(b)(6) I note your new email. Resending my last message!

It has been awhile since we've spoken; I hope you are well. I might have some specific Colorado trip news forthcoming, but in the meantime, I thought you might be interested in this event.

Best,

(b)(6)

CALIFORNIA CONSENSUS

Dear (b)(6) ,

As a Network Partner for the California Consensus for Peace through Security, the Peace and Security Funders Group would like to invite you to participate in the [California Consensus for Peace through Technology](#) (CalCon), April 13, 2016. This invitation-only symposium will spotlight innovative research and technology to challenge violent movements around the world.

Researchers, technologists, security analysts, funders and policymakers will come together to explore new approaches to peace through technology and to build partnerships/collaborations to strengthen the most promising projects. Collaboration will continue after the symposium through an online platform connecting the researchers and their projects with the delegates.

You will hear "pitches" from researchers using big data, mobile technology, GIS mapping, real-time information sharing, media coding, and other innovative approaches to understand and challenge violent movements of all kinds. The day will include opportunities for you to sit down with the researchers to workshop the projects and improve, accelerate or scale their applications by sharing your technological expertise, policy perspectives, funding or other resources. If you cannot attend personally, I hope that you will send an appropriate representative.

The Kroc School is presenting CalCon in partnership with the [One Earth Future Foundation](#), Network Partners include the [Peace and Security Funders Group](#), USD's [Center for Peace and Commerce](#) (a joint entity with the School of Business) and the [Center for Cyber Security Engineering and Technology](#).

(b)(6) founder of Games for Change, will present a [public keynote](#) on April 12, the symposium will take place on April 13, and symposium partners will meet to discuss an ongoing peace through technology initiative on April 14. Please [RSVP](#) by March 25. Discounted rates are available for a limited number of rooms at the bayfront [Dana Inn](#) by March 13, with Group Code CC04122016. If you have any questions, please contact me at (b)(6)

Sincerely

(b)(6)
