Problems/Successes/Comments:

July 14, 2011, Adams County Sherriff's department hosted training for several ALPR agencies. During the training we were able to obtain a download program from Boulder as a result, our data is downloading every two hours from CBI. This ability insures that we have the latest information available.

Commerce City Police Department obtained the educational "Lockdown" mannequin and handouts from CAAT. We have displayed the mannequin in our lobby, at Rapids Games and Neighborhood Outreach programs. We are planning another community educational initiative concerning puffers and using the mannequin during the 4th quarter.

Adams County, Thornton and Commerce City, special services units have been working together using the ALPR to sweep auto theft hot spots as well as recovered vehicle hot spots.

- ❖ Region Wide Includes all auto theft numbers for all partners including Task Force and day-to-day law enforcement operations. Completing this field is optional.
- ❖ Task Force numbers reflect only CATPA funded Task Force operations, work done specifically through CATPA grant funding or work completed using CATPA purchased equipment. This is required!
