PROGRAM NARRATIVE**

2011 JUSTICE ASSISTANCE GRANT PROGRAM (JAG)

Hudson County is located in northern New Jersey, across the Hudson River from Manhattan. The county has a total land area of 46.42 square miles and as of a 2008 estimate a population of 595,419. Hudson County consists of 12 municipalities several of which are eligible for Justice Assistance Grant funds. These cities are:

City of Bayonne	\$ 24,514
City of Hoboken	\$ 18,585
City of Jersey City	\$272,974
Town of Kearny	\$ 13,329
Township of North Bergen	\$ 13,918
City of Union City	\$ 43,646
Town of West New York	\$ <u>23,463</u>

TOTAL: \$410,429

The County of Hudson through the County Prosecutor's Office will act as fiscal agent for these cities only and will not be receiving any funds. A detail need analysis narrative and budget for each of the eligible municipalities is as follows:

CITY OF BAYONNE

PURPOSE AREA:

Law Enforcement program previously eligible for funding under Byrne Justice Assistance Grant Program.

NEED:

The City of Bayonne Police Department has identified the need to streamline and consolidate the time-consuming task of shift scheduling and extra duty hiring for all of its uniformed members. The proposed project to be funded under this year's round of the Edward Byrne Justice Assistance Grant Program would encompass the purchase of customizable software (*Police Office Scheduling System*, AKA: *POSS*) designed to incorporate Bayonne-specific "work rules" for the scheduling and management of sworn personnel, our most expensive asset. This purchase would allow the department to transition from a traditional paper-based system and provide our sworn employees, supervisors, and management personnel the benefits of tracking all scheduled work obligations and time-off requests in real time, regardless of their location.

NARRATIVE:

The software system would ultimately allow the department's supervisory and management personnel to more effectively track, project and report our manpower needs instantly, on a unit, squad or bureau level. In addition, the system would automatically generate the department's daily worksheets and master sheets, which are currently created and maintained by hand.

The software itself is designed to be user-friendly and allows for an immediate color-coded visual review of staffing on a daily, weekly or monthly basis, which will greatly reduce the time spent checking and adjusting multiple schedules to achieve staffing requirements. In light of a notable decrease in the number of sworn personnel due to budgetary considerations, this is becoming a more time consuming task on a day-to-day basis.

The system immediately updates the work shift in question when an excused or unexcused absence occurs, or when a time-off request has been submitted. The system also allows for the consolidation of scheduling for all sworn personnel from the department's three divisions.

TOTAL PROJECT COSTS **\$27,200.00**

TOTAL GRANT AWARD: **\$24,514.00**

The City of Bayonne will fund the difference between the Total Project Cost and the Grant Award Amount.

PERFORMANCE MEASURES:

Through the implementation of this project, the processing, documenting and monitoring of all sworn personnel would be managed to a much greater effect, with fewer required man-hours.

CITY OF HOBOKEN

PURPOSE AREA:

Law Enforcement program previously eligible for funding under Byrne Justice Assistance Grant Program.

NEED:

The City of Hoboken has identified a need to add (21) Computer workstations throughout the Hoboken Police Department. The Hoboken Police Department currently maintains a sworn force of 133 officers and 20 civilian employees, conducting police operations and reporting around the clock 365 days a year. The department currently maintains (54) computer workstations within headquarters and additional workstations offsite. Of the (54) workstations the department currently maintains, (28) are out of warranty with most approaching eight years of service life. The suggested "Service Life" for a work station in the Police Department's heavy data processing environment should not exceed (5) years of service.

NARRATIVE:

The Hoboken Police Department has recently conducted an assessment of its computer network infrastructure. Unfortunately there are many areas of concern regarding antiquated and over worked hardware. The department's main server has failed (crashed) on five separate occasions over the past few months, due to its age and performance overload. The department and the City of Hoboken has made a commitment to, and is in the process of, replacing the old server with a new one. In addition, the status report reveals the department currently maintains (54) computer work stations, with most being utilized extensively. Twenty eight of these work stations are no longer covered under warranty, and an additional three will be out of warranty September of 2011. Twenty of these workstations are approaching eight years of service life, which presents extreme difficulty in the procurement of replacement parts and antiquated software which are obsolete and no longer supported by its manufacturer. Newer software loaded on these older systems will not operate properly due to the high system requirements. Furthermore in anticipation of the new network servers being acquired and operational, the department could experience regular conflicts and crashes due to the drastic differences in technology between the workstations and servers. Without the acquisition of these new workstations, the department anticipates continued computer network infrastructure failures in the future.

TOTAL PROJECT COST:		\$19,227.60
TOTAL AWARD AMOUNT:		\$18,585.00

The City of Hoboken will fund the difference between the Total Project Cost and the Grant Award Amount.

PERFORMANCE MEASURES:

The City of Hoboken intends to utilize all of the 2011 Justice Assistance Grant funding, toward the purchase of new computer work stations which will replace older antiquated versions. The new work stations will provide greater compatibility and functionality with the departments anticipated computer server upgrades. This purchase will directly impact the effectiveness and efficiency of the Hoboken Police Department's reporting and data processing capabilities.

CITY OF JERSEY CITY

PURPOSE AREA:

Law Enforcement program previously eligible for funding under Byrne Justice Assistance Grant Program.

NEED:

The Jersey City Police Department will continue to utilize this funding for the continuation of foot and vehicular patrol units that address quality of life complaints from residents in selected hot spot areas throughout Jersey City. The full **\$272,974** grant will service overtime assignments and implement other alternative methods of community policing services as needed on selected weekdays and weekends. The usage of these funds will also focus police deployment during holiday observances and regional security alert periods. The following proposed budget is offered for review and approval.

NARRATIVE:

Quality of Life Police Overtime

Consistent with previous BJA submissions, we propose to use this year's allocation of JAG funds to continue Quality of Life uniform patrols through fixed posts assignment of officers during the evening hours. Previous BJA awards have allowed the department to deploy uniform officers on fixed/foot posts at target "hot spot" locations proving these assignments to be effective and resulting in a reduction in disorder and crime. We propose to continue this tactic and implement other alternative methods in support of our ongoing community based policing efforts to improve conditions and reduce crime.

We will continue to establish high visibility of police presence within identified hot spots to promote a zero-tolerance approach to quality of life issues. Quality of life posts will be identified through analysis of calls for service, reported crime, and community input.

Quality of Life Overtime Analysis of Need

A careful analysis of police calls for service shows that a majority of the crimes occur between the hours of 3PM and 11PM then gradually declining through the early morning hours. This finding is consistent with the studies of delinquency and gang related activity. A review of reported crime shows the same temporal distribution, with more serious violent crime being reported in the evening hours as a result of these findings patrols will also be assigned during special events and holidays.

Currently there are 25 QOL, (quality of life) posts throughout Jersey City and we have also deployed "Titan Teams"; that compromise of a group of officers sent into problematic areas to eradicate the reported problems. The tactical operations of this unit are unexpected and prove to be highly effective and supported by the communities in which they are assigned. Districts will continue to identify and describe each QOL post by type of complaints and crime problems, times of occurrence and prescribe a law enforcement activity and adjust our deployment by time and location accordingly.

PERFORMANCE MEASURES:

Goal 1: *Continue to increase the presence of police officers in high crime areas*

Outcome: Reduce crime in targeted area through focused police patrols utilizing overtime.

Measurement:

- Track arrests made in target areas, categorize arrest and utilize data for impact comparison
- Track number of summons issued for parking and moving violations, loud music, drinking in public and other quality of life violations. Compare numbers with previous month/year.

Goal 2: *Build stronger police community partnerships*

Outcome: Improve relationships between police and local community.

Measurement:

- Police patrols will interact with the community and local businesses while on patrol. These contacts will be documented.
- Officers will encourage community to get involved and officers will get involved with the community.
- Contacts with local community will provide police with tactical and operational intelligence.

TOWN OF KEARNY

PURPOSE AREA:

Law Enforcement program previously eligible for funding under Byrne Justice Assistance Grant Program.

NEED:

The Kearny Police Department has identified the need to supplement its current police vehicle fleet by one (1) additional marked police enforcement vehicle.

NARRATIVE:

This additional police vehicle will supplement the Kearny Police Department's current fleet increasing the visibility of law enforcement in the Town's communities, patrolling and responding to incidents, transportation for officers to reach the scene of an incident quickly and to transport criminal suspects.

PERFORMANCE MEASURES:

The addition of a marked police cruiser will serve and enhance our community-policing efforts; add greater visibility to our law enforcement services and its effective delivery to residents, commercial businesses and local institutions that help to promote and preserve quality of life standards in neighborhoods throughout the Town of Kearny.

TOWNSHIP OF NORTH BERGEN

PURPOSE AREA:

Law Enforcement program previously eligible for funding under Byrne Justice Assistance Grant Program.

NEED:

The Township of North Bergen has identified a need to equip its vehicles with mobile data tablet computers in order to increase interoperability, enhance officer and public safety, and expand on its current Information Technologies infrastructure. The Township also has a need to replace it's aging NCIC and command printers.

NARRATIVE:

The Township of North Bergen requests to purchase to complete ruggedized tablet computer systems to expand its current fleet of mobile data enabled police vehicles. These computers will enable officers in the field to collect critical law enforcement data, communicate discretely with the police operations, have access to various law enforcement databases and be able to enter police reports instantaneously.

Mobile data computers provide officers with a powerful productivity tool that will help maximize efficiency, accuracy and overall public safety. Having immediate access to critical information also enhances officer safety when responding to police calls or when initiating motor vehicle stops or field interviews.

TOTAL GRANT AWARD		\$13,918.00
TOTAL PROJECT COST		\$14,293.98

The Township of North Bergen will fund the difference between the Total Project Cost and the Grant Award Amount.

PERFORMANCE MEASURES

With new equipment, it is anticipated that officer efficiency will increase, officer and public safety will be enhanced, and the quality of service to the public will improved.

CITY OF UNION CITY

PURPOSE AREA:

Law Enforcement program previously eligible for funding under Byrne Justice Assistance Grant Program.

NEED:

The City of Union City Police Department has identified a need to continue uniformed patrol during evening and weekend hours in an effort to combat quality of life issues. Furthermore, the Department has also identified a need for daytime patrols to combat issues related to daytime residential burglaries.

NARRATIVE:

The City of Union City's share of the Justice Assistance Grant is \$43,646.00. The Union City Police Department proposes to use these funds to continue uniformed patrols during evenings and weekends to combat quality of life issues. The Department also proposes anti-crime plainclothes patrols during daytime periods to combat issues such as residential burglaries. These patrols will support the City's ongoing policing efforts to improve the quality of life conditions and reduce crime throughout the City.

CITY OF UNION CITY BUDGET

Quality of Life personnel for 727.43 hours @ \$60.00 per hour = \$43,646.00

TOTAL PROJECT AWARD:	\$43,646
TOTAL PROJECT COST:	\$43,646

PERFORMANCE MEASURES:

The City will monitor quality of life/crime trends in the targeted areas. The expectations are a reduction in quality of life issues and a reduction of targeted crimes.

TOWN OF WEST NEW YORK

PURPOSE AREA:

Law Enforcement program previously eligible for funding under Byrne Justice Assistance Grant Program.

NEED:

The Town of West New York is in need of five (5) computers for processing arrests, five (5) police lighting and siren packages for police vehicles, 1 "wrap" package, i.e. (lettering) identifying police all terrain vehicle (ATV) as a WNYPD police vehicle, and two (2) high tech portable cameras to be positioned in problematic areas.

NARRATIVE:

Currently the "Tactical Patrol Officers" officers are processing arrests by sharing computers with the "Patrol Division" therefore causing a backlog in processing arrests. The purchase of the computer equipment will increase productivity in the processing of arrests and allow officers to return to their duties. The lighting and siren packages will make ready un-marked vehicles for police use and enhance patrolling. The ATV unit will be used to provide greater access to the Town's Hudson River Waterfront Area. The high-tech portable cameras will allow officers to identify a criminal activity in targeted areas and dispatch officers to the scene quickly. The cameras will address a range of issues resulting from criminal activity, increase productivity and address "Quality of Life" violations such as loitering, panhandling, public alcohol consumption and noise complaints.

ABSTRACT

The City of Bayonne, City of Hoboken, Jersey City, Town of Kearny, the Township of North Bergen, the City of Union City and the Town of West New York will utilize Fiscal Year 2010 JAG funding to implement projects that encompass the purpose area of law enforcement and technology programs.

The allocated share for the City of Bayonne (\$24,514) will be used to purchase customizable software (Police Office Scheduling System – POSS) which will streamline and consolidate the time-consuming task of shift scheduling and extra duty hiring for all of its uniformed members. The City of Hoboken will utilize its share (\$18,585) to purchase 21 computers directly impacting the effectiveness and efficiency of the Hoboken Police Department's reporting and data processing capabilities. The City of Jersey City will continue to use JAG funding (\$272,974) to support efforts of foot and vehicle patrol units responding to quality of life complaints from residents in select areas of the city.

The Town of Kearny funds (\$13,329) will be used to increase their current fleet by purchasing a marked police vehicle increasing the visibility of law enforcement in the Town's communities, patrolling and responding to incidents, transportation for officers to reach the scene of an incident quickly and to transport criminal suspects. The Township of North Bergen will apply its allocation (\$13,918) to purchase Mobile Data Computers enabling officers in the field to collect critical law enforcement data, communicate discretely with the police operations, have access to various law enforcement databases and be able to enter police reports instantaneously.

The City of Union City proposes to utilize their award (\$43,646) to continue uniformed patrols to combat quality of life issues reducing crime throughout the City. The remaining funds (\$23,463) will be used by the Township of West New York to purchase computers for processing arrests, police lighting and siren packages for police vehicles, a police lettering package identifying a police all terrain vehicle (ATV) as a WNYPD police vehicle, and high tech portable cameras to be positioned in problematic areas.

The County of Hudson, through the Prosecutor's Office will serve as the fiscal agent for the award and will not receive funding.

CITY OF HOBOKEN

RESOLUTION NO. _____

**A RESOLUTION AUTHORIZING THE CITY OF HOBOKEN TO ENTER INTO AN
SHARED SERVICE AGREEMENT WITH HUDSON COUNTY IN ORDER TO
PARTICIPATE IN THE 2011 ANNUAL EDWARD BYRNE MEMORIAL JUSTICE
ASSISTANCE GRANT PROGRAM (JAG)**

WHEREAS, Hudson County and the City of Hoboken (hereinafter collectively referred to as the Parties) wish to encourage inter-local cooperation and planning with regard to their common interests in the provision of an effective Police Program to combat crime at the local level; and

WHEREAS, the Parties recognize that shared service agreements may yield certain economics and efficiencies to the residents of the Parties in the delivery of the services; and

WHEREAS, the "Uniformed Shared Services and Consolidation Act," N.J.S.A. 40A:65-1 et seq., authorizes a municipality to contract with any public or entity for the provision of any service which the municipality itself could provide directly; and

WHEREAS, the "Uniformed Shared Services and Consolidation Act," N.J.S.A. 40A:65-1 et seq., authorizes local units of the State to enter into a contract with any other local unit or units for the joint provision within their several jurisdictions of any services which any party to the Agreement is empowered to render within its own jurisdiction; and

WHEREAS, the Parties have negotiated the attached Agreement relating to the services referenced above.

NOW, THEREFORE, BE, AND IT IS RESOLVED, by the City Council of the City of Hoboken, in the County of Hudson and State of New Jersey, as follows::

- 1) That the City of Hoboken is hereby authorized to enter into the attached Shared Service Agreement, pursuant to N.J.S.A. 40A:65-1 et seq., which permits the County of Hudson to pass along JAG funds to the City of Hoboken to under the terms and conditions referenced in the attached agreement.
- 2) That the Mayor is authorized to execute and the Municipal Clerk to attest to the attached Agreement on behalf of the City of Hoboken.
- 3) That the Agreement shall not become effective until such time as the governing bodies of both public entities have duly authorized their appropriate Public Officials to execute and attest the attached agreement and the Agreement has been fully executed and attested.
