Problems/Successes/Comments:

In December, Thornton conducted one week Puffer awareness and patrol officers handed flyers out to over 52 owners. Adams County Sheriff's department had two special events that featured the ALPR. One was held at a RAVE party, 58th and I 25 In October 2011 and again at a Concert at the Grizzly Rose, where they swept the area of the venues.

This group utilized the ALPR to read 335, 442 plates in 2011. At different times throughout the year, each agency experienced down time for their ALPR due to program errors, equipment failure and installation issues.

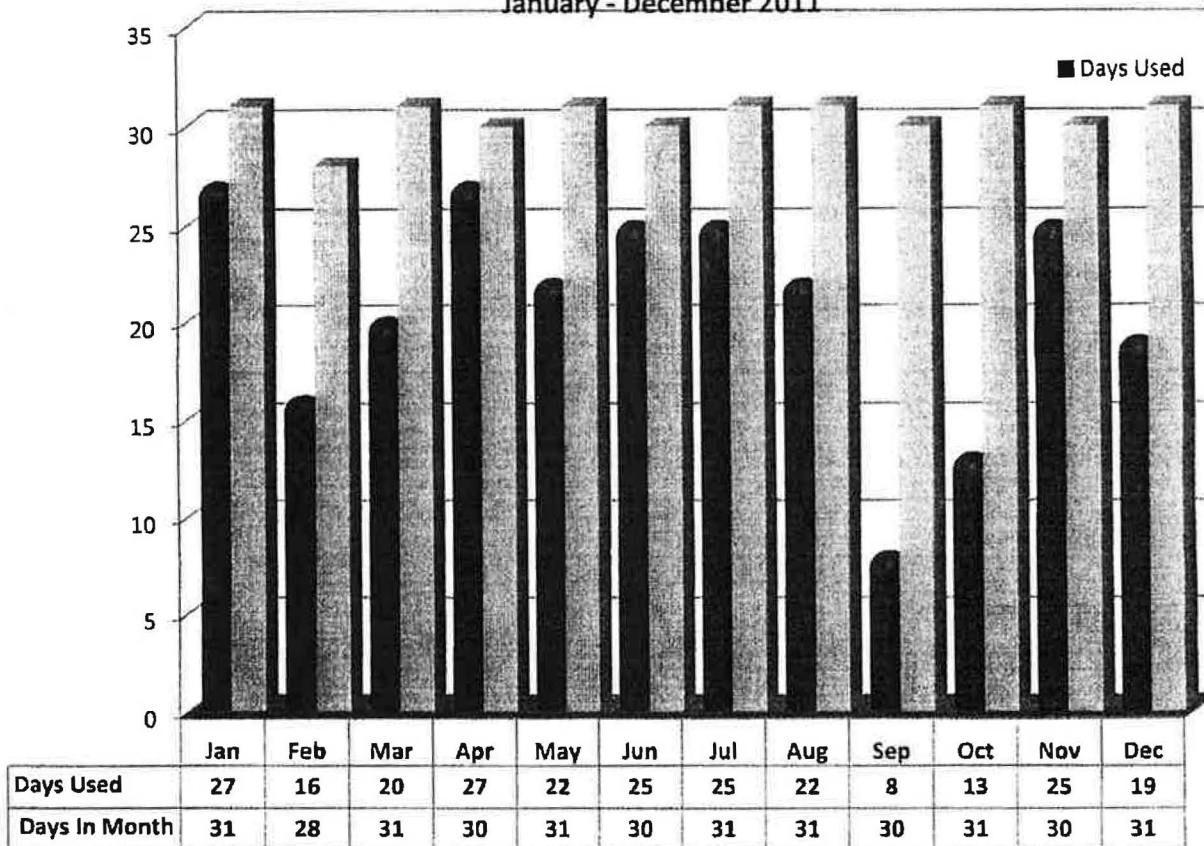

It is important to note that at different times during the year each agency experienced equipment failure or down time for their ALPRS:

In October a plate reader was used 13 days out of 31 or 42% of available days

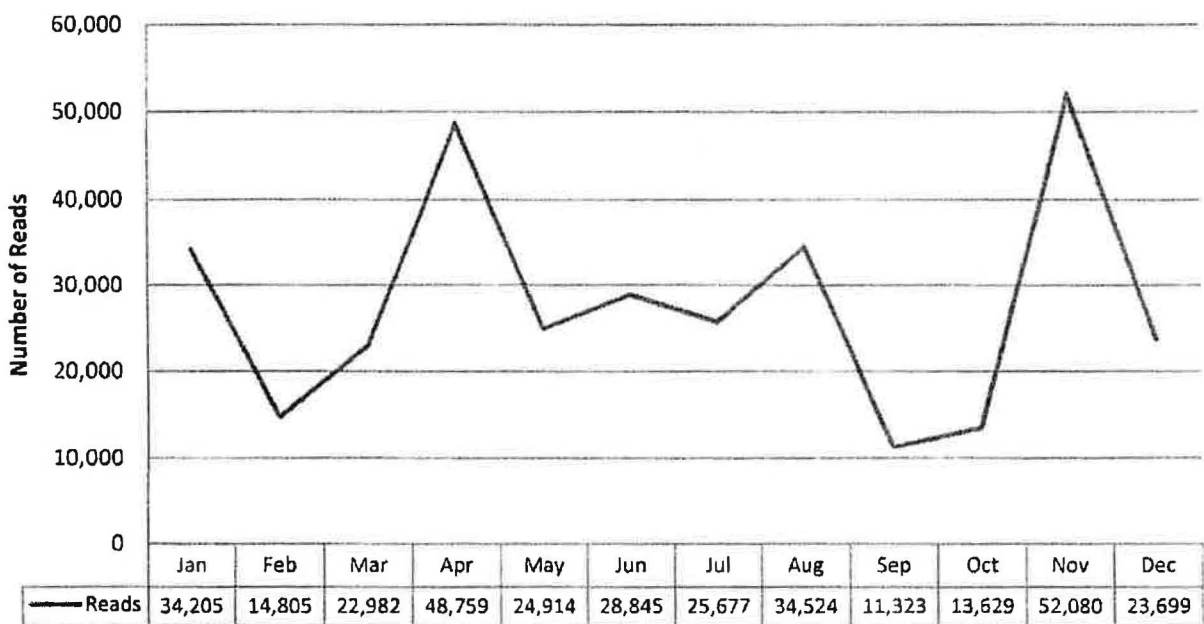

In November plate readers were used 25 out of 30 days or 83% of available days

In December plate readers were used 19 days or 63% of available days

Automatic License Plate Reader Use January - December 2011

ALPR READS - All Agencies January 1 - December 31, 2011

- ❖ **Region Wide** includes all auto theft numbers for all partners including Task Force and day-to-day law enforcement operations. Completing this field is optional.
- ❖ **Task Force** numbers reflect **only** CATPA funded Task Force operations, work done specifically through CATPA grant funding or work completed using CATPA purchased equipment. **This is required!**

Quarterly Report Instructions

General Information

- Fill in every goal that pertains to the projects scope of work.
- The requirement is to only track statistics that reflect where CATPA money was spent. But, if the CATPA dollars have impacted the overall regions or jurisdictions, please fill in the region wide statistics column as well to reflect what was accomplished.
- Please add goals and statistics that were identified in the awarded grant application that are not included in this document.
- Do not duplicate records with other Task Forces or grantees. For example, the lead agency shall record the arrest while the partner should have an assist. The objective is to meet the grant goals and not compete for numbers.
- If you have any questions, please contact Diana Pratt Wilson at (303) 239-4572 or by email Diana.prattwilson@cdps.state.co.us

Instructions to fill out the Quarterly Report –(Numbers coincide with Arrows on the next page)

- 1.) Fill in the project name.
- 2.) Fill in the name of the Project Director.
- 3.) Check the quarter that identifies the reporting period.
- 4.) If there has been a previously awarded grant, list the intended percentage improvement over the last year. If this is a new project, leave the percentage information blank. This data should match what was disclosed in the grant application and will not change from quarter to quarter.
Example: 10% increase of arrests over 2009's total of 100 arrests. This means that the total goal for arrests in this grant cycle is 101.
- 5.) If there has been a previously awarded grant, list the data that was collected. If this is a new project, enter this information for the projected goal for the term of the grant. This data should match what was disclosed in the grant application and will not change from quarter to quarter.
Example: 10% increase of arrests over 2009's total of 100 arrests.
- 6.) These are preset goals that grantees will collect to show progress toward CATPA project goals.
- 7.) Region wide numbers reflect all jurisdictions and areas included in the project initiative. (*i.e.: An overtime Task Force operation may increase the number of arrests for regular day shift.) Completing this field is optional.
- 8.) Task Force numbers reflect **only** CATPA funded Task Force operations, work done specifically through CATPA grant funding or work completed using CATPA purchased equipment. **This is required!**
- 9.) The chart will be created by CATPA Staff based on numbers reported. An electronic copy will be sent back to provide a visual of the progress or lack of progress throughout the grant term.
- 10.) This area is available to provide short bullets statements explaining increases or decreases in the progress each quarter.

Example: Community meetings declined this quarter due to flu outbreak.

Example: Number of identified stolen vehicles declined this quarter due to waiting on parts to repair ALPR.
