Subject: Response for CPRA re: Automatic License Plate Readers

Mr. Conley,

With regard to the ACLU's inquiry on information regarding Automatic License Plate Readers, the Santa Clara County Sheriff's Office answers as follows:

Our agency does not currently use ALPR technology in our patrol vehicles or in any other portable means or forms. We also do not have any documents related to policies, practices, procedures, or the procurement of ALPR technology.

If you have any questions, please feel free to contact me.

Thank you
