The document titled, "Criminogenic Risk Factors Booklet," is cleared.

Please run the Document Inspector (found under File/Info/Check for Issues) within any Word/Power Point documents/briefings and sanitize/remove all data identified in the file before sharing.

This clearance does not apply to any discussions or other exchanges of technical information that may be discussed in emails, telephone calls, or other communications that is an embellishment or otherwise outside of the specific level/scope of technology contained in the presentation. Any such disclosures must be cleared in advance by the S&T Security Office and Export Controls Group in line with the established FDO process.

Thank you,

Hi (b)(6)

You may recall that earlier this year, I started sending you for review, 5 PSVP brochures for publication on www.dhs.gov. But I pulled them back after HQ started sending us revisions in drips and drabs after the original deadline.

Finally, all 5 are approved by HQ, as well as the MCS PM, of course. COD has approved the editorial content as well, the 508 Compliance Manager is verifying that the last few changes he asked for, have indeed been made.

So, I'm sending these to you one at a time for Security review and hopefully sign off.

THANKS!
