I can't speak for (b)(6) Things are a bit crazy right now.

As for (b)(6) he is all set. He is linked up with (b)(6). I will speak to him about the below but don't anticipate there being any issues.

(b)(6)

Hi (b)(6)  
I'm sorry you won't be able to make it but completely understand. I'm wondering if (b)(6) will make it.

This is the first we have heard about (b)(6) attending. We are happy to have him in your place, of course, but I am a bit concerned that we will have travel/space/food issues if other people attend that we did not extend an invitation to. For example, (b)(6) will not be able to support his travel at this time, I don't think, b/c we have to get all the travel approved and paid for thru the university. Did you just extend this invite to him, or do you know if (b)(6) did? I just want to find out today if others will be attending.

(b)(5),(b)(6)

Best,  
(b)(6)

(b)(6)  
Hope this finds you well. I just wanted to send a note to say that I won't be able to attend the workshop unfortunately. As you can understand, the San Bernardino incident requires me to stay local for a variety of reasons. (b)(6) who is a close partner of mine both on the research and community side will be in attendance and will be a great resource in addition to the others attending.

Thanks.

(b)(5),(b)(6)

Hi (b)(6)  
That is correct. But we are hoping for a very participatory discussion all afternoon.  
Looking forward to seeing you.

Best,  
(b)(6)

Thanks for the email. Just to confirm, looking through the agenda I don't have a formal role in the workshop correct?  
I'm absolutely fine with that but wanted to be sure.

Dear (b)(6)

We look forward to hosting you at START Headquarters in College Park, MD, on Monday, December 14 from 8:00am - 4:00pm, for the CVE Metrics Workshop funded by DHS S&T. We are pleased to have an excellent group of about 25-30 CVE practitioners, academics and government program managers planning to attend. Please find an attached DRAFT agenda for the workshop. The event will be a facilitated workshop so we have planned for your active participation throughout the day! Here are a few pointers for your preparation:

**Presentations:**

You'll note that the morning portion of the workshop will consist of short presentations from many of the attendees, and the afternoon sessions will be facilitated as a large group discussion. For each panel listed, you will see lead speakers listed first. To prepare for the workshop, we ask that lead speakers work with their group to develop a short, focused presentation on **intervention programming and CVE intervention metrics and evaluation approaches relevant to your program or research efforts**. We want to keep our discussion focused on how your group has designed intervention programs and/or intervention metrics and evaluation. Formal presentation of results is not necessary!

For questions on shaping the content of your presentations, or any concerns with the suggested agenda, please contact START Senior Researcher (b)(6) currently serving as an IPA in the DHS Office of Community Partnerships, or simply reply to me (b)(6) (START's executive director). Note that our START conference room is equipped with all multimedia presentation capabilities (e.g., wifi, computer, projector, and sound), should those be necessary, but formal presentations are not expected.
