SUMMARY

**PURPOSE**: To forward to the Intelligence Oversight Board (IOB) of the President's Foreign Intelligence Advisory Board, via the Assistant to the Secretary of Defense for Intelligence Oversight (ATSD(IO)), NSA's quarterly report on its intelligence activities.

BACKGROUND: Executive Order 12333 and Executive Order 12863 require Intelligence Community agency heads and Intelligence Community General Counsels and Inspectors General, respectively, to report to the IOB on a quarterly basis concerning intelligence activities that they have reason to believe may be unlawful or contrary to Executive Order or Presidential Directive. The enclosed memorandum covers all reportable activities known to the Inspector General and General Counsel. Per PIOB letter of 6 August 1982, Agency heads are responsible for reporting separately any additional reportable activities known to them, unless the President has specifically instructed that the Board is not to be informed. The Director's signature signifies that no other activities that require reporting are known to him.

**RECOMMENDATION**: Director sign the enclosed memorandum.

## 2. (U) GENERAL COUNSEL ACTIVITIES

a.—(C//SI) The OGC reviewed various intelligence activities of the United States Signals Intelligence System (USSS) to determine whether they were conducted in accordance with applicable statutes, Executive Orders, Attorney General procedures, and DoD and internal directives. The OGC advised Agency elements on a number of questions, including the collection and dissemination of communications of or concerning U.S. persons; the reporting of possible violations of federal criminal law contained in SIGINT product; the testing of electronic equipment; and the applicability of the Foreign Intelligence Surveillance Act (FISA). With few exceptions, the issues presented were routine and indicated that the operating elements understand the restrictions on SIGINT operations. The OGC did not file any reports with the Intelligence Oversight Board during this quarter.

fundamental legal principles underlying the SID mission. At the briefing, each individual is given handouts containing a list of all the legal documents that must be read on a yearly basis, procedures for handling a USSID-18 violation, and points of contact for specific oversight issues in the SID Oversight and Compliance Office. The first briefing was presented on 6 September; after a 2-month hiatus related to the September 2001 terrorist attacks, briefings resumed on 6 November. The goal is to brief each person assigned to SID by the end of March 2002. Most individuals assigned to NSA Headquarters will attend a live presentation of the briefing; those assigned to the field and other persons unable to attend will be able to view the presentation remotely or via videotape.
