Mike,

Here are two documents of talking points prepared for the Criminal Justice director and the GR for presentation at a LPR conference in NYS. They are packed with data. If I get an evaluation or analysis report, I'll send it along upon receipt.

A 25% proportional traffic safety share is easy to live with though some NYS jurisdictions showed greater traffic safety benefit than that and one – Syracuse – uses there full time to record vehicles passing school buses. Warning/informational letters are sent to the drivers.

I hope this helps.

Tom
