Hi Sarah and Lauren,

Joel is asking to schedule a call with Jon K (Inside Hook) and a larger presentation involving someone from the company Prehype at the next in person meeting. Joel is asking when the next committee meeting will take place. I did not want to answer out of line in case you had more to add to address in your message in terms the next full SC call but should we go ahead and schedule Jon K during the times Joel has listed below?

Let me know if you have already addressed this or whether I should answer.

Thanks!

Katrina

Hi Jon,

Great talking with you this morning, you were incredibly helpful both in framing how we think about the tech piece of our committee's work and in concrete suggestions on how we can move forward.

First, I want to re-energize this email chain with the goal of scheduling two things:

- • A phone call for Jon and one or two others Jon will invite with the committee on marketing, messaging, and content. Jon had mentioned possibly March 3-4 or March 10-11.
- • A presentation with Henrik Werdelin of Prehype, Jon, and perhaps one other, on how the incubator/accelerator community holds lessons for, and can potentially be involved in, CVE programs. This presentation may be best to do at our next committee meeting, at Jon's suggestion. Do we know when this will take place?

Also, Jon, it would be great to get your contact at Snapchat involved, even with just a phone call, so please let us know if/when that becomes possible.

And finally, here is some additional information about the committee and CVE work at DHS more generally.

- • * Federal Register notice announcing the committee's creation (attached)
- • * Press release announcing formation of the new Office of Community Partnerships at DHS, which this committee works closely with
- • * NPR interview with George Selim, Director of OCP
- • * Edventures Peer2Peer Challenging Extremism program

Hope this is helpful. And thanks again.

Best,
Joel

Jon,

I think I can be helpful on the latter question. This committee of outside, non-governmental members is putting together a report that will advise Sec Johnson on what the Department can be doing better on CVE. I want to engage you specifically to discuss the idea of messaging, particularly with young people. How do cutting edge companies create viral content? How do they define, understand, and reach their target audiences? What tools and metrics do they use?

From my perspective those are some of the most interesting learnings that the committee can pass on to the Department and this call is an opportunity for us to learn from you and others to inform that.

Hope that's helpful. Feel free to call anytime with questions on this.

discussion. Is there a time you and I (or anyone from your team) can jump on a 5 min call?

Please let me know in both fronts.

Also, at your convenience, can you provide me with your official title and, if available, bio? If there are any deliverables you are interested in sending for the call, you may send those over as well when ready. You will be receiving a meeting invite shortly.

Thank you and we look forward to the call.
