Dear Mr. Conley:

Re: Public Records Act Request – Automatic License Plate Readers

On or about August 1, 2012, California State Parks ("CSP") received your Public Records Act request dated July 30, 2012. You are seeking records regarding automatic license plate readers from January 1, 2006 to the present. Thank you for your patience while CSP's Legal Office awaited response from its Law Enforcement and Emergency Services Division.

CSP searched its files and located no documents responsive to your request.

If you have any questions, I can be reached at (916) 651-8454.

Sincerely,

Kelli McDowell
Administrative Assistant
