 Subject: Joel M. Security Clearance Update

Sarah,

I spoke with Joel this morning to get his personal information.

I checked with Security and Joel currently does not have a security clearance. His clearance was terminated when he departed Federal service in 2013.

If he requires a clearance for his service on the CVE WG I will have to submit to security a nomination form and he will have to go into the e-QIP system (after security invites him into the system) and update his SF-86.

I can call Joel to let him know the status of his clearance. Please advise if I should also inform him we are moving forward with a clearance for him.

I will wait for your direction.

Best,

Mike

Mike, please go ahead and start the process for Joel to get a clearance.

I think it would be helpful for him to get one if it doesn't hold anything up. If it does, then probably not.

Do you have thoughts on need for Joel to have a security clearance for his work on the CVE subcommittee?
