Subject: RE: Meeting between S&T Social Science Tech Center and I&A Intelligence Oversight & Collections Management

Hi (b)(6)(b)(7)(c),

Thank you again for setting up this meeting Next Friday. I am looking at this original meeting invitation for our meeting next Friday and some of the comments from S&T point to attachments. Were some attachments shared with you such as a noted implementation plan?

If not, would there be a way to reach back out to the respondent from S&T for the implementation plan?

Thank you so much,

(b)(6)(b)(7)(c)

--

(b)(6)(b)(7)(c)
Assistant Intelligence Oversight Officer
Office of Intelligence & Analysis
U.S. Department of Homeland Security

Subject: Meeting between S&T Social Science Tech Center and I&A Intelligence Oversight & Collections Management
When: Friday, May 7, 2021 10:00 AM-11:00 AM (UTC-05:00) Eastern Time (US & Canada).
Where:

All,

Please see below for the answers to IO's initial questions to S&T:

- What is the lawful Mission S&T is seeking to accomplish?

REL0000002285

○ All of our work in terrorism and targeted violence prevention is routed in the DHS Countering Terrorism and Targeted Violence Implementation Plan (attached) and aligns specifically to Goals 1 (to understand the evolving terrorism and targeted violence threat environment) and 3 (prevent terrorism and targeted violence).

• *If S&T is functioning as a technology partner (via social science research), who is their customer and what is their lawful mission?*

○ The Social Science Tech Center is in the Enduring Science Branch of the Office of Science and Engineering. Part of our mission it to provide foundational research on topics that are of interest to the public and the scientific research communities. In other words, we do not necessarily always have a customer to whom we are delivering a knowledge product or recommendation. In many instances we are funding research in order to bring greater awareness or resources to a topic or topic area, with the intent of disseminating the research back to the public and academia. In other instances, we also provide SME support to another S&T group the Office of Mission & Capability Support (MCS) who do support other DHS programs, but the current research goals involving social media data collection are limited to the Enduring Science Branch, and do not have a customer per say. Having said that, we do often solicit the input of other components and offices in DHS and the government on things such as inclusion criteria, variables, formatting of outputs because we want our research to be beneficial to their missions as well. Law enforcement and intelligence are not the primary or intended end user, but they are a stakeholder. Academia, NGOs, and public interests are our “customers.”

Additionally, here are some questions posed back to IO & CMD by S&T:

1. Is the data a continual drip of information over time, or does it have a definitive beginning and end?
2. What are the data sources?
3. How is the data stored and accessed – are there clearance considerations?
4. What are the inclusion criteria for the data?
