<b>Subject:</b>	Funding for Counter Violence Extremism (CVE) data call
<b>Date:</b>	2012/07/02 13:29:11
<b>Type:</b>	Note.EnterpriseVault.Shortcut

All,

The Hill is requesting data on your Component's current and anticipated expenditures related to Countering Violence Extremism (CVE) for Fiscal Years (FY) 2012 and 2013. Attached for your review and updating is a template generated from the CVE working group with input from your Component representative.

Please update your component's tab on the template to provide greater visibility, where possible, into program funding and activity.

Program data should align with the objectives in the Strategic Implementation Plan for empowering local partners to prevent violent extremism in the United States (SIP). These objectives are listed in the first tab. \*\*For questions on the methodology or on identifying programs that align with these objectives, please contact your Component representative from the CVE working group.

Attached for your reference is a copy of the Strategic Implementation Plan and a list of Component POCS from the working group.
