Jay, can you send me the cybersecurity tasking memo and accompanying papers. Whatever we sent through ESEC. It might be good to have one more example but your call. The FF ones come to mind.

It will be signed early next week. Go ahead and send the template, if you can. Thanks!

Let me know when you get sign off and I can send you the template for the tasking memo or more like an example of one we recently did. We will need the issues we want them to consider and my advice is to make them as clear as possible.
