---

Kelly,

You have an idea on timing for the indicator language? We are trying to figure out whether we should hold the release of the referral form reference guide (if you anticipate language early next week) or if it will be longer. If it is the former, we will release the guide and then change the pertinent language when we can.

Also: FYSA our SOP revision went into agency-wide circulation yesterday. OCC received a copy through the normal routing.

Sarah,

As we discussed yesterday afternoon, OCC needs to receive DHS OGC's feedback on the language. Once we have that in hand, I will be in a better place to think through next steps.

Kelly,

I saw I missed your call on Friday but I am around all of today. We are standing by awaiting OCC approved language to move forward on the two indicator verbiage change. I saw that Francine sent the language to OGC and I received your message that you understood that the current language, as proposed, actually mirrored existing automatic LEO referral language in both the SPOT and screening SOP. My understanding is that we will receive something modified and a green light to move forward with legal concurrence, correct?

We have our training documents discussing the change and the referral sheet guide (which John Bauer just reviewed), queued up so the second we get it from you all and finalized, we will start prepping communications and aides for the field.

Thanks

Sarah M. Tauber
