understandable way. Each section builds upon the prior ones in a logical progression. The overall effect of the class builds practical, working knowledge and insight into the origins, ideologies and methods of the various Islamist groups.

24) This has been the most comprehensive and specific (geographically) information I have received from the Bureau. I have had previously received historical information training on Islam but did pickup a different perspective (as well as more in depth) from this training. Because my job consists of field work, the internet training provided by

[redacted] was the most relevant. I would be interested in attending more training opportunities and would specifically like training geared people working as Investigative Specialists (information collectors). The training provided in this presentation would be very beneficial to the basic training of I.S's because of its historical information/background that helps explain the nature of the cases that are to be worked. The historical information provided the first two days was helpful in providing an overview that was glossed over in my basic training. I have had other training that focused on other aspects and found this to supplement my previous training in a complimentary way. The additional information was helpful since I have basic information/history but not regional information, but do not use it on a day to day basis. **The Balkans** lecture was informative and very well presented. [redacted] All training has been very informational in helping me connect the dots historically/provide background information. I feel this has been very helpful. b6 b7C b7E

25) Good course for a beginner. When going to field offices, you might consider a shorter more in depth look at specific issues (Yemen, Hamas, Hizballah, etc.). All intel I have seen and spoke with other experts about [redacted] Overall the course was a good base of information. **The Horn of Africa** was good but could be a bit more condensed – maybe swap some time to focus on Yemen. Some information on subjects might be useful if provided by a "law enforcement practitioner". **Operation Smokescreen** is very old – most people have heard it already. Good presenter – just old information. b7E

26) Overall this course provided great information on a wealth of topics regarding terrorism and respective groups. The background was just right in helping to understand groups and various diasporas. However, that being said, a few of the lecturers could have honed more on how the topics relate to the U.S. specifically **Terrorist Groups & the Internet, Muslims in America and The Horn of Africa**.

27) The course was educational, beneficial, and interesting. I found segments on the **Balkans, South Asian Terror Groups and North Africa** very informative. In the first 2-3 sessions, I suggest that the speakers include a more comprehensive coverage of the other meaning of jihad. The "personal spiritual struggle and strive, jihad of the heart,, jihad of the tongue..." meaning of jihad was explained in much detail, and rightfully so. However, the other meaning of jihad associated with "fighting and killing often coupled with "in the way of Allah," was touched on very briefly when explaining the offensive and defensive types of jihad. Thanks for a well organized and educational seminar.

28) The course content was very complex and so many topics were covered that one more day would be helpful so some topics did not have to be rushed. While the block on **The Horn of Africa** was very informative, and I do realize that the data is always changing, it would be helpful to have the updated lecture information in the presentation mirror the handbook so it is easier to follow along. I enjoyed the instruction. It was presented well and thoroughly discussed. The spectrum of topics within the subject was so far interesting and by far the most thorough training on this topic I have received.

29) I think CTD needs to add Bureau focus, preferably at the beginning. Looking forward to CTC products. Class should field trip to a local masjid and let them educate us. [redacted] was all over the place regarding customs, appropriate behavior, etc. I think CTD should take 30 minutes at the beginning to review HQ initiatives. **The Horn of Africa** block needs to be updated in the handbook. Need an entire block on Yemen. b6 b7C

30) [redacted] was a good presenter, but his lecture did not follow the book sometimes. This is very distracting trying to find locations to put notes in conjunction with the appropriate talking points [redacted] has not had enough experience in the rituals of Islam to speak authoritatively and he missed many opportunities to explain things that are useful for the investigator to use in interactions. Missing information perpetuates an ignorance that is not helpful for educators. b6 b7C

31) [redacted] needs to spend a lot less time on pie charts and population charts. Focus more time on culture, customs, attire, identifying names, gestures, approach, etc. [redacted] had good information and was a good speaker, but extremely frustrating and difficult to keep up and take notes because his presentation doesn't match back to his PowerPoint slides in the workbook. In general, workbooks with matching PowerPoint slides to speaker are extremely helpful and valuable. Nice to have the ability to move along with the speaker and add notes beside the slides for use as a resource now and in the future. b6 b7C

32) A topic/presentation on Yemen and the rise of importance of [redacted] in the AQ rhetoric would be great. Overall the training was very informative and useful in understanding the motives behind violent Salafis and their tools for recruitment. **The Horn of Africa** presentation was very informative and helpful to understand why the Somali communities in the U.S. have their cultural nuances. b6 b7C

33) Really enjoyed **Braniff** and found [redacted] intelligent in his area and would have like to have heard all his asides in answers to questions. The military person seemed like he felt a lack of communication with the Bureau, but seemed knowledgeable in his area. Use a microphone so all can hear even if you are not the speaker as 'asides' could not be heard. Fascinating speakers, very thorough and intelligent about their subject. b6 b7C

34) As an Investigative Specialist, I do not receive many training opportunities so this class was very beneficial and very enjoyable. The information I learned in this class will assist me in future CT investigations specifically in my analysis. Thanks for the training! **Oluic** was very knowledgeable/entertaining. Kept me interested [redacted] had lots of useful information. **Braniff** was detailed and willing to find answers. [redacted] had wonderful culture information. **Fromme** great character. **The Horn of Africa** needs current slideshow, but good information. b6 b7C

35) I want to note appreciation for comments like "you need to know this" "this is important because" "this helps explain". These comments help apply appropriate focus. The difference between classroom style lectures in general and presentations by **Braniff, Oluic and** [redacted] s that the latter 3 feel tailored and more insightful due to additional knowledge. I am personally inspired by the collection of minds at the CTC. The knowledge was very impressive. Thanks for the help! I am isolating [redacted] who all did very well, but from my perspective presented material in a very collegiate manner. It reminded me of sitting in a class in college, listening, soaking up as much as possible while writing as much as possible for future reference. I appreciate the way that some other lecturers tie the information into a practical sense. There's a difference in presenting material for perspective of theory and doing so while also explaining the current significance of historical context. You're all awesome. b6 b7C

36) I think that as a part of the training, there seemed to be a lack of discussion of Islam as a religion and more focus on political and past grievances. While I agree, I believe this addresses core and command thinking and not that of our subjects who are as much about the religious zealousness as they are about airing of grievances. I would suggest to spend a block of instruction on understanding the religious though of the subjects who commit jihad or join the movement.

THIS IS AN EXCELLENT, COMPREHENSIVE, EASILY DIGESTABLE COURSE THAT I WISH I TOOK WHEN I FIRST BECAME A TASK FORCE OFFICER. IT IS THE BEST TRAINING I HAVE RECEIVED EXPLAINING THE ORIGINS / IDEOLOGIES OF ISLAMIC EXTREMISM. INTERESTING SPEAKERS WHO WERE ALL ARTICULATE, ENTHUSIASTIC, AND WELL INFORMED. SOME WERE MORE RELEVANT TO MY WORK AND INTERESTS THAN OTHERS.

[redacted] is clearly knowledgable but should use more interactive instructional methods (question the class, use dry-erase board, etc.) instead of relying only on lecture format. Mr. Braniff is brilliant and well-spoken; he very clearly links the historical points to their relevance to our mission.

Mr. Fromme's presentation could have been shorter.

Thank you.

This has been the most comprehensive and specific (geographically relevant) info I've received from the Bureau. I have had previously received historical info training on Islam but did pickup a different perspective (as well as more in-depth) from this training.

Because my job consists of field work, the internet training provided by [redacted] was the most relevant. b6 b7C

I would be interested in attending more training opportunities and would specifically like training geared toward people working as Investigative Specialists (information collectors).

The training provided in this presentation would be very beneficial to the basic training of I.S.'s because of it's historical info/background that helps explain the nature of the cases that are to be worked.

[redacted] lectures provided very prudent info for my job as an Investigative Specialist. It would be beneficial if more information such as this involving collection/investigation techniques is provided/offered in the future.

The historical information provided the first 2 days was helpful in providing an overview that was glossed over in my basic training. I've had other training that focused on other aspects + found this to supplement my prior training in a complimentary way. The additional info was helpful since I have basic info/history but not regional info, but do not use it on a day-to-day basis.

The Balkans lecture was informative & very well [redacted]

All training has been very informational in helping me connect the dots individually/provide background info. I feel this has been very helpful.

Comment – Use item number and provide specific feedback. ~~When~~ talking to FBI groups - maybe use the term CONUS terrorist plots - versus Domestic ~~plots~~ terrorism. Domestic Terrorism has a different meaning to the FBI - and we consider ALF type groups as Domestic Terrorist groups.

Good Course for a beginner. When going to Field Offices - you might consider a shorter more in depth look at specific issues. (ie Yemen; Hammas; Hezballah etc..)

All intel I have seen and spoke with other experts about.

Overall course was a good base of information. HOA block was good but could be a bit more condensed – Maybe swap some time for a focus on Yemen. Some info on subjects might be useful if provided by a "law enforcement practitioner."

THE smokescreen case is very, very old. – most people have heard it several times already. Good Presentor – just old info.

Overall this course provided great information on a wealth of topics regarding terrorism and respective groups. The background was just right, in helping to understand, groups and diasporas. However that being said a few of the lectures could have honed more on how the topics relate to the U.S. Specifically: 13, 16, 18.

#(3) Course content was very complex and so many topics were covered that one more full day would be helpful so that some topics did not have to be rushed.

#4 While the block on Somalia & ~~Horn of~~ Africa was very informative, and I do realize that the data is always changing it would be helpful to have the updated before information in the presentation mirror the handbook so it is easier to follow along.

GENERAL - WORKBOOKS WITH MATCHING POWERPOINT SLIDES TO SPEAKER EXTREMELY HELPFUL & VALUABLE. NICE TO HAVE ABILITY TO MOVE ALONG WITH SPEAKER & ADD NOTES BESIDE SLIDES FOR USE AS RESOURCE NOW & IN THE FUTURE. ABLE TO ABSORB MORE OF PRESENTATION WHEN NOT HAVING TO BE WRITING AS MUCH. MOST OF US WEAR MANY HATS & WORK MANY AREAS SO IT IS EXTREMELY USEFUL TO HAVE MORE COMPLETE & ORGANIZED NOTES TO REFER BACK TO. WHEN THE SPEAKER DOESN'T FOLLOW THE SLIDES IN THE NOTEBOOK, YOU LOOSE A LOT OF THE PRESENTATION BECAUSE YOU'RE HAVING TO WRITE DOWN SO MANY MORE NOTES. LIKE THE LAMINATED REFERENCE GUIDES.

(3) not only strongly agree, but want to note appreciation for comments like "you need to know this" "this is important because ...", "... this helps explain ...". These comments help apply appropriate focus. Difference between classroom-style lectures, in general, ~~and what I describe~~ a and presentations by BRANIFF, OLLIC: [redacted] is that the latter 3 feel tailored & more insightful due to additional knowledge of ~~the~~ Investigation or Org. Com[redacted] who all did very well but I'm violating from my perspective, presented material in a very collegiate manner. It reminded me of sitting in class in college, listening, soaking up as much as possible while writing as much as possible for future reference. I appreciate the ~~the~~ way that some other lecturers tie the info into a practical sense. There's a difference between presenting material for perspective of theory & doing so while also explaining the current significance of historical contexts. Please know this is a humble opinion of how 3 lecturers could make a 9.8

(3) The course was educational, beneficial, and interesting. I found the segments on the Balkans, S. Asians & N. African terror groups as very informative.

In the first 2 or 3 sessions, I suggest that the speakers include a more comprehensive coverage of the other meaning of jihad. The "personal spiritual struggle and strive, jihad of the head, jihad of the tongue---" meaning of jihad was explained in much detail, and rightfully so. However, the other meaning of jihad associated with "fighting and killing often coupled with "in the way of Allah," was touched on very briefly when explaining the offensive and defensive types of jihad.

In addition to spiritual jihad, prophet Mohammad and his successors gave clear instructions about the "fighting" type of jihad that played a most crucial and extremely important role in early Islam as well as in the conquests through the eighth century and beyond. The Quran & Hadith (Q&H) are filled with commands to perform jihad; to name a few, a drop in the bucket: Surah 2:216 "Fighting is prescribed upon you, and ye dislike it. But it is possible that ye dislike a thing which is good for you, and that ye love a thing which is bad for you. But Allah knoweth, and ye know not." Surah 9:5; 9:14, 5:33; 47:4;... "Allah granted a grade higher to those who strive and fight with their goods & persons than those who sit (at home.) 4:95. Fighting is the duty of every Muslim: 9:41. "Go ye forth, (whether equipped) lightly or heavily, and strive and struggle, with your goods and your persons, in the Cause of Allah...." 9:41
9:73; 9:12-14; 4:89; 9:29; 4:74-76; 8:38-40. From Hadith: Al-Bukhari 2797; 6922 --- Sunan Abu Dawud: 4348; 4349.

DR. Azzam had full Q&H support when he said: "Jihad means fighting. You must fight in any place you can get. WHENEVER JIHAD IS MENTIONED IN THE HOLY BOOK, IT MEANS [illegible] TO FIGHT. IT DOES NOT MEAN TO FIGHT WITH THE PEN OR TO WRITE BOOKS OR ARTICLES.

Although it's very difficult to cover a culture so diverse, however it's of great importance that it be included in this training to assist agents & IAs -- in understanding the background of their subjects.

(continued) IN THE PRESS OR TO FIGHT BY HOLDING LECTURES…"

THE PERCEPTION I LEFT WITH, from the early sessions of this seminar, is a weak, diluted, and an inadequate explanation of that important aspect of jihad. This meaning of jihad is well grounded and rooted in the Q+H; a reason that most moderate and secular Muslims cannot stand up or confront the violent extremists.

SAs, TFOs, IAs,.... need to understand that type or aspect of jihad since it played a major role in early Islam, through the centuries as well as in this recent "Awakening." They need to know why the subjects of their investigate think and act the way they do.

I hope you give this aspect of jihad its fair share of instruction.

Thanks for a well organized and educational seminar.
