**Subject:** White Paper on Automatic License Plate Readers

Several regions have requested clarification and guidance on Section 402 or other Federal funding for automatic license plate readers. We have worked with the Mike Geraci and the EJS Division and prepared the attached white paper to use as guidance in working with the states on this issue. If you have any additional questions please don't hesitate to call Mike or me. Please feel free to share this with your staff. Hope you find this useful.
