SUBJECT: ALPR UPDATES AND WEEKLY REPORT
RE: December 12th, - December 18th, 2011

DATE: 12/19/2011

FILE REF:

Sir:

I respectfully report that the A.L.P.R. updates have not been done to the ALPR Server. The following information is up to date as of December 19th, 2011.

During the dates of December 12th, 2011 to December 18th, 2011 there were a total of 17907 reads, and of those results there were only 671 hits.

Note that during the above week the ALPR System was not used on December 17th, and 18th, 2011.

During the prior week, the dates of December 5th, 2011 to December 11th, 2011, the system shows that there were a total of 25033 reads, and of those results there were 688 hits.

During the above week the ALPR System was not used on December 10th, and 11th, 2011.

Note that this is different from the reads for the same dates on last weeks report that showed a total of 22669 reads, and of those results there were only 613 hits.

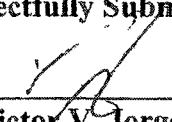

Infocop's, Allen Whitten has been advised of both the past difficulties and the inability to connect to the Blackberry Server for updates and the situation of the discrepancy with the above numbers.

I have received an email regarding the blackberry server and getting updates, their senior technician's recommendation is that the Newark Police Department's ALPR server should be put on the Garden State Network to receive the Hot File updates automatically.

I have contacted Infocop's Technicians Chuck and Vinnie and they have agreed to respond to our office this afternoon to check our cables and connections to insure that everything is connected properly in our office.

The ALPR system at present has a total number of 1,182,108 reads of which 27,660 are hits up until the current date of December 19th, 2011 at 1008 hours.

During the prior week, the dates of December 5th, 2011 to December 11th, 2011, the system shows that there were a total of 25033 reads, and of those results there were 688 hits.

During the above week the ALPR System was not used on December 10th, and 11th, 2011.

Note that this is different from the reads for the same dates on last weeks report that showed a total of 22669 reads, and of those results there were only 613 hits.

Infocop's, Allen Whitten has been advised of both the past difficulties and the inability to connect to the Blackberry Server for updates and the situation of the discrepancy with the above numbers.

I have received an email regarding the blackberry server and getting updates, their senior technician's recommendation is that the Newark Police Dep ^{OPRA00627} ALPR server should be put on the Garden

During the prior week, the dates of November 28th, 2011 to December 4th, 2011, the system shows that there were a total of 36501 reads, and of those results there were 1122 hits.

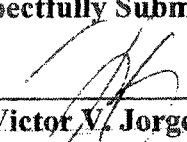

Note that during the above week the ALPR System was not used on December 3rd, and 4th, 2011.

This is different from the reads for the same dates on last weeks report that showed a total of 38930 reads, and of those results there were only 1189 hits.

Infocop's, Allen Whitten has been advised of both the past difficulties in the ability to connect to the Blackberry Server for updates and the situation of the discrepancy with the above numbers. I have received an email regarding the blackberry server and getting updates, their senior technician's recommendation is that the Newark Police Department's ALPR server should be put on the Garden State Network to receive the Hot File updates automatically. A copy of the email is attached and it will be forwarded to MIS Director Peter Lutz.

The ALPR system has a total number of 1,163,013 reads of which 26,963 are hits up until the current date of December 12th, 2011 at 0955 hours.
