Police & Fire Services Director

Jimmy Pollard
Police Division Commander

Robbie Rose
Chief of Fire

This document is in response to your "Request Regarding Automatic License Plate Readers" dated August 2, 2012.

Request

Response

- 1 There are no records pertaining to this request.
- 2
 - a. Federal Grant award #2009-SD-B9-0168.
 - b. See attachment 2b.
 - c. See attachment 2c.
 - d. We received onsite demonstrations & flyers at the time, but I am unable to supply that information as it was several years ago and has since been discarded.
- 3
 - a. License plate reads made by the camera units in color image, infra red image, and gps location with time and date. From the captured images, the letters & numbers on the plates are obtained through optical character recognition technology.
 - b. We have recorded approximately 585,000 attempted reads of plates since April 2010. This would be roughly 20,000 per month.
 - c. Two.
 - d. Two.
 - e. We have no stationary deployments.
 - f. They are capable of recognizing what looks like a license plate from video that the cameras are capturing. Once it recognizes a license plate, it uses OCR to extrapolate the letters and numbers. Those letters and numbers are compared to a list of current stolen tag numbers as provided by NCIC. If a match is found, the system alerts the user of a possible stolen vehicle. Regardless of whether a match is found, the system stores the captured images of the plate along with metadata consisting of date/time/GPS coordinates.
- 4
 - a. Captured images, gps location, time and date.
 - b. We haven't set an expiration date.
 - c. This parameter has not been established.
 - d. 585,000.
- 5
 - a. ALPR data can only be accessed after the approval of a Div. Commander and then only for criminal justice purposes.
 - b. Criminal justice purposes.
 - c. Any reason other than criminal justice purposes.
 - d. Any Law Enforcement Officer may obtain the data, but only for criminal justice purposes. The officer must request access through a Division Commander, who will determine if access should be granted. If so, the Div. Commander will retrieve the data requested and supply it to the requesting officer.
 - e. An audit trail is created when data is accessed that shows who and when it was accessed.

- 6
 - a. No data is shared outside of our organization.
 - b. It is stored in its own databases.
 - c. We do not allow access by anyone else.
 - d. We have no such agreements in place.
- 7 We have no such agreements in place.
- 8 All training has been hands on with officers in the two respective cars on how to run the system.
