Abstract

Applicant: Laramie County, Wyoming and Cheyenne Police Department

Project Title: Laramie County Community Law Enforcement

Goals: Activity # 1

1. Install a license plate reader in one patrol vehicle at the Cheyenne Police Department.

Goals: Activity # 2

1. Ensure that the Laramie County Detention Facility has complete security by installing time locks and a secure card entry.
2. Ensure that deputies have adequate PPE out at the Juvenile Detention Facility with (5) Air Packs.
3. Allow a patrol vehicle to be equipped with a Digital Video Recorder for better community policing.

Strategies to be used: For both activities # 1 and # 2, equipment will be purchased following county and city policies to ensure a fair market value. The equipment will be used strictly to enhance law enforcement capabilities in Laramie County. All purchases made with grant funding will be monitored by the Laramie County Grants Office to ensure full compliance.

Project Identifiers:

Activity #1: Data Sharing/Linkage and Equipment-General

Activity #2: Electronic Monitoring, Officer Safety and Equipment-video recording

Review Narrative

This joint application has been made available to our governing body, Laramie County Commissioners, which approved application for these funds and appointed a responsible official by resolution.

The Cheyenne Police Department will post its portion of the grant application on the department's website, with information about whom to contact for public input.

The Laramie County Sheriff's Department will post the entire application on its departmental website, with information about whom to contact for public input.

The memorandum of understanding between Laramie County Board of Commissioners and the City of Cheyenne will be forthcoming (delayed due to agenda processing), will be publicly noticed by both bodies and heard in public meetings. Laramie County understands that grant award may be conditioned upon submission of the MOU.

PROGRAM NARRATIVE

The purpose of this grant application is to fund two law enforcement activities undertaken by the two disparate jurisdictions within Laramie County.

Cheyenne Police Department – City of Cheyenne, License Plate reader and server

Laramie County Sheriff's Department – Door/Building Security, (5) Scott Air Packs and an in car DVR

The application includes a memorandum of understanding between the two disparate jurisdictions spelling out the funding and activities to be undertaken. The two activities are described below:

Activity 1 - City of Cheyenne, License Plate Reader and Server

License plates are a unique and distinguishable characteristic of every car. With an automobile being connected to over 80% of all crimes, recognizing and then finding the corresponding plate is of great importance. Currently when a plate is associated to a crime an officer must look at every car passed and try to find that plate. That system is extremely inefficient as it can only be done at a slow pace, in good light conditions, and the officer's ability to recollect the proper plate. An ALPR can read up to 1,800 license plates per minute in all light conditions. It processes parked cars and moving cars across four lanes of travel and can do that at a closing rate of 140mph. If a suspect plate is identified it will alert the officer within milliseconds and stamps all plates with a picture and location where it was read. It also can distinguish plates from all 50 states, Mexico and Canada.

The ALPR will be used to locate stolen vehicles. Not just those stolen locally, but regionally and nationally. It will locate wanted suspects and missing persons associated to a vehicle. It will proactively identify plates belonging to suspended/revoked drivers. It can locate plate or registered sex offenders who are limited in their travels around public areas where children plan and go to school. It will assist the parking division in locating and identifying extreme parking violators. The ALPR can also be used to identify vehicles in a specific geographic area for further follow up and analysis of crime patterns.

The average ALPR will accurately read and analyze 3,000-10,000 plates per shift. A squad of dozens of officers would not be able to come close to those numbers. This purchase would enhance our abilities to solve and prevent crime in our City and assist in locating those wanted from other jurisdictions as well.

Activity 2 - Laramie County-Door Security, (5) Scott Air Packs and a in-car DVR (Digital Video Recorder)

This activity is being undertaken to address shortages within the Laramie County Sheriff's Office Budget to obtain funding for equipment in these areas: building security, CBRNE equipment, and an in-car DVR for a patrol vehicle at the Sheriff's Department.

The Laramie County Detention Center is lacking controlled security on its front entrance and wishes to install time locks and secure card entry on the doors to control access of the public and security of the Detention Center. While the facility is secure, it is important to increase the security to those working in the detention center and the overall public.

Laramie County is construction a new Juvenile Detention Facility that will be completed around February 2012. With this grant application we are requesting funding for (5) refurbished Scott Air Packs to place in the Juvenile Detention Facility for deputy use. Without this funding the County would not have enough Air Packs to ensure the safety of the deputies located at the Laramie County Juvenile Detention Facility.

Lastly, Laramie County is requesting funding for an in-car DVR (Digital Video Recorder) for a Deputy Patrol Vehicle to enhance our patrolling and response capabilities. A DVR is a tremendous asset to a patrolman in the County where they can often be on calls outside of populated areas.

Without this funding, it would be difficult for us to give up other vital equipment to make these purchases. The assistance of this funding would provide assistance to Laramie County's efforts to expand and formalize its community-oriented policing strategies and operations.

BUDGET DETAIL WORKSHEET

ACTIVITY 1

A. *Equipment*

Two camera reader with computer program, three year warranty	\$25,000
MDT car computer compatible with our current system	\$5,109
Fixed computer server for data storage	\$4,500
	<u>Total: \$34,609</u>

Budget Narrative

The Cheyenne Police Department will compete for the purchase of a Mobile Automatic License Plate Reader and associated computer equipment. Therefore an exact price is not available at this time.

The equipment purchased for this activity will be retained at the end of the grant period and used for the same purpose.

ACTIVITY 2

A. *Equipment*

Building security equipment cost:	\$4,773
Scott Air Pack (5) Refurbished @ \$875 each	\$4,375
In-car DVR 1 @ \$4,715.00	\$4,715
	<u>Total: \$13,863</u>

Budget Narrative

The Laramie County Sheriff's Office needs to install time locks and a secure card entry at the entrance of the Detention Center. Laramie County government buildings already utilize this equipment. The County IT department will be assisting in the installation and coordination of the equipment. The purchase and installation of this equipment will cost roughly \$4,773.

The Sheriff's Department will use \$4,375 to purchase (5) refurbished Scott Air Packs to be placed in the Juvenile Detention Center for deputy use.

The Sheriff's Department is requesting funding of \$4,715 to be used towards the purchase of an in-car DVR (Digital Video Recorder) to be placed in a deputy's patrol vehicle.

This grant will be used to fund 100% of costs up to the amount of the grant, with any remaining costs to be paid by the Laramie County Sheriff's office. The equipment purchased for this activity will be retained at the end of the grant period and used for the same purpose.
