 Subject: FW: Implementation Plan

All-

Attached is a copy of the original draft of the NSS CVE SIP as well as a document with all of the component edits. I&A, IGA, USCIS, CRCL, S&T, and CTWG all had an opportunity to review this document and provide comments. All did except for USCIS which cleared with no comments. Please let me know if you are ok with the edits. I plan to send the final document to the NSS by COB to meet their deadline. If you have any questions please let me know.
