GRAPHIC/AV: (U) Present learning objectives in the travel journal																													
<p>(TS//SI//NF) (OGC Attorney): During this part of our trip we discuss the BR and PR/TT metadata in greater detail. Specifically, we look at the metadata which may be obtained, how bulk metadata is collected under these authorities, and the storage restrictions with which NSA must comply. Other modules will address restrictions related to the dissemination and processing of the bulk metadata.</p> <p>(U) This module will enable you to:</p> <ul style="list-style-type: none"> (TS//SI//NF) Distinguish differences between BR and PR/TT metadata (TS//SI//NF) Recognize restrictions placed on BR and PR/TT metadata storage and retention by the BR and PR/TT Bulk Metadata Programs <p>(TS//SI//NF) Note that other restrictions will be addressed in other modules.</p>

<p>(TS//SI//NF) (OGC Attorney): Let's take a look at the BR Bulk Metadata Program. As we mentioned in Module 1, the BR Primary Order pertains specifically to telephony metadata which is kept by U.S.-based telecommunications companies as part of their normal business operations. They retain this information, in part, so they can send their subscribers a bill every month.</p> <p>(TS//SI//NF) The business records include, for example, originating and terminating telephone numbers, International Mobile Subscriber Identity (IMSI), International Mobile Station Equipment Identity (IMEI), trunk identifiers, and telephone calling card numbers.</p>

~~(TS//SI//NF)~~ (OGC Attorney): Both Orders mandate that the BR and PR/TT bulk metadata must be stored in repositories within secure networks under NSA's control. The methods for storing the results of approved queries of the bulk metadata will be explained in Module 4. BR and PR/TT bulk metadata may only be stored in authorized and specifically designated repositories, [REDACTED]

~~(TS//SI//NF)~~ The FISC also requires NSA to mark and tag the BR and PR/TT metadata so that software and other control mechanisms may provide reasonable assurance that the information is only accessed by authorized personnel who have completed the required training and have the necessary credentials.

~~(TS//SI//NF)~~ The bulk BR and PR/TT metadata coming into the repositories has an expiration date set by the FISC. NSA does not have the authority to maintain the unselected BR and PR/TT metadata indefinitely. The FISC permits NSA to maintain this metadata for 60 months from the date of collection at which time it must be destroyed.

DATE/PREPARER:	Topic (U) Knowledge Check	Page Classification TOP SECRET//COMINT//NOFORN		Screen Number 10 of 11	
FRAME ID: 2100	Home Exit Glossary Back Next				
NEXT FRAME ID: 2110	(U) Knowledge Check				
BACK FRAME ID: 2090	1. (TS//SI//NF) Which of the following describe the BR Bulk Metadata Program: a) (TS//SI//NF) The BR Order pertains to telephony metadata which is kept by U.S.-based telecommunication companies. b) (TS//SI//NF) BR refers to Business Records which is information U.S.-based telecommunications companies already have in their possession and use as part of their normal business. c) (TS//SI//NF) NSA uses Business Record information such as terminating telephone numbers, IMSI, IMEI and trunk identifiers for ██████████ contact chaining analysis. d) (U) All of the above.				
ALT TAG:	2. (TS//SI//NF) Which of the following does not describe the PR/TT Bulk Metadata Program? a) (TS//SI//NF) ██████████ b) (TS//SI//NF) NSA only collects limited metadata from the communications of approved targets. c) (TS//SI//NF) NSA collects specific categories of metadata to include the “to,” “from,” “cc,” and “bcc” lines of an email. d) (U) None of the above.				
GRAPHIC/AV: (U) Knowledge checks in the travel journal	3. (TS//SI//NF) Which of the following statements is true? a) (TS//SI//NF) Bulk BR and PR/TT metadata may not be kept for longer than 48 months. b) (TS//SI//NF) Non-U.S. person metadata may be kept at NSA indefinitely. c) (TS//SI//NF) The bulk metadata is tagged to provide reasonable assurance that the data is only accessed by authorized personnel. d) (U) All of the above. e) (U) None of the above.				
(U) (OGC Attorney): Let’s check what you remember from this topic!					
ANSWERS: Question 1. (TS//SI//NF) Correct! All of the above describe the BR Bulk Metadata Program. (TS//SI//NF) Incorrect. The correct answer is d). All of the above describe the BR Bulk Metadata Program. Question 2. (TS//SI//NF) Correct! It is NOT TRUE that for the PR/TT Bulk Metadata Program NSA only collects limited metadata from the communications of approved targets. ██████████					

~~(TS//SI//NF)~~ Incorrect. The correct answer is b) because it is NOT TRUE that for the PR/TT Bulk Metadata Program NSA only collects limited metadata from the communications of approved targets. [REDACTED]

Question 3. ~~(TS//SI//NF)~~ Right! The bulk metadata is tagged to provide reasonable assurance that the data is only accessed by authorized personnel.

~~(TS//SI//NF)~~ Incorrect. The correct answer is c). The bulk metadata is tagged to provide reasonable assurance that the data is only accessed by authorized personnel.
