# 1. (U) INSPECTOR GENERAL ACTIVITIES

#### a. Reviews

-(C//SI) During this quarter, the Office of Inspector General (OIG) reviewed various intelligence activities of the National Security Agency/Central Security Service (NSA/CSS) to determine whether they were conducted in accordance with applicable statutes, Executive Orders (E.O.s), Attorney General (AG) procedures, and Department of Defense (DoD) and internal directives. With few exceptions, the issues presented were routine and indicated that the operating elements understand the restrictions on NSA/CSS activities.

# 2. (U) GENERAL COUNSEL ACTIVITIES

(C//ST) The NSA/CSS OGC reviewed various intelligence activities of the NSA/CSS to determine whether they were conducted in accordance with applicable statutes, EOs, AG procedures, and DoD and internal directives. The OGC advised Agency elements on a number of questions, including the collection and dissemination of communications of or concerning U.S. persons; the reporting of possible violations of federal criminal law contained in Signals Intelligence (SIGINT) product; the testing of electronic equipment, and the applicability of the Foreign Intelligence Surveillance Act (FISA). With few exceptions, the issues presented were routine and indicated that the operating elements understand the restrictions on NSA/CSS activities.
