Subject: RE: Important: input needed by Noon Monday

All,

We have been participating in the following activities with Policy. I am not aware of anyone dropping the ball on our promises and support to them, but if there are specific examples, I would like to know about it. Here are some examples off the top of my head:

- • Task orders (including FFRDC), RD&I dollars, or resources you are sending to Policy for:
 - • Risk Framework for Emerging Threats (Brian Ware)
 - • C/T strategy – This has been led by Adam Cox. I have personally participated in their meeting whenever I have been invited and provided any input or feedback they have requested. I have not heard from Katie Gorka or Kate Quinn with additional meeting invitations or requests for input recently.
 - • Human Trafficking Strategy – SS-TC has provided significant substantive information to support this effort. We remain involved and the lead writer (Elizabeth Harmon) continues to consult with S&T and request our support in follow up meetings and events. The input has primarily been from Jen Foley, Patty Wolfhope, and me.

- • CUAS (I know this one)
- • Any other allocation of resources (people, funding) to Policy
 - • We have invited and welcomed the participation of DHS policy in the 5RD meetings to ensure that DHS policy and HQ operational goals are shared and drive the R&D planning at S&T. Katie Gorka (PLCY) and Dr. John Picarelli (OPE until recently, but now policy) attended our planning meeting in London in Sep of 18. We also ensure the Caitlin Del Sol is aware and informed of these activities.
 - • We directly support the CVE Working group of the Five Country Ministerial (FCM). We have been requested to provide SME service and participate in their meetings, and have done so whenever requested. We also have items on the group's work plan (approved by S1 and the ministers of each nation). We have delivered all of our required products on time, and they have been well received by the FCM WG.
 - • We provided (on very short notice) requested information for treatment of children at the direct request of PLCY. I have attached an example.
 - • We have provided (and continue to provide) SME support regarding specific cases. S&T funded SME's for clinical treatment of children exposed to severe trauma are actively advising state officials in Indiana as they treat and care for children of returning foreign fighters at the request of DHS PLCY (Kate Quinn)
 - • We supported PLCY as part of the writing team for the CT/CVE in-brief for Sec Kelly and Sec Nielsen.
 - • We are currently provided input and feedback to PLCY on the definition of mission of the new Targeted Violence and Terrorism Prevention (TVTP) office.
- • A quick (1-2 sentence) status update
- • The names of anyone else within S&T I should be asking about this.

Please let me know if you have any questions or would like more details. Given a little time in the office, I can provide a lot more detail and a list of many other activities and products resulting from our partnerships there.

Mary,

I'm looping in Rik Legault and some of the social sciences tech center team. They work closely with Policy on a number of items and can most likely provide you with in depth status on a few of your requests.

I'm happy to help track down other information if you need it.

Kind Regards,

Melanie Cummings

Subject: Important: input needed by Noon Monday

All -

I had a conversation with leadership at Policy on Friday about the HQ Portfolio and support to Policy. They provided difficult feedback, which can be summarized as "S&T has made promises and not followed through", followed by many specific examples. There are obviously many sides to this story, including a political aspect. However, based on this conversation, I believe we are at a critical juncture with respect to S&T credibility at Policy.

My first step is to provide an update to Policy on where we stand on several initiatives that were specifically referenced as both priorities and problematic (from Policy viewpoint). I need to do this quickly but do not intend to provide more than a status update. To that end, I am requesting that you let me know by NOON Monday 5/13:

- • Task orders (including FFRDC), RD&I dollars, or resources you are sending to Policy for:
 - • Risk Framework for Emerging Threats (Brian Ware)
 - • C/T strategy
 - • Human Trafficking Strategy
 - • CUAS (I know this one)
 - • Any other allocation of resources (people, funding) to Policy
- • A quick (1-2 sentence) status update
- • The names of anyone else within S&T I should be asking about this.

I will use this information to provide a quick status update to Policy. I appreciate the support, Thanks, Mary

Mary McGinley
Portfolio Director, Physical and Cyber Security
DHS Science and Technology Directorate
