

Exhibit G
Colorado Automobile Theft Prevention Authority Grant Program
Quarterly Report

	Date:
Grant Applicant: City of Commerce City	Grant Number: CATPA-BC18
Prepared By: Leigh Ann Noell	Phone Number: 303-289-3625
☐ Quarter 1 – January - March - Due end of April ☐ Quarter 2 – April - June - Due end of July	☐ Quarter 3 – July - September - Due end of October ☐ Quarter 4 – October - December - Due end of January

Section I. Quarterly Data Elements

*Please fill out blanks that apply to your grant.

Partnerships or Multi-jurisdictions				
Activity	Number	List the Agency/Partner & Number Per Agency/Partner	Date(s)	Value or Amount
Number of meetings with partners	3	Commerce City, Thornton, Adams County	April 1, 2010 May 25, 2010 June	
Number of meetings with prosecutions offices as a partner or to file a case	0			
Number of operations where all partners participated	1	Joint "Train the Trainer" classroom and hands on training for covering IT, Installation and Use hosted by Commerce City Police Department.	May 25, 2010	

Thefts and Prosecution				
Activity	Number	List the Agency/Partner & Number Per Agency/Partner	Date(s)	Value or Amount
Total number of auto thefts in		207	April –	

jurisdictional areas of the task force			June 2010	
Number of arrests per task force	3	Adams County SO/Commerce City		
Number of "chop shops" or commercial enterprises identified by the task force	1	Thornton PD	June	Active Investigation
Number of felonies vs. misdemeanors per task force	1:2			
Number of vehicle theft recoveries per task force	1	Thornton PD	June 17	\$8,500
Number of major operations (3 or more) vehicle theft recoveries per task force	0			
Number of thefts filed for prosecution per agency/per task force	0			
Number of closed cases by arrest	2	Adams County		
Number of closed cases administratively – "no arrests"	0			
Value of vehicle theft recoveries (NADA value of each vehicle)				
Amount of restitutions ordered this quarter	0			
Number of thefts associated with other crimes	0			
Number of cases presented to the District Attorney for filing per task force	0			
Number of cases accepted for filing per task force	0			
Number of suspects identified per task force	0			
How many cases were referred to the statewide county grand jury or COCA (Colorado Organized Crime Act)	0			

Public Relations				
Activity	Number	List the Agency/Partner & Number Per Agency/Partner	Date(s)	Value or Amount
Number of events participated in or hosted				
Number of public service announcements				
Number of news releases	1	Adams, Thornton and Commerce City held a press	June 30 held on	

		release for both newspapers and news stations.	July 1	
How many public events included "Watch Your Car"	0			
How many cars were registered in "Watch Your Car" through your events	0			
How much was spent on public campaigns, watch your car, etc.	0			

Bait Cars				
Activity	Number	List the Agency/Partner & Number Per Agency/Partner	Date(s)	Value or Amount
Number of bait car operations	N/A			
Number of hours bait cars were in use	N/A			
Number of successful bait car operations	N/A			
Number of personnel involved in bait car operations	N/A			

Automated License Plate Readers (ALPRs)				
Activity	Number	List the Agency/Partner & Number Per Agency/Partner	Date(s)	Value or Amount
Number of vehicles read by ALPR by all agency partners/by task force only	50,543	ACSO, Thornton Police Department, and Commerce City Police Department	May 26 – June 30, 2010	
Number of stolen vehicles identified by ALPR for all agency partners/by task force only	1	Thornton Police Department	6-17	\$8,500
Number of other crimes identified by ALPR by agency/by task force only	3	Warrant arrests 1 Felony ACSO 1 Misdemeanor – ACSO 1 Misdemeanor - CCPD		
Number of staff trained to use ALPR's by agency and task forces	82	CCPD -44 ACSO - 23 THPD - 15	May 26 – June 17	
Number of vehicles recovered using ALPR by agency partners/by task force	1	Thornton Police Department	June 17	\$8,500
Value of vehicles recovered using	1	\$8,500		

ALPR by agency partners/by task force				
Number of hours the ALPR was used by agency partners/by task force	387 hrs	CCPD 211 hours ACSO 56 hours THPD 120 hrs		

Cameras, GPS or Other Equipment				
Activity	Number	List the Agency/Partner & Number Per Agency/Partner	Date(s)	Value or Amount
Number of days the equipment was used by agency/by task force	N/A			
Number of hours and personnel required to use the equipment for the task force	N/A			

Section II. Quarterly Narrative

Partnerships or Multi-jurisdictions
List the name(s) of partners that participated in executing the grant: City of Commerce City City of Thornton Adams County Sheriff's Office
List the name(s) of businesses contacted & their contribution: None
List who and how you worked with other Auto Theft Task Forces, agencies or investigators and your accomplishments: Our systems were operational on May 26, 2010.

Thefts and Prosecution
What investigative techniques were successful during task force operations?
Were auto theft recovery protocols or procedures developed? What was the initial protocol established and what was changed throughout the process? Commerce City developed procedures and protocols and provided them electronically to all agencies so that they can modify to fit their department needs. Commerce City is in the process of modifying theirs as issues arise.
List the associated crimes with the vehicle thefts identified and how was this communicated with other

investigators? The use of the ALPR identified locations of sex offender's vehicles. This information was provided to the detective assigned to monitor sex offenders.
What statistical data sources were used to target investigations, identify patterns & locations and known & repeat offenders? Could you identify patterns? No patterns have emerged at this time. However we are developing one between Thornton, Westminster and Commerce City as it related to stolen Ford Trucks.
What was the condition or value of the vehicles from theft to recovery? What was the make and model of the stolen vehicles? Toyota truck, good condition
Provide a breakdown of each agency, the number of personnel used and title: Thornton PD: 1 Sgt.; 1 Detective/13 officers
What were the "lessons learned"?

Public Relations
List the public service announcements developed: NA
How did you evaluate that the education efforts were effective? NA
Provide the media used to disseminate messages: Public information officers from all participating agencies held a press conference. Officers Schaefer (CCPD), Deputy Dixon (ACSO) and Officer Leszek Gregor (THPD) provided hands on demonstrations to news media.
Were you or your partner involved in development of press releases? List the date & title of the press release: July 1, 2010 - Officer Matt Barnes (THPD); Officer Chris Dickey (CCPD); Officer Candy Baker (ACSO)

Bait Cars
Provide how the location was determined to place the bait cars: N/A
Was overtime funded in the grant or were operation funds used for bait car operations? N/A

Automated License Plate Readers (ALPRs)

What type of other crimes were identified through the use of the ALPR and what other arrests were made by the use of ALPR's?

1 Felony warrant arrest associated to the vehicle was made by ACSO

2 misdemeanor warrant arrests were made, one by Commerce City. ACSO received an associated warrant alert on a vehicle. When the vehicle was stopped the occupant in the vehicle was not the associated hit, but did have an active warrant.

Numerous sex offender plates have "hit" through the system. Although, not related to auto theft, this information could be of utmost importance should a sex related crime occur. The information will allow us to query the data base for plates or partial plates and geographically identify if a sex offender was in the area. Also, Commerce City Police department has municipal ordinances which do not allow sex offenders to loiter within 1,000 of any school, playground, park, swimming pool, trail, recreation center or anywhere else that children congregate. We will be able to use the ALPR information to identify and prosecute violators.

What information was shared between partners that was gathered using ALPR's?

In the past month our communications primarily addressed technical issues. Information was shared on best practices for installation – what works and what doesn't work, data sharing, and internet access.

Also, through the use of a custom hotlist, vehicles wanted for eluding and shoplifting were available to all units. As well as special interest plates, which were manually entered into the system by specific users.

All license plates reads are shared between departments and can be queried for investigational purposes.

If a vehicle was identified using an ALPR as stolen, was it recovered? Why or why not?

Yes. The vehicle was located by a Thornton Police Department officer. The ALPR hit was verified as active and the vehicle was recovered and towed.

Cameras, GPS, and Other Equipment

Provide the date and operation where the equipment was used:

N/A

What type of equipment was used and how are you using this equipment?

N/A

Training

What training was conducted?

The Commerce City Police Department hosted PIPS "Train the Trainer" instruction. The instructors were Jacques Lilavois and Giles Tipword from PIPS. Training was provided specifically to IT personnel on connectivity of the program and server. IT personnel later joined selected patrol and investigation personnel in a "Train the Trainer" instruction. They received hands on PIPS hardware installation, software use, as well as reporting capabilities and use in special investigations.

Each agency then held training for their department in the use and care of the ALPR and also showed a video

provided by PIPS on I use and advantages for investigations.
List the staff who were provided training: Train the Trainer: Personnel from each agency in the field of IT, Patrol, Investigations, and Crime Analysis. Individual Agency Training: Adams County: 12 CRT Deputies, 2 CRT Sergeants, 1 Traffic Sergeant, 7 traffic deputies, 1 Patrol Lt. Commerce City: Trained commissioned and civilian personnel from all specialties - 44 trained in the first session and the goal is to train all commission personnel. Thornton PD: 1 Sgt., 1 Det. and 12 officers.
Did you conduct evaluations at the end of the training to determine the effectiveness of the training? Trainers monitored the officers in system set-up and use.
What would you change for the next training? All agencies agreed that the software is user friendly so changes are not necessary.
What other training was attended to increase education and skills to assist staff? Deputy Dixon, ACSO; Officer Leszek Gregor, Thornton PD; Officer Daniel Schaefer, Commerce City PD; and Diana German, Crime Analyst attended a PIPS User group meeting hosted by Littleton Police Department. At this meeting users received additional training, problem solved technical issues, and discussed connectivity between PIPS agencies. Representative from the state of Utah were present and eager to share data across states.
What advanced training was attended? None
Was there any attempt to train with judiciary presentations? Not at this time
Other Information Based on your application "Project Plan" what goals have been met to date? We got off to a slow start, but as we have worked through hardware, connectivity and installation issues we have been able to get the systems out to the street and they are now being frequently utilized by all agencies. We are anxious to recover more vehicles and in hope of ultimately discovering an auto theft ring or chop shop. It will also be interesting to see if the media release deters auto thefts or if there is a reduction in recovered steals in the participating agencies.

Larry Woog, Commander
Commerce City Police Department
