All – Thank you to all who participated in the CVE Working Group meeting.

As mentioned in the meeting FEMA has developed a training titled: Planning and Intervention for Gangs, Hate, and Terrorist

Groups in Rural Jails and Prisons.

This training was developed before DHS and the WH developed their respective CVE approaches. This training has been under development for 20 months and FEMA is looking to get this finalized.

However, FEMA would like the CVE Working Group to review this document and provide feedback.

Please send your tracked changes to (b)(6) and Richard.woolman@fema.dhs.gov by COB Wednesday March 21st.

Thanks,

-Nate
