Re: Public Records Request – Automatic License Plate Readers

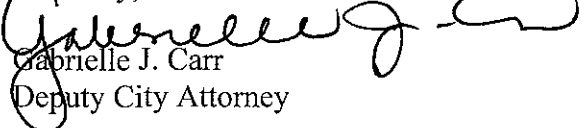

Dear Mr. Claussen:

This letter is in response to your request for information from the Reno Police Department related to automatic license plate readers. Our office represents the Reno Police Department and has engaged in research to determine what information is available in response to your request.

Currently, the Reno Police Department does not use automatic license plate reader technology. Apparently, RPD attempted to utilize such information many years ago and decided that the technology at the time was inadequate to serve our needs. Therefore, we currently have no documents responsive to your request. However, I have been advised that we are in the process of negotiating a user agreement with the State of Nevada to allow for such technology to be used by the Reno Police Department.

If you would like to provide me with another records request within the next 60 to 90 days, our status may have changed and we would then have information responsive to your request. In the meantime, if I can be of further assistance, please feel free to contact me directly at 775-334-2076.

Sincerely,

Gabrielle J. Carr
Deputy City Attorney

GJC
